

PAWELSON[®]

**BETTER FILTERS
FOR THE WORLD**

COOPERATING ONCE WILL MAKE YOU FALL IN LOVE
WITH THE COMPANY FOREVER

河北强晟机械零部件有限公司
HEBEI QIANGSHENG MACHINERY PARTS CO., LTD

PAWELSON[®]

Cooperating once will make you fall in love with this company forever

Enterprise Purpose: Focusing on the R&D and production of high quality heavy-duty filters, provide more perfect filtration for the engine

Enterprise Mission: Better filters for the world !

Enterprise Spirit: Focus 、 Details 、 Reputation 、 Efficiency

Enterprise Value: Customer+ Staff + Dedication = The Value for Enterprise

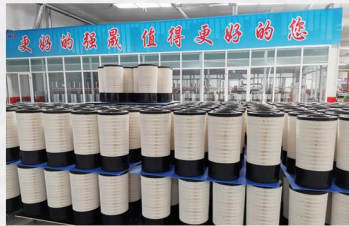

COMPANY PROFILE

Hebei Qiangsheng Machinery Parts Co., Ltd. was established in 2019 which is a rising star in heavy duty filters. We located in Qinghe County, Hebei Province, a well-known auto parts production base in China. Our factory occupies 18,000 square meters, modern workshop more than 15,000 square meters, and we introduced advanced production and testing equipment imported from Germany, our staff more than 78 people, including 18 professional and technical personnel, operates in strict accordance with IATF16949:2016 quality management system.

Our company specialized in researching, developing, producing and selling a big range of filter products, Our annual production capacity can reach more than 5 million pieces, and we have more than 3000 types of filters at present. which include air filter,hydraulic filter and cabin filter for construction machines, agricultural machines,trucks, buses and generator sets etc. We can also OEM/ODM filters according to your requirements.

The "PAWELSON" brand is a high-end brand created by our company, all use HV or Alsthrom filter paper, which has a high reputation in the industry. we have established an independent product marketing network in the domestic market and are actively developing overseas markets. Sincerely invite agents or wholesalers to cooperate.

We aim to make better filters for the world and believe that cooperating once will make you fall in love with our company forever.

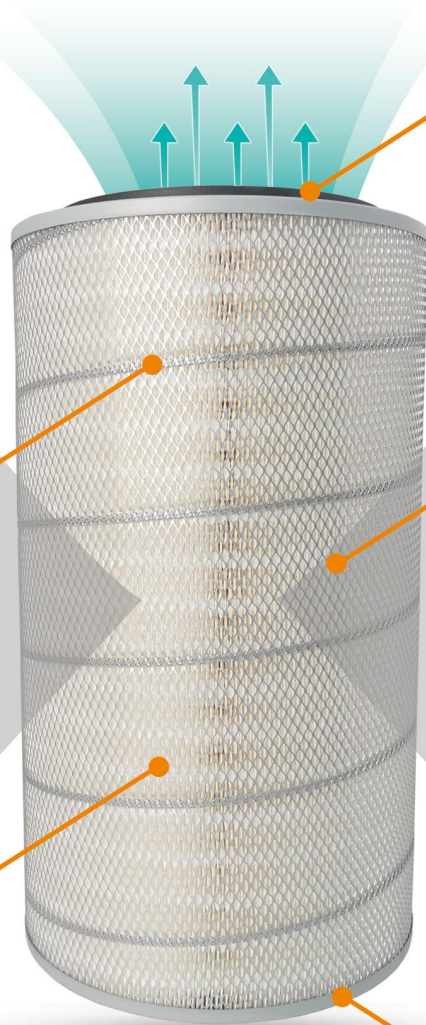

**Hollingsworth
& Vose**

Bite mesh or welded mesh, variety of choices, environmentally friendly and strong

BAOSTEEL thickened diamond mesh or perforated mesh to provide better support for filter paper

High-quality sealing rubber ring permanent 100% leak-proof

Use hollingsworth & vose filter, stable performance
High air intake efficiency
low airflow resistance
low fuel consumption

