MILITARY / AEROSPACE

OTTO specializes in precision controls for the most demanding military and aerospace applications, offering a wide variety of product offerings and configurations, such as actuator styles, circuitry configurations, electrical ratings, terminations, button styles, and standard grip shapes. Our controls feature high cycle life, extreme temperature ratings, fully sealed, and resistance to potentially harmful environmental elements.

MEDICAL

Our control solutions meet the stringent demands of medical-related equipment, providing superior performance and high cycle life – up to 10 million cycles. Precision testing ensures that our glove-friendly controls are rated up to IP69K and can handle demanding applications. Quality adheres to ISO 9000 standards and our products are designed to be easy-to-clean, disinfected and are highly customizable.

OTTO has been a responsive partner in the fight against the Covid-19 pandemic, creating products for critical medical applications such as ventilators, laboratory test equipment, mobility equipment, remote surgical equipment, and disinfecting devices.
