- Pins & Retainers
- Bolts & Nuts
- Washers
- Bushes
- OEM/ODM types also workable

Bucket Teeth & Adapters

Yongfeng produce a vast range of bucket teeth & adapters, which suitable for all earthmoving equipments and applications

Popular Series

- Caterpillar family: J series from J200 ~ J800 / Ripper Teeth from R300 ~ R550
- Komatsu family: PC40 ~ PC1200 / WA200 ~ WA600
- ESCO family: Conical series from 18S ~ 45S / Super V from V13 ~ V81
- Hyundai family: E161 ~ R225
- Daewoo family: DH200 ~ DH500
- Volvo family: Volvo 210 ~ 700
- Hitachi family: EX70 ~ 470
- JCB family: 2CX ~ 4CX

Mechanical Property

Material: Alloy steel & Ni / Mo elements
Hardness: 48 ~ 55HRC
Impact: ≥ 25J

Cutting Edges & End Bits

Yongfeng produce a complete line of blades for all models of earthmoving equipments and applications.

Popular Series

- Graders blades & end bits
- Dozers edges & end bits
- Loaders bolt-on & weld-on edges, segments
- Excavator edges
- Snow plow blades

Available types

- DBF, DBC, SBF, DBF
- With / Without holes
- Overlay / Pressed
- OEM / ODM workable

Mechanical Property

Material: 30MnB, 16Mn, C80, C45, etc
Hardness: HB400 ~ HB500

Why Choose Us

One-stop Solution

Yongfeng aims at making your purchases easy and hassle-free to save your time and energy, with offering one-stop solutions for all your G.E.T parts

Speedy Delivery

Yongfeng have full range of stocks, any quotes or orders will be responded in an hour and fast delivery at 1-3 weeks as per your order request.

Warranty

QC dept follows whole process of production, all Yongfeng parts are guaranteed with 12 months warranty. Free replacement will be provided if any quality problem.

Technical Support

Over 20+ years production experience in G.E.T line allows Yongfeng to give our customers technical support.
