COMPANY PROFILE

企业简介

河北双浩橡塑制品厂始建于2016年，是一家专业从事工程机械履带板开发、生产的综合企业。具有多年的工程橡塑制品生产经验，拥有各种机械加工设备，橡塑加工设备。本厂产品以经济耐用为主导。主要生产挖掘机装载机，重型汽车等各种工程机械车辆橡塑零部件，生产的牛津履带板，耐磨损、抗撕裂、耐老化、使用寿命久，适用于各种国内外挖掘机、摊铺机、非开挖钻机、推土机、农机等机型；本厂所有工程机械橡塑产品提供质量保证及质量跟踪，在保质期内均可包退包换。

Founded in 2016, HebeiShuanghao Rubber & Plastic Products Factory is a comprehensive enterprise specializing in the development and production of rubber and plastic tracks for construction machinery. with many years of experience in the production of engineering rubber and plastic products, and a variety of mechanical processing equipment, rubber and plastic processing equipment. With economy and durability as the leading principle, the factory mainly produces rubber and plastic parts for excavators, loaders, heavy vehicles and other construction machinery vehicles. We mainly produce rubber and plastic parts for excavators, loaders, heavy vehicles and other kinds of construction machinery and vehicles, and produce PU track plates, which are wear-resistant, tear-resistant, ageing-resistant and have a long service life, and are suitable for all kinds of domestic and foreign excavators, pavers, non-excavation drilling rigs, bulldozers, agricultural machines and other models; All construction machinery rubber and plastic products provide quality assurance and quality tracking, and can be returned or exchanged within the warranty period.

PRODUCT DETAILS

产品细节

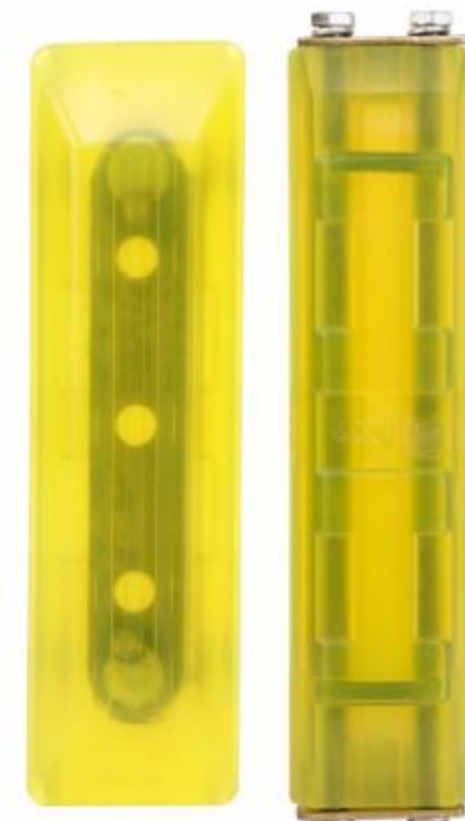

黑色聚氨酯，牛筋，投资小，回报快。

Black urethane, ox tendon, Shot, for short runs, small investment, quick returns.

黄色聚氨酯，牛筋，在更复杂的条件下提供比黑色好3-5倍的性能。

The yellow polyurethane, ox tendon, Shot, offers 3-5 times better performance than the black color for more complex conditions.

