OUR RANGE

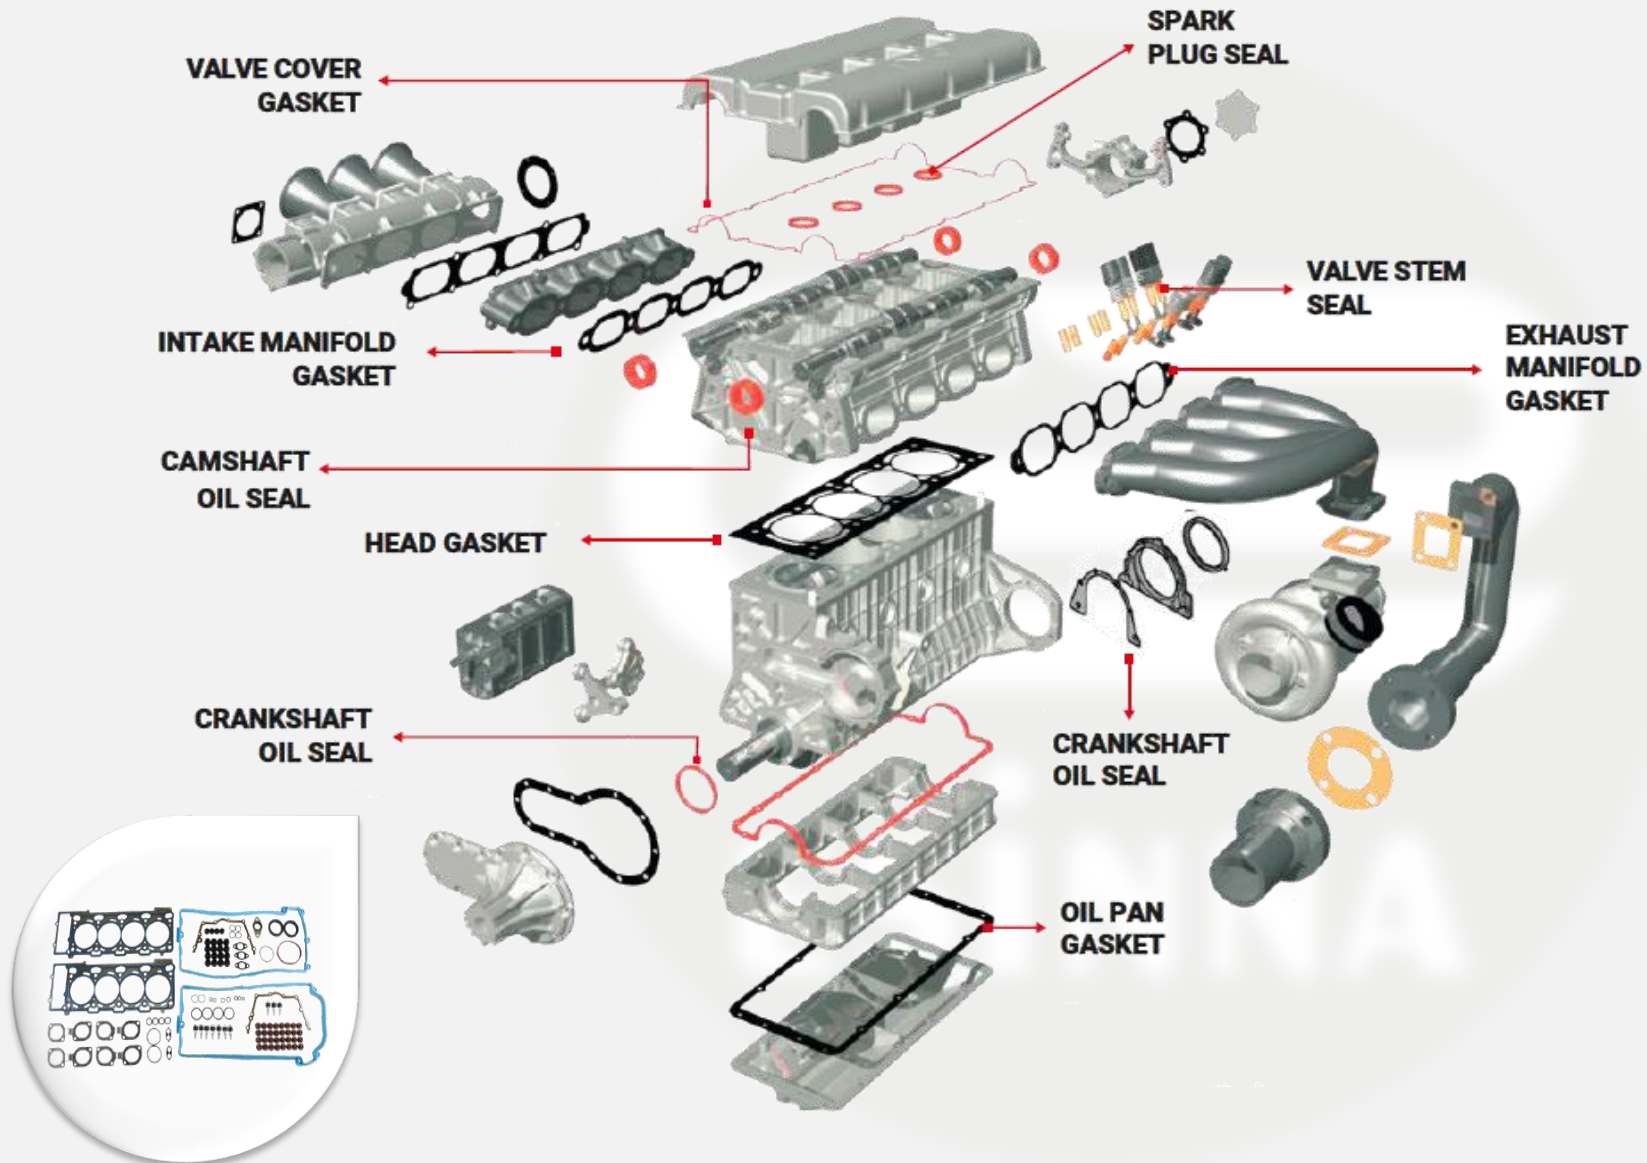

SEALING SOLUTIONS

当微小缺陷影响车辆性能，我们的密封件以精准设计重塑密封性能 - 从材料到工艺，每一步都经过严苛测试，让专业维修人员安装无忧，恢复如新！

When minor defects compromise vehicle performance, our sealing products redefine sealing efficiency with precise engineering – every step, from material to process, is rigorously tested to ensure effortless installation and original restoration !

CERTIFIED LAB

OUR PROFESSIONAL LABORATORY HAS THE **CNAS** CERTIFICATION

我们的研发中心已获得 CNAS（中国合格评定国家认可委员会）权威认证，配备20余台符合ASTM、ISO、JIS、GB/T标准的检测设备，为新产品开发提供可靠数据支撑，持续推动产品性能优化与升级，全面保障产品品质的稳定性与可靠性。

Our R&D center is accredited by CNAS (China National Accreditation Service for Conformity Assessment), equipped with over 20 testing instruments that comply with ASTM, ISO, JIS, and GB/T standards. The laboratory provides reliable data to support new product development and continuously drives product performance enhancement, ensuring consistent product quality and reliability.

