企业简介
Enterprise profile

山西鑫瑞达冶金机械制造有限公司成立于2003年，坐落于山西省交城县西汾阳村工业园区，依托当地铸造资源、区位、技术、交通等基础优势，建成了年产25000吨、以高锰钢、合金钢为主的生产基地。

我公司主要生产矿山及工程机械配件产品，在高锰钢与合金钢铸造、机加工等方面具有丰富经验，可铸造单重25吨以下的高锰钢与合金铸钢件产品，主要产品种类有：进口圆锥破碎机耐磨件、进口鄂式破碎机耐磨件、金属破碎机耐磨件、斗齿、铲牙、锭模、链板等,产品远销北美、南非、加拿大、欧洲、东南亚等地。

公司重视技术投入，拥有先进的生产设备与检验设施，主要生产设备如下：

1、陶瓷砂生产线一套（含砂再生系统）；

2、15吨/8吨/5吨/1吨中频炉各一台；

3、1000吨/500吨立式矫正机、1500吨卧式矫正机各一台；

4、2.5米立式车床六台，2米立式车床2台，3米、1.6米、1.5米立式车床各一台；

5、自动控温电热处理设备三套；

6、抛丸设备两套；

7、布袋除尘设备八套；

8、钢水温度测量仪两套；

9、光谱分析仪一套；化学分析仪两套；

10、金相检测仪一套，超声波探伤仪一套，磁粉探伤仪一套；

公司坚持和推广全面质量化管理，不断充实技术力量，并常年聘请铸造及冶金行业的专业人士驻公司指导和培训，采用ISO9001质量认证程序进行管理，建立健全了一套完整的管理与质量保证体系，以过硬的产品质量和完善的售后服务赢得了国内外客户的广泛信赖和赞誉。

Enterprise profile

企业简介

Shanxixinruidayejin was established in 2003 and is located in the Xifenyang Village Industrial Park, Jiaocheng County, Shanxi Province. Relying on the basic advantages of local casting resources, location, technology, and transportation, it has built an annual output of 25,000 tons. High manganese steel, alloy steel main production base.

Our company mainly produces mining and engineering machinery accessories products, and has rich experience in the casting and machining of high manganese steel and alloy steel. It can cast high manganese steel and Hejinzhu steel products with a single weight of less than 25 tons. The main types of products are: imported cone Crusher abrasion parts, imported E Crusher abrasives, metal Crusher abrasives, bucket teeth, shovel teeth, Spindle molds, chain plates, etc.. Products are exported to North America, South Africa, Canada, Europe, Southeast Asia and other places.

The company attaches importance to technical input and has advanced production equipment and inspection facilities. The main production equipment is as follows:

1, One set of resin-sand line(including the sand-recycle system)

2, Medium-frequency electric furnace:15Ton;8Ton;5Ton;1Ton.

3,1000MT/ 500MT Vertical straightening machine, 1500MT Horizontal straightening machine.

4,2.5 meters vertical lathes, 2 meters vertical lathes, 3 meters, 1.6 meters, 1.5 meters vertical lathes.

5,Three sets of automatic control of thermal treatment equipment .

6,Two sets of throwing equipment.

7,Bag dust removal equipment eight sets.

8,Two sets of steel water temperature measuring instrument.

9,A set of spectral analyzer; Two sets of chemical analyzer.

10,A set of metallographic detector, ultrasonic injury detector set, magnetic powder detector set.

The company adheres to and promotes comprehensive quality quantitative management, continuously enriches its technical strength, and employs professionals from the Foundry and metallurgical industries to guide and train in the company all year round. It adopts the ISO9001 quality certification process to manage and establish a complete management and quality assurance system. Excellent product quality and perfect after-sales service has won the extensive trust and praise of customers at home and abroad.
