

## 改装高流量空气滤清器/MODIFIED HIGH FLOW AIR FILTER

### RETROFITTING HIGH-FLOW AIR FILTER -PRODUCT FUNCTION

Always adhere to the quality of the original factory, and concentrate on the core

- High filtration precision: filter out all large particles (> 1-2um)
- High filtration efficiency: low flow resistance, can be used for a long time without maintenance
- Prevent early engine wear. Prevent the air flow meter from being damaged!
- Moisture-proof and dehumidification: it not only has the functions of dehumidification, heat removal, oil removal and air pulsation prevention for the inhaled air. In addition, the microfiber filter paper injected with synthetic resin also has moisture-proof function.

## 空气滤芯器/AIR FILTER

### AIR FILTER -PRODUCT FUNCTION

Always adhere to the quality of the original factory, and concentrate on the core

- High filtration precision: filter out all large particles (> 1-2um)
- High filtration efficiency: low flow resistance, can be used for a long time without maintenance
- Prevent early engine wear. Prevent the air flow meter from being damaged!
- Moisture-proof and dehumidification: it not only has the functions of dehumidification, heat removal, oil removal and air pulsation prevention for the inhaled air. In addition, the microfiber filter paper injected with synthetic resin also has moisture-proof function.

## 空调滤芯器/CABIN FILTER

### CABIN FILTER -PRODUCT FUNCTION:

Provide you with healthy and fresh air, enjoy a more fresh and comfortable environment, and improve driving safety and visibility.

- Advanced manufacturing technology
- Superior filtration efficiency
- Strong adsorption of pollen, floating dust, bacteria and bituminous coal The high adsorption rate of toxic gases and odors also has excellent performance in harsh environment (such as fog, high temperature, and bad road conditions)

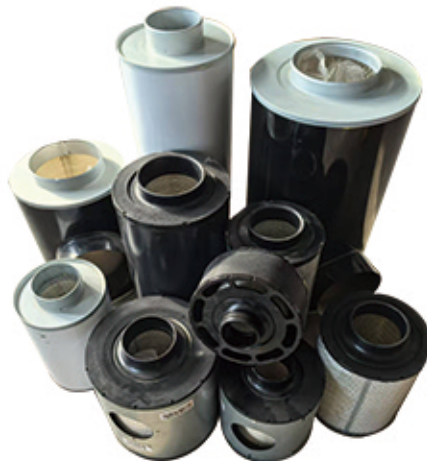

## 发电机组滤芯/GENERATOR SET FILTER ELEMENT

### AIR FILTER -PRODUCT FUNCTION

Always adhere to the quality of the original factory, and concentrate on the core

- High filtration precision: filter out all large particles (> 1-2um)
- High filtration efficiency: low flow resistance, can be used for a long time without maintenance
- Prevent early engine wear. Prevent the air flow meter from being damaged!
- Moisture-proof and dehumidification: it not only has the functions of dehumidification, heat removal, oil removal and air pulsation prevention for the inhaled air. In addition, the microfiber filter paper injected with synthetic resin also has moisture-proof function.

## 机油/燃油滤清器/OIL/FUEL FILTER

### OIL/FUEL FILTER -PRODUCT FUNCTION:

Filter the impurities and dirt in the engine oil, provide clean and reliable lubricating oil for the engine, reduce wear and prolong the engine life.

- The shell material has strong compression resistance and is not easy to rust
  - High-efficiency solidified filter paper, uniform folding distance of filter paper, large effective filtering area, high filtering accuracy, large pollution capacity and lasting protection of engine
  - High-performance sealing material ensures 100% sealing of the product
- 100% of the product has passed the airtightness leak test, with high reliability.

## 空气蜂窝滤清器/AIR HONEYCOMB FILTER

### AIR HONEYCOMB FILTER -PRODUCT FUNCTION

Always adhere to the quality of the original factory, and concentrate on the core

- High filtration precision: filter out all large particles (> 1-2um)
- High filtration efficiency: low flow resistance, can be used for a long time without maintenance
- Prevent early engine wear. Prevent the air flow meter from being damaged!
- Moisture-proof and dehumidification: it not only has the functions of dehumidification, heat removal, oil removal and air pulsation prevention for the inhaled air. In addition, the microfiber filter paper injected with synthetic resin also has moisture-proof function.

## Company Profile 公司简介

公司简介 河北汉博斯克自成立以来，始终专注于汽车，工程机械，空压机、发电机组，农业机械“三滤”（空气滤清器、机油滤清器、燃油滤清器）的研发与生产，OEM代工

生产环节，公司配备现代化专业设备，依托成熟且精细的工艺，从原材料精选到成品出厂，层层严格质检，确保“三滤”产品具备高精度过滤、强耐用性、适配性极佳的特质，契合多样车型与工程机械需求，有效阻拦杂质、保障设备稳定运行。

研发团队经验丰富、创新力足，密切关注行业动态与技术革新，不断优化产品结构、提升过滤效能，使产品符合国家标准，所生产的产品出口欧美，中东，东南亚等地，国内各省市，深受广大用户好评现在和国内外各大滤芯厂建立和长期合作

Since its establishment, Hebei Hanbosk has always focused on the research and development and production of automobile, construction machinery, air compressor, generator set, agricultural machinery "three filters" (air filter, oil filter, fuel filter), OEM

In the production process, the company is equipped with modern professional equipment, relying on mature and fine technology, from the selection of raw materials to the finished products, layers of strict quality inspection to ensure that the "three filter" products have the characteristics of high-precision filtration, strong durability, excellent adaptability, and meet the needs of various models and construction machinery, effectively prevent impurities and ensure the stable operation of equipment.

The R & D team is experienced, innovative, pay close attention to industry dynamics and technological innovation, and constantly optimize product structure, improve filtration efficiency, so that products meet national standards, the production of products exported to Europe, the United States, the Middle East, Southeast Asia and other places, domestic provinces and cities, well received by the majority of users now and domestic and foreign major filter factory establishment and long-term cooperation

以质量求生存 以信誉促发展  
TO SURVIVE ON QUALITY, TO PROMOTE THE DEVELOPMENT OF CREDIBILITY
