HIGH QUALITY DIECAST SCALE MODELS

2024 V2

WSI ASIA

WSI Models B.V. 最初是起源於荷蘭的一家公司，是卡車、拖車、起重機和挖土車比例模型生產的國際市場領導者。

WSI Models B.V. 以其高品質和獨特的細節水平而聞名。憑藉我們在運輸領域多年的經驗和對比例模型的了解，我們能夠創建真實機器的完美比例模型。

我們不僅為運輸業廠商和版權授權商開發和生產比例模型，WSI Models 還是收藏市場的強大參與者。

歸功於我們的國際經銷商網絡，我們可以為世界各地的收藏家提供欣賞我們藏品的機會。

透過我們的網站 www.wsi-models.com，我們為粉絲呈現最新的創新和模型資訊。我們的座右銘是：一流的品質，誠實的价格。

WSI Models B.V. 的團隊清楚知道我們客戶所關心的以及瞭解市場的動向，並且與時俱進。

對於 WSI Models B.V. 來說，無庸置疑地以我們專業的行業知識經驗為我們客戶提供優質滿意的服務。

WSI Models B.V. 在中國東莞擁有自己的生產工廠。在這裡，我們擁有從產品設計到製造生產的全工序自營產業鏈，在「精益」環境中生產比例模型，

並關注環境問題。例如，我們在真空環境中噴塗模型，這意味著我們模型的油漆塗層能得到更好的覆蓋，並且所有殘留物都被完全收集處理，

實現TVOC的零排放。在我們嚴密管理下的生產使我們能夠控制從頭到尾的整個生產過程，從而將我們的品質和服務提升到始終如一的高水平，

並為我們的「綠色」未來做好準備。

WSI ASIA

WSI Models B.V. is originally a Dutch company and is an international market leader in the production of truck, trailer, crane, and earth fill vehicle scale models.

WSI Models B.V. is renowned for its high-quality and unique level of details. Thanks to our many years of experience in the transport world and our knowledge of scale models, we are able to create perfect scale models of the real machines.

In addition to developing and producing scale models for licensors and the industry, we are a strong player on the collector's market.

Thanks to our international dealer network, we can offer collectors from around the world the opportunity to enjoy our collections.

Via our website www.wsi-models.com we keep our fans updated on the latest innovations and models.

Our motto is: The highest quality for an honest price.

The team of WSI Models B.V. knows what is important to our customers and what can happen in the market, and is always up to date on the latest developments.

For WSI Models B.V., there are not questions, but a permanent knowledge through which we optimally fulfil the wishes of our customers.

WSI Models B.V. has its own production facility in Dongguan, China. Here we produce our scale models within a "lean" environment, with attention to environmental concerns.

For example, we spray our models in a vacuum environment which means we use less paint, the models get better coverage and any residues are entirely collected.

This production under our close management enables us to control the complete production process from A to Z,

which lifts our quality and service to a consistently high level and prepares us for a "green" future.
