# 公司简介 Company profile

## 公司简介

三宝（大连）精密塑料制品有限公司位于中国北方对外经济前沿城市大连。公司是由日本三洋株式会社、日本秋子子公司和中国大连渤海橡胶塑料有限公司、大连日之宝商贸有限公司四家公司共同投资成立的中日合资企业。注册资本为人民币880万元。

公司引进日本布施真空株式会社的大型进口厚片吸塑设备和先进的五轴修边设备，并拥有专业的研发、设计、生产团队，具有承接ABS、AES、PVC、PP、PE等精密厚片吸塑制品的生产能力，产品广泛用于汽车产业、医疗器械、电子产品、玩具、户外广告等行业。

公司成立以来坚守“客户至上、诚信经营”的理念，并以“一流的技术、一流的品质”向国内外的客户提供“优质的产品、优质的服务”。

## Company profile

SANBAO (DALIAN) PRECISION PLASTIC PRODUCTS CO., LTD. is located in Dalian, a leading economic frontier city in northern China. The company is a Sino-Japanese joint venture, jointly invested by Japan's SANYO CO., LTD., AKIKO & COMPANY, China's DALIAN BOHAI RUBBER-PLASTICS CO., LTD., and DALIAN RIZHIBAO COMMERCIAL CO., LTD. The registered capital is RMB 8.8 million.

The company has introduced large-format imported thick-sheet blister equipment and advanced five-axis trimming equipment from Japan's Fu-se Vacuum Forming Ltd. It also has a specialized R&D, design, and production team. The company is capable of producing precision thick-sheet blister products using materials such as ABS, AES, PVC, PP, and PE. Its products are widely used in the automotive industry, medical devices, electronic products, toys, outdoor advertising, and other industries.

Since its establishment, the company has stuck to the concept of "customer first & honest faith" and provides quality products and services to customers at home and abroad with first-class technology and quality.

## 董事长致辞

吸塑是树脂成型中最适于模具成本低、少批量多品种的成型技术方法，其产品从小型到大型、从高精度到普通精度，被广泛用于工业用品和民用产品。

2016年10月18日，以日本株式会社三洋为核心，日中四家公司共同出资在大连成立了中日合资“三宝（大连）精密塑料制品有限公司”。三宝从日本引进了先进的厚片吸塑设备，虽然目前主要加工工程机械、汽车等工业用部品及医疗、美容设备等民用部品，但是为了能够向中日客户提供更广泛用途的日本品质的吸塑部品三宝正积极致力于技术上的不断提高及成本的不断降低。

三宝的主要股东株式会社三洋（日本）于1948年在日本大阪市福岛区成立，2025年迎来了成立77周年。在日本国内，三洋作为华尔卡经销商、森清化工的代理店在大阪、石川、山口、广岛、栃木、茨城、神奈川设立了销售网点。主要客户有小松制作所、日立高科技、岛津制作所、谷工业、荏原制作所、三井化学等，向工程机械、半导体制造装置、食品机器设备、化工成套设备、医疗器械厂家等多个行业提供密封垫圈、密封件等工业用密封材及橡胶、塑料、金属加工品。同时，在中国除了投资成立了“三宝（大连）精密塑料制品有限公司”外，在山东济宁市成立了2家独资企业，致力于开展中日双方国际化贸易。

“三宝（大连）精密塑料制品有限公司一直积极致力于满足广大客户的多样化需求，也希望能够得到社会各界的大力支持和帮助！”

三宝（大连）精密塑料制品有限公司 董事长  
株式会社三洋 社长

中俣香昭

## Chairman's statement

Among all resin forming technologies, blister stands out as the ideal choice for low mold costs, small batches, and high variety. Its versatility spans from small to large parts, and from high-precision to general-purpose applications. This makes blister widely adopted across both industrial equipment and everyday consumer products.

SANBAO (DALIAN) PRECISION PLASTIC PRODUCTS CO., LTD. was established in Dalian on October 18, 2016, as a Sino-Japanese joint venture by four companies from China and Japan, with Sanyo Corporation (Japan) as the core partner. SANBAO has introduced advanced thick-sheet blister equipment from Japan. Currently, the company primarily processes engineering machinery, automotive industrial supplies, beauty equipment and other consumer products. However, to provide thermoformed components of Japanese quality for a broader range of applications to customers in both China and Japan, SANBAO is actively committed to continuous technological improvement and ongoing cost reduction.

Sanyo Corporation (Japan), the main shareholder of Sanbao, was founded in 1948 in Fukushima Ward, Osaka City, Japan. In 2025, the company celebrates its 77th anniversary. In Japan, Sanyo operates as a distributor of Valqua products and an agent for Morisei, with sales outlets established in Osaka, Ishikawa, Yamaguchi, Hiroshima, Tochigi, Ibaraki, and Kanagawa. Its major clients include Komatsu Ltd., Hitachi High-Tech Corporation, Shimadzu Corporation, Totani, Ebara Corporation, and Mitsui Chemicals, Inc. Sanyo supplies a wide range of industrial sealing materials—including gaskets and seals—as well as rubber, plastic, and machined metal products to diverse industries such as engineering machinery, semiconductor manufacturing equipment, food machinery, chemical plant equipment, and medical device manufacturers. In addition to its investment in the establishment of SANBAO (DALIAN) PRECISION PLASTIC PRODUCTS CO., LTD. in China, Sanyo has also set up two wholly-owned enterprises in Jining City, Shandong Province, and is actively committed to promoting international trade between China and Japan.

SANBAO (DALIAN) PRECISION PLASTIC PRODUCTS CO., LTD. strives to meet the diverse needs of our customers, and we also sincerely hope to receive the strong support and assistance from all sectors of society.

Chairman of SANBAO (DALIAN) PRECISION PLASTIC PRODUCTS CO., LTD.  
President of SANYO CO., LTD.

<< 材料介绍 / Material Properties >>

· ABS ·

强度高、韧性好、不变形、好吸塑、可喷漆

High strength, good toughness, no deformation, good forming characteristics, and paintable

· AES ·

耐紫外线、抗老化，长期户外暴晒不发黄、不开裂、不变脆

Resistant to UV and aging, no yellowing, cracking, or embrittlement after prolonged outdoor exposure.

· PC ·

超透明、抗冲击、耐高低温、耐候

Ultra-clear, impact-resistant, resistant to high/low temperatures, weather-resistant

· PP ·

食品级、耐酸碱、耐高温、韧性好

Food-grade, acid and alkali resistant, high-temperature resistant, good toughness

· PVC ·

便宜、易成型、韧性一般

Low cost, easy formability, average toughness
