Power and Control

About us

EMP possesses abundant components and systems of some famous brands, which is widely used in excavators, cranes, fork lifts, agricultural machinery and other special vehicles.

We are the seekers of reliability and controllability, so the products are appreciated by most of customers from all over the world.

Product Range

Main Pump 液压泵	With an extensive knowledge and experience in hydraulic units，we can assure our customers the very best selection of products and services, at competitive prices.
Swing & Travel Motor 回转&行走马达	FOPFUJI Hydraulic parts are specially designed with our years of experience with end users, and its raw material of brass is from Krupp in Germany.
Hydraulic Parts 液压件	We have contracted with manufacturers in Korea, Italy, Germany, Japan, and to build quality products with our excellent integrated resources worldwide.
Gear Box 减速机	We are trying to keep high quality & reliability for efficiency of our gear box.
Gear Parts 齿轮件	As an EMP Parts dealer, your satisfaction is our top priority. You can trust EMP Parts to be your source for all your gear parts needs.
Slewing Ring 回转支撑	We offer slewing rings for excavator and rotary drilling rig. EMP has partnered with a major manufacturer who has all specifications and quality guaranteed, which can be perfect substitute.

Product Application
