Company Profile

关于我们 >>>

Quanzhou Wufeng Machinery Manufacturing Co., Ltd. was established in 2008 and is located in Quanzhou City, Fujian Province, the hometown of overseas Chinese, in the Economic Development Zone on the west coast of the Taiwan Strait. With convenient transportation, it is a modern engineering machinery parts company that integrates production and sales.

The company has gathered talents, advanced production equipment, advanced production processes and scientific management, and complete product testing methods. We mainly produce various imported and domestic excavator accessories and bulldozer accessories, including chain guard frame, tension cylinder and assembly, Qianqiu frame, connecting rod, U-shaped frame, horse pull head, bucket ear, etc. The company established a domestic and foreign trade department in 2012, acting as an agent for various large brand excavator chassis parts, engine parts, turntables, oil cylinders, gear roots, bucket teeth, electrical components, filter elements, oil products and other maintenance parts, with complete quality. Our products are sold both domestically and internationally with professional technology, excellent quality, good brand image, and comprehensive after-sales customer service.

Innovative technology overcomes difficulties in R&D and production, Create the most perfect products with care.

创新科技攻克研发生产中的困难，用心打造最完美的产品。

In the increasingly competitive international market, the company adheres to the business policy of "survival with quality, reputation with service", and always regards the needs of users as its goal of struggle. Implementing a technology strategy centered on the market, continuously developing new products, and promoting the comprehensive development of the enterprise, the company sincerely hopes to cooperate with new and old customers both domestically and internationally to create a brilliant tomorrow.

High-Precision Equipment Quality Assurance

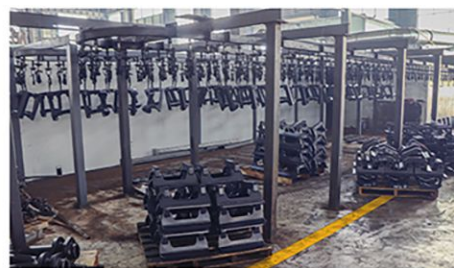

高精设备品质保证>>

公司引进各类高精尖设备，并于每个环节、每个细节都严谨细致，本着为客户负责的态度，一丝不苟、精益求精，把每件产品做精做细，每个订单做得出彩，做出成绩。

The company introduced all kinds of sophisticated equipment, and in every aspect, every detail is rigorous and meticulous, in line with customer responsible attitude, strict demands of each product excellence, to do fine, each in order to do the color, make achievements.
