公司简介
Company Profile >>

精益求精 · 智能创新 · 达权知变
Excellence intelligent innovation change of power

清河县巨龙车辆配件有限公司是一家专业生产高品质汽车零部件的企业，也是一家行销全球的外贸企业。我们从1999年的10人作坊发展成为200多人的企业。

我们主要生产控制拉索、橡胶软管，硅胶软管和密封条等。汽车拉索主要包括换挡线、刹车线、离合器线、里程表线、油门线等，广泛应用于汽车、卡车、赛车、农业、建筑等领域。

我们拥有先进的生产设备、10年以上经验的工人、精密的仪器、检测设备，并通过了IATF16949质量管理标准体系。我厂始终遵循进取，追求最好，坚持质量贯穿的经营方针，建立了完整的质量保证体系。凭借可靠的质量保证、完善的技术服务和最佳的性价比，巨龙成为客户的理想选择。

我们将坚持锐意进取、求实创新、团结拼搏、灵活经营，紧跟市场需求，竭诚为新老客户供优质的产品，完善的售前售后服务，确保客户满意。

Qinghe Julong Vehicle fittings Co.,Ltd is a professional manufacturer of high quality auto parts and also a foreign trade enterprise that sells worldwide. We grew from a 10 people workshop in 1999 to an enterprise with more than 200 people.

We mainly produce control cables，rubber seals,rubber hose and silicon hose. Auto cables mainly includes gearshift cables, brake cables,clutch cables,speedo meter cables,accelerator cables and so on,which are widely used for automotive,truck,racing,agricultural,contruction and so on.

We have advanced production equipments,workers with more than 10 years experience,precise instruments, inspection equipments and we have past the IATF16949 quality management standard system.

Our factory always follow advancing forward,pursuing the best, adhere to in–through–quality business policy, and established a complete quality assurance system. With reliable quality assurance, perfect technical service and the best cost performance, Julong becomes the ideal choice for customers.

We will adhere to forge ahead, realistic and innovative, united struggle and flexible operating system,,keeping up with market demand, dedicated to all old and new customers with providing quality products, perfect pre–sales and after–sales services,ensure customer satisfaction.

拉力试验机 Tensile testing machine

用来针对各种材料进行仪器设备静载、拉伸、压缩、弯曲、剪切、撕裂、剥离等力学性能试验用的机械加力的试验机。

It is used to carry out static load, tensile test, etc compression, bending, shear, tearing, peeling and other mechanical properties testing machine with mechanical force.

3D打印机 3D printer

协同机器人进行集成应用，另外配合客户进行设备改造升级，控制系统集成开发。

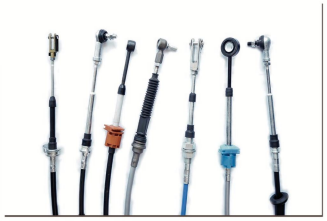
Cooperative robot for integrated application, in addition to cooperate with customers carry out equipment upgrading and integrated development of control system.

自动化设备 automation equipment

订制化服务，根据客户需求，研发与制造出适合制造企业生产需求的自动化设备，为企业提供高效低成本的自动化解决方案。

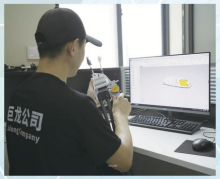
Customized services, according to customer needs, research and manufacture automation equipment suitable for the production needs of manufacturing enterprises, to provide enterprises with efficient and low–cost automation solutions.

控制拉索系列 >> Control cable series



清河县巨龙车辆配件有限公司
QINGHE JULONG VEHICLE FITTINGS CO.,LTD

★ 生产设备 Production equipment



★ 产品用途与特点 Product uses and features

拉索广泛应用于汽车，农用车，工程机械，船舶飞机等各个领域，主要分为油门，刹车，离合，推拉软轴。起到传动加速，制动，换挡等作用。

Control cable is widely used in various fields such as automobiles, agricultural vehicles, construction machinery, ships and aircrafts, and is mainly divided into throttle cable , brake cable , clutch cable , push-pull cable and so on. it Plays the role of transmission acceleration, braking, gear shifting, etc.

