

ORTAKLAR

SINGLE - DOUBLE ACTING & STANDARD AND CUSTOM MADE CYLINDERS,
(WITH OR WITHOUT SENSORS)

Capabilities

- Standard and custom made cylinders,
(with or without sensors)
inner diameter from Ø 40 to 400 mm
stroke 4000 mm
- Various parts and applications.
- Flexible production: CNC machines,
Deep Drilling, Honning, Cylindrical Grinding,
Skiving and Rollerburnishing, Automatic Welding,
Machines, Chrome Plating System,
- Chrome Plating System
inner diameter from Ø 100 mm to 400 mm;
length 3000 mm
outside diameter from Ø 30 mm to 400 mm;
length 4000mm
- Honning
inner diameter from Ø 60 mm to 400 mm;
length 4000 mm
- CNC machines
CNC Turning Machines and CNC Turning Center
with 4 axis ,3000 mm stroke processing capacity

Our Activity Areas

- Mobile Construction Equipment
- Concrete Pump Machine Parts
- Agricultural Machinery
- Automotive Industry
- Industrial Vehicles
- Ship Industry
- Food Industry

ORTAKLAR IS A MANUFACTURER SINCE 1975

Our company **ORTAKLAR MAKİNA SANAYİ** has started firstly to produce hydraulic cylinder and hydraulic units in 1975. During this process, it has been a strong position in its market and dedicated himself the fist that comes to mind about hydraulic cylinders.

In 1998 for our company, that was a year in large steps for development, in line with increasing demands has moved to new factory. In accordance with market demands, our company has continued to increase its aims to better serve for our customers and as a first step for institutionalization established two company **ORTAKLAR HİDROLİK MAKİNA SANAYİ** and **ORTAKLAR DERİN DELME MAKİNA METAL SANAYİ** that coordinated with each other.

ORTAKLAR HYDRAULIC has always been focused on customer needs and dedicated himself being a leader manufacturing company. With the development of the technology and improvements of customer needs urged to ORTAKLAR to expand the variety of products and spread out in the market with concrete delivery cylinders, hydraulic cylinders and equipments of concrete pumps.

In the early 2000's, ORTAKLAR HYDRAULIC through its position of the sector, knowledge and experience, made its first export, in addition to the self-created domestic market. Today it has been preferable brand name for foreign pump manufacturers from the USA and India, and from Russia and Australia. Our company continues its ongoing investments year by year. Today, it continues manufacturing in new, modern factory in Gebze / KOCAELİ to maximize it's production, activity and quality with trained stuff, CNC machines and modern equipments.

Under the idea of these improvements, the process of production starting with in small workshop in 1975, carrying it to future , manufacturing goods and services at an international level and returning profit for Turkish economy.