SMART MANUFACTURING

通过自主生产核心零部件，我们实现了对全流程的精准掌控，从而保障最优质量标准、有效降低成本，并显著延长产品使用寿命。借助智能化生产模式，我们进一步优化生产流程，缩短交付周期，同时规避潜在问题。

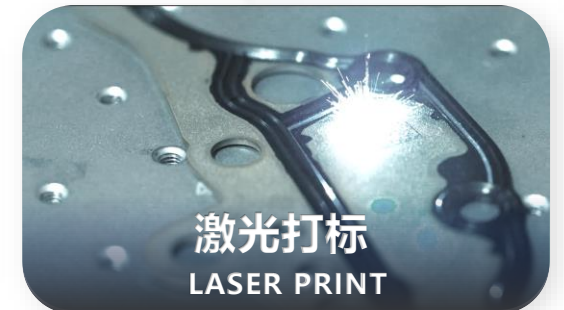

By manufacturing core components in-house, we gain precise control over the entire process, ensuring superior quality standards, achieving cost reduction, and significantly extending product life. Through smart manufacturing, we further optimize production processes, reduce lead times, and effectively avoid potential issues.

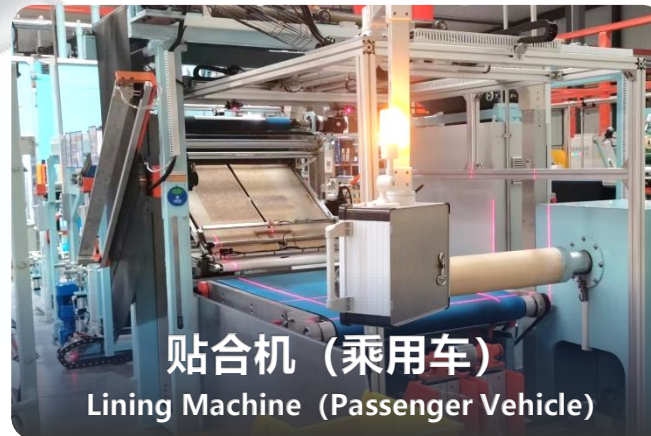

SMART MANUFACTURING

CLEAN PRODUCTION

我们部署智能化减排系统，覆盖生产全流程，通过技术创新降低碳足迹，同时确保化学品与材料的安全使用，守护环境与员工健康。

We deploy smart emission reduction systems across the entire production process, leveraging technological innovation to lower carbon footprints while ensuring safe use of chemicals and materials, protecting the environment and employee health.