★ 我们注重的是细节
We focus on the details

橡胶密封条系列 >> Rubber sealing strip series

★ 产品用途与特点 Product uses and features

密封条，是将一种东西密封，使其不容易打开，起到减震、防水、隔音、隔热、防尘、固定等作用的产品。密封条有橡胶的、纸的、金属的、塑料的等多种材质。被应用到汽车、门窗、机柜、冰箱、集装箱、轮船等各种行业，根据不同行业的要求，先后研发出了特有的汽车密封条、机械密封条、门窗密封条等产品。

The sealing strip is a kind of product that seals something so that it is not easy to open, and plays the role of shock absorption, waterproof, sound insulation, heat insulation, dust prevention, fixation, etc. The sealing strip is made of rubber, paper, metal, plastic and other materials. It has been applied to various industries such as automobiles, doors and windows, cabinets, refrigerators, containers, ships and so on. According to the requirements of different industries, it has developed unique automobile sealing strip, mechanical sealing strip, door and window sealing strip and other products.

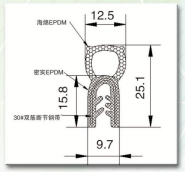
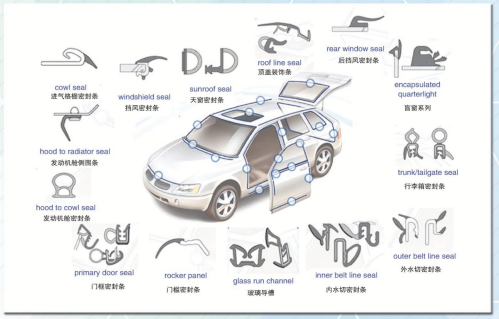
★ 生产设备 Production equipment





空气管系列>> Air pipe series

★ 产品用途与特点 Product uses and features

进气软管的功能是将车辆的原厂空气箱（或售后锥形空气滤清器）连接到用螺栓固定在发动机上的进气歧管,提供正常运行所需的空气。

一个好的进气系统可以使气流持续而干净地进入发动机。为汽车获得了卓越的里程和更大的动力。被应用于汽车工业，制造设备、建筑设备、冷却系统、发电机、鼓风、通风设备、农业设备等领域。

The function of the intake hose is to connect the original air box (or after-sale tapered air filter) of the vehicle to the intake manifold which is bolted to the engine to provide air for normal operation.

A good air intake system can make the air flow into the engine continuously and cleanly. Get excellent mileage and more power for the car. It is used in automobile industry, manufacturing equipment, construction equipment Cooling system, generator, blower, ventilation equipment, agricultural equipment and other fields.

拉索生产线
Cable production line

这是一条我们为客户规划并实施的模拟拉索生产线，内含有自动传送、组装、测试、包装等各段生产工序。

This is a way we serve our customers control cables planned and implemented production line, including automatic transmission assembly, testing, packaging, etc production process.

三元乙丙挤出线
EPDM extrusion line

这是为一台用于生产三元乙丙橡胶密封条的自动设备，采用全自动的设备替代了原先的人工作业，节省人力，提升了生产效率。内含有挤出、硫化、裁断、成型等各段生产工序。

This is an automatic equipment for producing EPDM sealing strip, using automatic equipment instead of the original manual operation, saving manpower,improved the production efficiency. It contains extrusion, vulcanization, cutting, molding, etc each section of the production process.

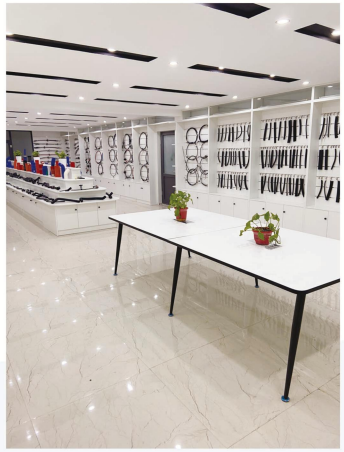
企业理念>> Corporate philosophy



企业使命:
为客户创造价值、为最终客户负责的原则、为员工创造机会、为社会创造和谐
Enterprise mission:
Creating value for customers. Responsible for the final customer,creating opportunities for staff, creating a harmonious society.

经营理念:
追求卓越、塑造完美
Business philosophy:
The pursuit of excellence,create the perfect

企业精神:
(工作)勤奋、(管理)务实、(思维)进取、(措施)创新
Entrepreneurship:
(Wok) hard management pragmatic.thinking ahead measures Inovaion

核心价值观:
做好每一项简单的工作
Core Values:
Do every simple task well

发展战略:
管理规范化, 经营品牌化、服务网络化、合作共赢化
Development strategy:
Standardized management,brand management,service network,and win-win cooperation

战略目标:
缔造中国一流的高性能无毒、环保密封条制造商
Strategic Objectives:
To create China's leading high-performance non-toxic,environmentally friendly manufacture
