以质量求生存　以信誉求发展

坚持用户第一

江苏睿思特传动机械有限公司
Jiangsu Ruisite Transmission Machinery Co., Ltd.

COMPANY INTRODUCE
公司简介

江苏睿思特传动机械有限公司位于江苏省宿迁市埠子工业园区，是一家专业从事齿轮研发与生产的企业。

公司主营减速机齿轮、工程机械齿轮、农用机械齿轮、车桥齿轮、螺旋伞齿轮等产品，加工模数范围 0.5~8，加工外径 15~350mm，可满足多行业客户的定制化需求。

公司拥有先进生产设备 300 余台，形成完整加工链条：爱协林多用炉热处理生产线，数控滚齿、剃齿、插齿、珩齿等制齿设备，秦川数控蜗杆磨齿机、星河成形砂轮磨齿机等磨齿设备，以及数控内 / 外圆磨床、平面磨床、无心磨等精磨设备，配套数控车床、齿轮倒角机、加工中心等机加设备。

公司配备齿轮检测中心、三维投影仪、轮廓度仪、二维测高仪、粗糙度仪、金相显微镜、硬度计等齐全检测仪器，从原材料到成品全程质量管控，确保产品精度与稳定性。

睿思特传动坚持以品质立足、以服务取胜，竭诚为国内外客户提供优质齿轮产品与配套服务，欢迎各界朋友洽谈合作。

Jiangsu Ruisite Transmission Machinery Co., Ltd. is located in Buzi Industrial Park, Suqian City, Jiangsu Province. It is a professional enterprise specializing in the research, development, and production of gears.

The company' s main products include gears for reducers, construction machinery, agricultural machinery, axles, and spiral bevel gears. The machining module range is 0.5 - 8, and the outer diameter range is 15 - 350 mm, enabling the company to meet customized requirements from customers across multiple industries.

The company is equipped with more than 300 advanced production machines, forming a complete manufacturing chain. This includes an Aichelin multi-purpose furnace heat-treatment production line; gear-cutting equipment such as CNC hobbing, shaving, shaping, and honing machines; gear-grinding equipment including Qinchuan CNC worm grinding machines and Xinghe form-wheel grinding machines; precision grinding equipment such as CNC internal/external cylindrical grinders, surface grinders, and centerless grinders; as well as supporting machining equipment including CNC lathes, gear chamfering machines, and machining centers.

The company is also equipped with a comprehensive gear inspection center and a full range of testing instruments, including 3D projectors, profilometers, height gauges, roughness testers, metallographic microscopes, and hardness testers. Strict quality control is implemented throughout the entire process—from raw materials to finished products—to ensure product accuracy and stability.

Ruisite Transmission adheres to the principles of building its reputation on quality and winning through service. The company is committed to providing high-quality gear products and supporting services to customers both at home and abroad, and sincerely welcomes friends from all sectors to discuss cooperation.

COMPANY HONOR
企业荣誉

公司必须清醒地看到前进中的困难与挑战，正视自身存在的差距与不足，以更加坚定的信念、更加饱满的热情、更加务实的作风、更加强大的合力，共同谱写公司发展的新篇章。

The company must clearly see the difficulties and challenges in the progress, face up to their own gaps and shortcomings, with more firm faith, more full of enthusiasm, more pragmatic style, more powerful force, and jointly write a new chapter in the development of the company.

多用箱式炉生产线由备料台、装卸小车、真空清洗机、多用箱式炉、回火炉组成。该箱式炉可以对炉内气氛各室温度做到精准控制，从而保证产品的金相组织、硬化层深度、表面硬度和心部硬度要求。

The production line of multi-purpose box furnace is composed of material preparation table, loading and unloading trolley, vacuum cleaning machine, multi-purpose box furnace and tempering furnace. The box type furnace can accurately control the temperature of each chamber of the atmosphere in the furnace, so as to ensure the metallographic structure, hardening layer depth, surface hardness and core hardness requirements of the product.

本公司愿竭诚为广大齿轮用户提供优质齿轮，并愿同客户一起进步发展，优质服务是本公司的宗旨，高性价比齿轮是本公司的方向。

The company is willing to wholeheartedly provide the majority of gear users with high-quality gear, and is willing to progress and develop with customers, quality service is the purpose of the company, cost-effective gear is the direction of the company.
