

BLUMAQ ABOUT US

Blumaq delivers replacement parts and maintenance products for Construction and Mining Equipment.

With more than 100,000 part numbers in stock, Blumaq offers its customers the best possible service in the replacement parts industry. Thanks to a knowledgeable organization combined with cutting-edge technology, Blumaq is a dynamic organization that focuses on quality and experience. Our systems are designed around providing real time information wherever possible.

Efficiency is emphasized from order inquiry, processing, and through delivery to the customer without ever sacrificing quality or accuracy.

Expansion is a core Blumaq objective. Our distribution network continues to evolve. Our commitment to expansion will help Blumaq become the foremost supplier of replacement parts and maintenance products for construction and mining equipment around the world.

As part of our continuing emphasis to improve our processes, Blumaq holds ISO 9001:2015 certification.
