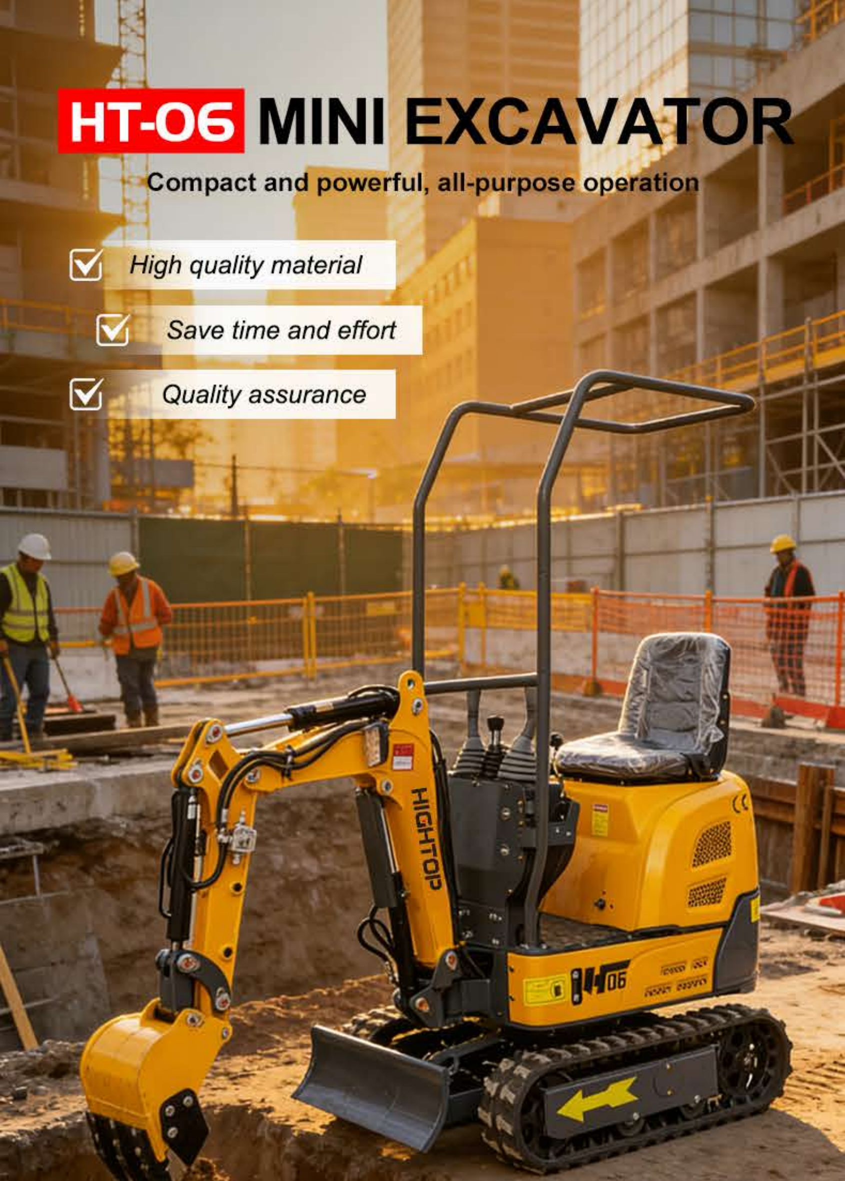
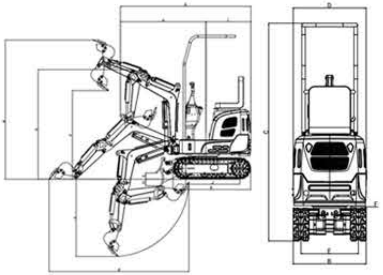
HT-06 MINI EXCAVATOR

Compact and powerful, all-purpose operation

- ☑ *High quality material*
- ☑ *Save time and effort*
- ☑ *Quality assurance*



PARAMETER



ENGINE RATO R300/Briggs & Stratton

Overal legnth A	1889mm	Max digging height a	2017mm
Overall width B	700mm	Max. height at minimumturning radius b	1589mm
Upper width D	700mm	Max. digging depth c	1118mm
Overall height C	2086mm	Max. digging distance d	2025mm
Standard track shoewidth F	150mm	Min.turning radius e	1239mm
Track Gauge E	550mm	Max.unloading height f	1284mm
Shovel height above ground G	92mm	Working weight	600kg
Depth of excavation of bulldozer H	93mm	Bucket capacity	0.01m^3
Tail turning radius I	650mm	Working device form	backhoe
Track ground length J	782mm	Gradeability	30°
track legnth K	1126mm	Main valve	Tengfei

COLOR CAN BE CUSTOMIZED

WHY CHOOSE US

FOUR ADCANTAGES

Shandong hightop Machinery Co.,L.td

Support customization

We can customize it one-on-one according to your needs

Free technical support

We offer professional pre-sale and after-sale services.
Please feel free to purchase

Quality assurance

Carefully select materials, strictly control each process,
and ensure product quality

Professional team

Our company is a technology enterprise integrating development, production and processing, operation and sales

