OVERVIEW

Integrated Dual Electronic-Control Operator Seat

Presenter GUAN JIE

Integrated Control Seat

FEATURES >>

- Integrated seat assembly for tandem vibratory rollers
- Wheel-free fingertip control layout
- Travel, steering, vibration and spray all joystick-controlled

APPLICATIONS >>

- Small and medium tandem asphalt rollers
- For OEM installation and seat retrofit

Control Joysticks

FEATURES >>

- Dual electronic joysticks replace the wheel and handle steering, direction and speed control
- Red and blue grip buttons handle vibration, water spray and other functions
- Hall-effect sensor output, stable and reliable, compatible with HST systems
- Integrated harness routing for neat cabling and easy ECU connection
- Joystick brackets adjust with the seat for comfortable operation

Vibration-Damping Seat

FEATURES >>

- High backrest with independent headrest, breathable wear-resistant fabric
- Fore-aft slide and backrest angle adjustment for all operator builds
- Standard seat belt, meeting construction machinery safety requirements
- Vibration-damping base absorbs high-frequency roller vibration
- Standard mounting plate with pre-drilled holes for retrofit or OEM fit