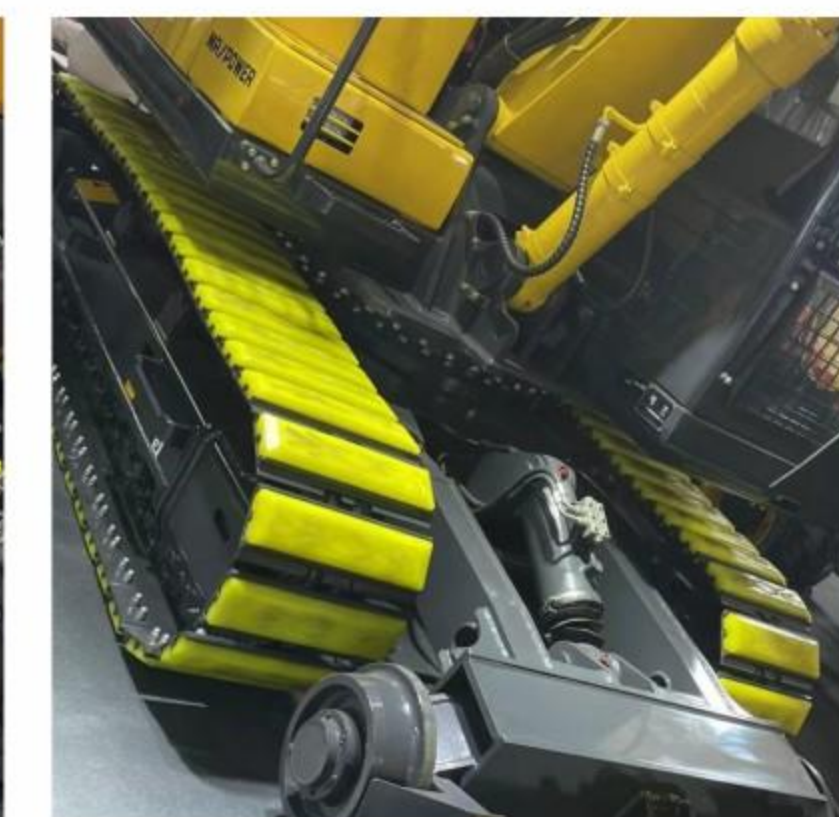

透明聚氨酯，采用进口高透明原料，具有高耐磨、耐撕裂、耐老化、耐腐蚀等优点。

Transparent polyurethane ox models, shot, the use of imported high transparent raw materials, high wear resistant, tear-resistant, ageing resistant, corrosion-resistant, and other advantages.

PRODUCTS INSTALLATION GUIDE

产品安装指南

性能及技术参数：高耐磨PU板

PU力学性能：PU弹性体硬度变化范围比较宽，邵尔A10 ~ D80，断裂伸长率高达600%~800%。天然橡胶的最高邵氏硬度仅为A70，断裂伸长率为550%。PU弹性体的撕裂强度高，是天然橡胶的2 ~ 5倍。PU弹性体具有良好的耐磨性，是天然橡胶的3~10倍，并具有耐腐蚀、耐水解、高耐磨性等优异性能！

Performance and Technical Parameters: High Wear-resistant PU Plate

PU Mechanical Properties: PU elastomer hardness change range is relatively wide, with Shore A10 to D80, and the elongation at break is as high as 600%~800%. The highest Shore hardness of natural rubber is only A70, with an elongation at break of 550%. The tear strength of PU elastomers is high, 2 to 5 times greater than that of natural rubber. PU elastomer has good abrasion resistance, 3~10 times that of natural rubber, and has excellent properties such as corrosion resistance, hydrolysis resistance and high abrasion resistance!

TRACK SHOE SPECIFICATIONS

履带板规格

产品规格 Specification	长度mm Length mm	螺孔（孔）距离mm Screw (hole) Distance mm
230 螺钉 Screw	230	150
250 螺钉 Screw	250	200
300 螺钉 Screw	300	200
350 螺钉 Screw	350	250x45
400 螺钉 Screw	400	300x45
450 螺钉 Screw	450	350x55
450 螺钉 Screw Narrow	450	350x45
500 螺钉 Screw	500	400x60
380 卡扣 Snap	380	
400 卡扣 Snap	400	
450 卡扣 Snap	450	
500 卡扣 Snap	500	
600 卡扣 Snap	600

CUSTOMER SERVICE

客户服务

我公司设有专业的技术工程师队伍，具体负责售前技术推广、售中技术支持、售后技术保障等客户服务性工作。我们坚持“无形的服务也是我们的竞争力”的理念，全心全意为您提供让您放心的传动问题系统解决方案，并全程负责传动问题的整体性、系统性解决工作。我们承诺，我们的客户服务团队可以在12小时内，响应您的售前、售中、售后客户服务需求！

无论我们的客户在哪里，
我们都能够提供强有力的技术支持和**完善的售后服务**，
为他们创造所期望的价值

作为一家集研发、生产、销售和服务于一体的高新技术企业，
双浩始终将产品质量放在第一位，始终关注着用户。
我们坚持把高质量的材料、先进的设计、精益求精的加工、认真仔细的装配调试
和严格的制造标准及质量保证体系紧密结合在一起，
制造出令客户满意的产品。

No matter where our customers are,
we are able to provide strong technical support and perfect after-sale service,
to create the desired value for them.

As a high-tech enterprise including research, development, production, sales and service,
SHUANGHAO places product quality in the first place and pays attention onto customers.
We insist on combining high-quality materials, advanced design, refined processing,
aborative assembling and testing,
strict manufacturing standards and stringent quality assurance system together,
to manufacture satisfactory products for customers.