01 Specialized production processes provide you with better services

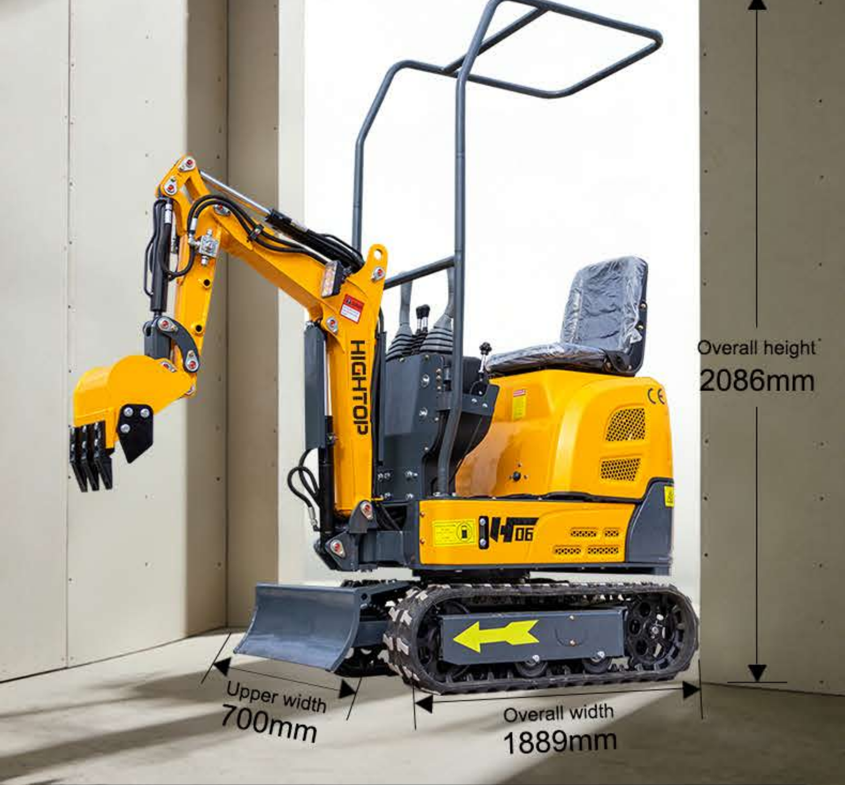
02 Factory direct sales, supporting odm/oem processing

03 The quality of the products is inspected upon their departure to keep a close watch on them at all times

If you have any customized requirements, you can consult the customer service

PRODUCT FEATURES

ULTRA-COMPACT,
MOVES WITH EASE

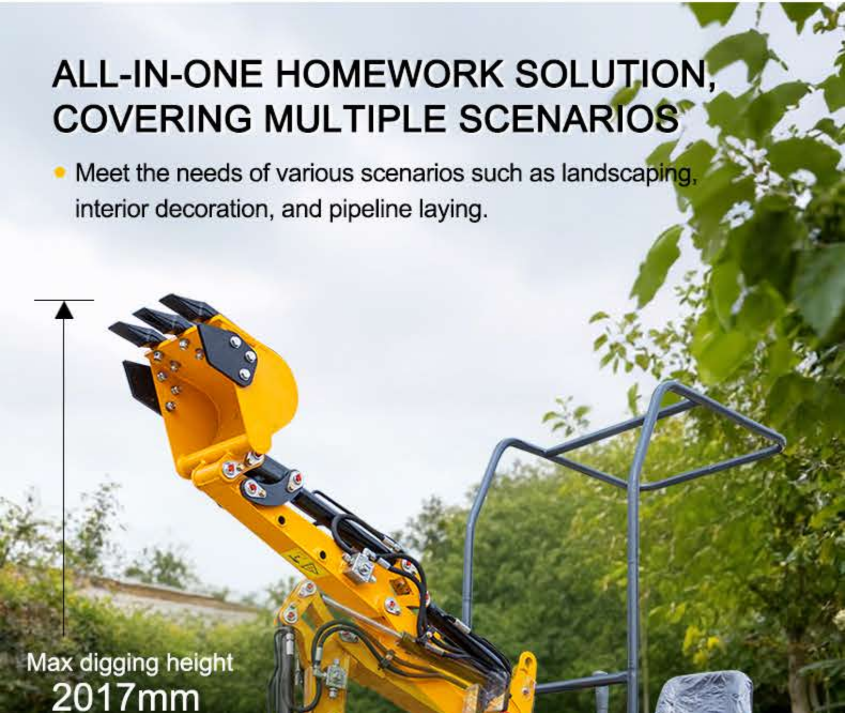


- The overall transportation length of the machine is only 1889mm, the total width is 700mm, and the total height is 2086mm.

- It can easily enter narrow spaces such as indoor areas, courtyards, and basements, solving the problem that large equipment cannot operate.

ALL-IN-ONE HOMEWORK SOLUTION, COVERING MULTIPLE SCENARIOS

- Meet the needs of various scenarios such as landscaping, interior decoration, and pipeline laying.



Max. digging depth: 1118mm
Max. digging distance: 2025mm
Max. unloading height: 1284mm
Min. turning radius: 1239mm

- 30° Slope Climbing Ability, capable of easily handling complex terrains such as construction site ramps and courtyard steps.

LIGHTWEIGHT AND PORTABLE, NO WORRIES ABOUT RELOCATION

- No need for a large trailer, ordinary pickup trucks can be used for transportation

HIGHTOP
HT06

Working weight
600KG

Bucket capacity
$0.01m^3$

- Reduce transportation costs and be suitable for frequent operations at multiple sites and multiple projects.

CORE RELIABILITY, STABLE AND DURABLE

- RATO R300 / Briggs & Stratton engine, stable power output
- Tengfei main valve, fast response and high efficiency
- Premium pins selected, wear-resistant and durable

HIGHTOP
HT06
CE

Rearview mirror options

Shelter options

Enhance operational vision and safety

A rain cover can be installed on the shed to make the work more comfortable.

Flexible selection and customization as per your needs.

PACKAGING / SHIPPING

1. Secure the machine to the pallet to ensure that it does not move during transportation.
2. Seal all sides with plywood so that the equipment is in a separate space.
3. Strengthening the box with wooden strips.
4. Load into container and ship to loading port.

Full Container Loading

Load into container directly, then secured， ship to loading port finally.
LCL container loading for 1 or 2 units