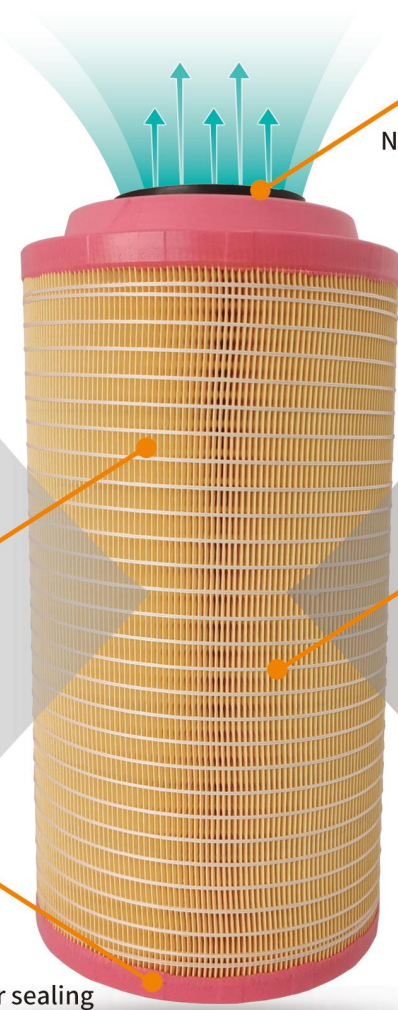

Using anti-fingerprint filter cover

AIR FILTER

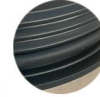

Only use HV or ALSTROM world's top filter paper, imported automatic paper folding machine, 35m heating oven, produce according to the original filter element or assembly, professional drawing engineer, German glue injection machine, BASF or HEDA glue, designated raw material and packaging supplier, professional Engineers operate in strict accordance with the IATF16949:2016 quality management system. All of this ensures that the quality of our filters is always at the top of the mountain.

Use Ahlstrom filter paper
 the filter paper has been cured at
 180 degrees for 12 minutes
 High separate efficiency of dust
 Special waterproof
 performance to prevent water
 uptake of filter elements
 More low-temperature resistant
 high-temperature resistant
 acid-resistant and alkali-resistant

Nylon material skeleton, more flexible

Wrap nylon thread, or hot melt glue
 the filter element stronger

BASF glue or Heda glue
 has stronger toughness and better sealing

Ultra-high filtration performance:

The filtration efficiency is as high as 99.99%, which is far superior to ordinary filtration products and better protects the engine

High-quality sealing material:

The sealing material is very soft, has high resilience and is not easily deformed. Perfect combination of sealing surface and air filter assembly

Extended service life:

All high-quality raw materials are used, and the service life is more than twice that of ordinary filters, reducing maintenance costs

Use Hollingsworth & Vose filter paper

quality and performance are guaranteed.

- ✓ High air intake efficiency, low airflow resistance, low fuel consumption,
- ✓ Higher applicability, stable and reliable quality
- ✓ Using anti-fingerprint filter cover, or high-quality PU glue, high sealing, permanent 100% leak-proof
- ✓ Provides more consistent performance for your engine

Honeycomb filter

provides better protection and performance.

- ✓ Less drag, improving engine performance and fuel economy.
- ✓ Higher dust holding capacity.
- ✓ Lower maintenance costs
- ✓ Longer service life

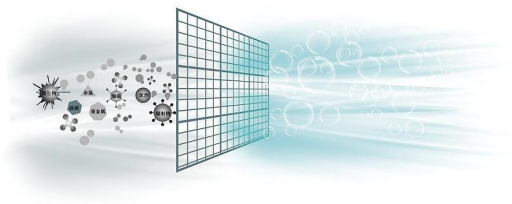

Use Ahlstrom filter paper

the filter paper has been cured at high temperature:

- ✔ High separate efficiency of dust
- ✔ Special waterproof performance to prevent water uptake of filter elements
- ✔ More low-temperature resistant, high-temperature resistant, acid-resistant and alkali-resistant
- ✔ Longer service life and lower maintenance costs
- ✔ Performance is guaranteed in the whole life period

No matter your engine is dealing with harsh environments, it will always ensure that your engine has high performance.

