本公司是中日合资经营企业(日方:株式会社阳机工) http://sun-kiko.com/index.php?cid=2（日本大型超硬工具制造公司的指定生产工厂），通过引进日本的先进的硬质合金钎焊精加工技术，进行与土木工程工具被品相关联的硬质合金刀具的设计及生产，主要提供矿山钻掘、隧道工程、地铁工程、海利工程、钢厂高炉、建筑桥梁基础工程，地质环境治理工程等方面的硬质合金刀具。

本公司在技术引进的同时，立足于国内的资源情况，生产条件和市场需求，通过中日双方工程技术人员的共同研究开发的生产体制，确立了独创品质管理体制，在保证质量的前提下，以提高效率的方式降低成本，为客户提供交货期短价格合理的优质产品。

此外，我公司在设计研发方面，通过合作方五十年刀具生产的经验，为客户根据实际工程条件进行适配，高品质，高性能的硬质合金刀具。

本公司以保护资源环境，实现可持续发展为己任，愿为本地区的社会发展贡献力量。

欢迎各新老朋友来电来函咨询洽谈！

We, as a Sino-Japanese joint venture(the Japanese party is SUN-KIKO, which is a designated works of large ultra-hard tools manufacturing firms), are professional in design and manufacture of hard- alloy cutting tool series related to civil engineering tools and products through importing advanced Japanese technology of hard-alloy brazing finish machining. Our tools are widely used for Mining, Tunneling project, Subway engineering, Shield tunnel project, Iron blast furnace, foundation engineering of structure and bridge, Geological environment treatment project.

While importing the technology, we basically have to take the domestic resources, production condition and the market demand into consideration thoroughly. Through a mechanism of mutual research and development by Sino-Japanese engineers and technicians,we have successfully established a solid system of quality management.The quality guarantee being as a premise,we can offer our customers high-quality products with short delivery term and reasonable price.

Furthermore,with regards to research and development, through decades of experience of cutting tools manufacture by our cooperative party we can help clients carry out a selective pairing as per the actual engineering condition and offer high quality and performance hard-alloy cutting tools.

Our company take the protection of resources,environment and realizing sustainable development as our commitment.

And we'd like to contribute ourselves for the local development.

Your inquiry would be highly welcome.
