## About Argus

关于阿格思

流体连接专家

Fluid Connection Expert

ARGUS成立于2009年，注册资金1000万人民币，专业从事液压软管、工业管、管接头、软管总成、钢管总成的研制、生产及销售。

公司拥有多名长期从事工程机械、矿山机械、海工机械、工业设备等大型设备的液压管路系统的研发设计、生产、安装、服务团队，为客户提供优质的产品与服务，并可根据客户的要求设计开发全套管路系统解决方案！

公司秉承品质第一、不断创新、规范管理、用心服务；坚持以市场为导向，以经济效益为中心的经营理念，采用了全套软管总成、钢管总成进口生产线，如芬兰FINN-POWER扣压机、德国UNIFLEX扣压机、德国UNIFLEX检测设备、德国WALFORM钢管成型机、意大利RPS钢管红外线检测仪等。另有加工中心、数控车床、焊接生产线

获取了ISO9001国际质量管理体系证书、ISO14001环境管理体系证书及ISO45001职业健康安全管理体系证书。于2023年成为高新技术企业。

ARGUS was established in 2009 with a registered capital of 10 million RMB. It specializes in the development, production and sales of hydraulic hoses, industrial pipes, pipe joints, hose assemblies, and steel pipe assemblies.

The company has a number of long-term research and development, design, production, installation, and service teams for hydraulic piping systems of construction machinery, mining machinery, offshore machinery, industrial equipment and other large equipment to provide customers with the high quality products and services, and Design and develop a complete set of piping system solutions according to customer requirements!

The company adheres to quality first, continuous innovation, standardized management, and dedicated service; adheres to the market-oriented and economic-oriented business philosophy, and adopts a full set of imported hose assemblies and steel pipe assemblies, such as Finn-POWER withholding in Finland Machine, German UNIFLEX crimping machine, German UNIFLEX testing equipment, German WALFORM steel pipe forming machine, There are also machining centers, CNC lathes, and welding production lines. And obtained the ISO9001 international quality certification system certificate, ISO14001 environmental management system certificate and ISO45001 occupational health and safety management certificate. It will become a high-tech enterprise in 2023.

# Enterprise concept

企业理念

## ARGUS使命

ARGUS Mission

致力为管路连接专家，与客户共同协作，实现管路零泄漏！

Committed to being a pipeline connection expert, working with customers to achieve zero leakage in pipelines!

## ARGUS愿景

ARGUS Vision

为合作伙伴、股东、员工提供创造和实现他们美好梦想的机会！

Provide opportunities for partners, shareholders and employees to create and realize their beautiful dreams!

# Production equipment

生产设备

## 高品质和高性能产品的保障

Guarantee of high-quality and high-performance products

全球顶级的Uniflex及Finn-Power扣压设备保障软管总成扣压的精准度。

The world's top Uniflex and Finn-Power crimping equipment guarantee the accuracy of the hose assembly crimping.

Eaton Walform—非焊接、零泄漏钢管总成的发明者。

Eaton Walform-Inventor of non-welded, zero leakage steel pipe assembly.

# Detection ability

## 检测能力

红外线钢管总成扫描仪：精准度可达 $55\mu\text{m}$ ，有效保证了钢管总成全尺寸的精准度。

Infrared steel hose assembly scanner: the accuracy can reach  $55\mu\text{m}$ , which effectively guarantees the full-size accuracy of the steel hose assembly.

静压测试：出厂前严格按照质量体系文件对每批胶管总成做压力测试。

Static pressure test: Perform pressure test on each batch of hose assemblies in strict accordance with the quality system documents before leaving the factory.

清洁：每根软管扣压、钢管成型前都必须清洁。

Washing: each hose must be cleaned before crimping and steel pipe forming.

# Application area

## 应用领域

ARGUS致力为客户提供高性能、高清洁度、零泄漏的管路系统解决方案，可根据客户工况设计定制化产品，并为客户提供管路技术培训。目前我们已为工程机械、矿山机械、海工机械、压铸机、空压机、机床等领域客户提供了全套管路系统解决方案，如：Sandvik、Thyssenkrupp、Sany Palfinger、中海油服、招商局重工、力劲集团、AtlasCopco等客户。

ARGUS is committed to providing customers with high-performance, high-cleanliness, and zero-leakage pipeline system solutions. It can design customized products according to customers' working conditions and provide customers with pipeline technology training. At present, we have provided a complete set of piping system solutions for customers in the fields of construction machinery, mining machinery, offshore machinery, die casting machines, air compressors, and machine tools, such as: Sandvik, Thyssenkrupp, Sany Palfinger, China National Offshore Oil Services, China Merchants Heavy Industries, Lijin Group, AtlasCopco and other customers.

# Traceability system

## 产品追溯系统

客户物料编码代表每一根软管总成都是独一无二并可追溯的，大大简化了重新订货的流程

The customer material code represents that each hose is unique and traceable, which greatly simplifies the reordering process

批次：可追溯产品生产过程中各环节质量记录

Batch: traceable quality records of each link in the production process of the product

可根据客户信息提供二维码，帮助客户快速入库

According to customer information, QR code can be provided to help customers quickly enter the warehouse

装配日期可帮助查询软管的年限，为设备维护提供依据

The assembly date can help query the age of the hose and provide a basis for equipment maintenance

产品的客户型号，便于在客户内部系统内订货

The customer model of the product, which is convenient for ordering in the customer's internal system