pawelson fresh your engine

Remove 99.9% of impurities in the air

Maximize Performance with better air intake

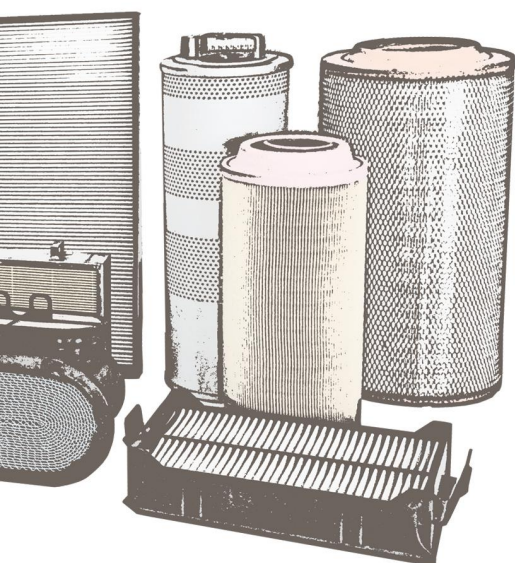

Large dust holding capacity

Cabin filter

can prevent dust, smoke, sand and other pollutants from entering the cab, providing a healthier and more comfortable working environment.

- ✔ Low wind resistance, smooth breathing
- ✔ High-efficiency filter material, strong adsorption
- ✔ Uniform origami and wetting process, good sealing performance
- ✔ Ensures easy installation according to OE dimensions

We are a professional manufacturer of heavy duty filters for many years.

Our filters are widely used in:

- ✔ Construction machines filter;
- ✔ Heavy duty truck filter;
- ✔ Agricultural machines filter;
- ✔ Compressors filter;
- ✔ Generator sets filter , etc.
- ✔ OEM support, we can produce products according to your requirements.

Hydraulic filter

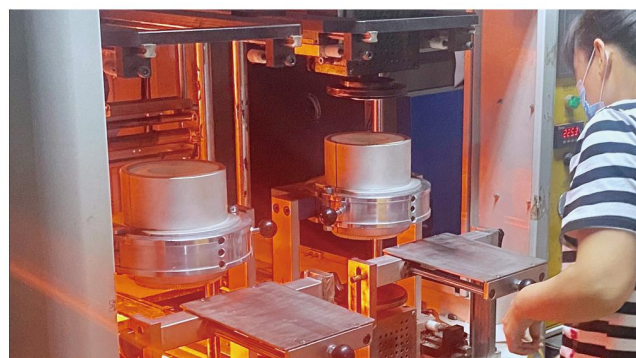

guarantee the hydraulic system pressure stable and last longer:

- ✔ Both the inner and outer nets are made of thickened punched steel plate, and the inner net is added with a high-strength reinforcement ring
- ✔ Large filter area, high temperature resistance, corrosion resistance
- ✔ High performance fiberglass filter media for high efficiency and low pressure drop
- ✔ Provide more consistent performance for your hydraulic fluid system

Leading technology

And advanced equipment

Glue injection machine imported from Germany

OEM & ODM Service

We have professional drawing technology, confirmed by drawings. It can also be produced for you according to the reference number you provide, or the product measurement size and photos.

Brand Customization

In the case of brand authorization, we can design and manufacture packaging, printing, and product appearance according to your brand requirements.

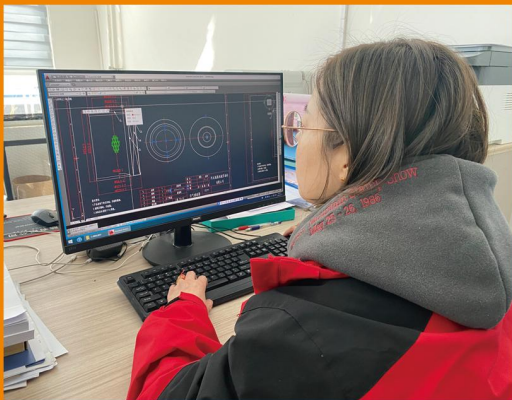

Quality Assurance

Operate in strict accordance with IATF 16949 and 5S system standards, and establish a scientific and strict quality assurance system.

Exported About 30 Countries

Our products have exported to worldwide, such as American, Germany, France, Peru, Russia, Ukraine, Kazakhstan, Korea, Mexico, Brazil, India, UAE etc.

Professional technical drawings, processed according to the original size or your samples.

Advanced Technology

We introduced advanced production and testing equipment imported from Germany and we use advanced technology and quality management system on special filter production line to guarantee the quality of products.

Flexible Shipping Ways

We support to ship it by sea, air, train, express etc shipping ways, and accept to send goods to pointed place according to customer instructions.

OEM/ODM SUPPORT

WE CAN PRODUCE BY YOUR SAMPLES OR TECHNICAL DRAWINGS
