COMPANY PROFILE

Creative Vision of Excellence

四维机械有限公司位于福建东南沿海著名的福建省泉州市。是一家集研发、制造、销售于一体的专业机械公司。公司在铸造、机械加工、热处理、产品开发和实验测试方面拥有全面的能力。已在全球177个国家和地区销售。公司始终严格检验原材料,严格控制产品质量,坚持把产品质量放在第一位。

公司专业生产各种挖掘机铲斗、松土器、快换器、工字架、护链架、连杆等。产品畅销东南亚和欧美。凭借其完美的品质,它们受到了用户的信赖和赞誉。公司积极贯彻ISO9000管理精神,树立“以人才为本、以质量求生存、以诚信求发展”的精神,不断自我完善、追求卓越、铸造品质、倾听品质。

我们的经营宗旨是“质量第一、客户至上、信誉第一”。在注重实践和探索的同时,我们不断追求产品创新和服务创新,致力于为国内外客户提供一流的产品、一流的产品和一流的服务。我们真诚欢迎国内外新老客户来电、来函,共同创造完美与永恒。

PROCESSING WORKSHOP 加工车间

Fujian Swinch Machinery Manufacturing Co., Ltd. is located in Quanzhou, Fujian Province, a well-known hometown of overseas Chinese on the southeast coast of Fujian. it is a specialized machinery company integrating R&D, manufacturing and sales. The company has comprehensive capabilities in casting, machining, heat treatment, product development and experimental testing.has been sold in 177 countries and regions worldwide. The company has always strictly inspected raw materials, strictly controlled product quality, and insisted on putting product quality first.

The company specializes in the production of various Excavator buckets, buckets, rippers tooth, quick changers, chain guards, H-Link, L-Link, etc. The products sell well in Southeast Asia and Europe and the United States. With their perfect quality, they are trusted and praised by users. The company actively implements the ISO9000 management spirit, establishes the spirit of "talent-oriented, quality-based survival, and integrity-based development", constantly self-improving, striving for excellence ,casting quality ,and listening quality.

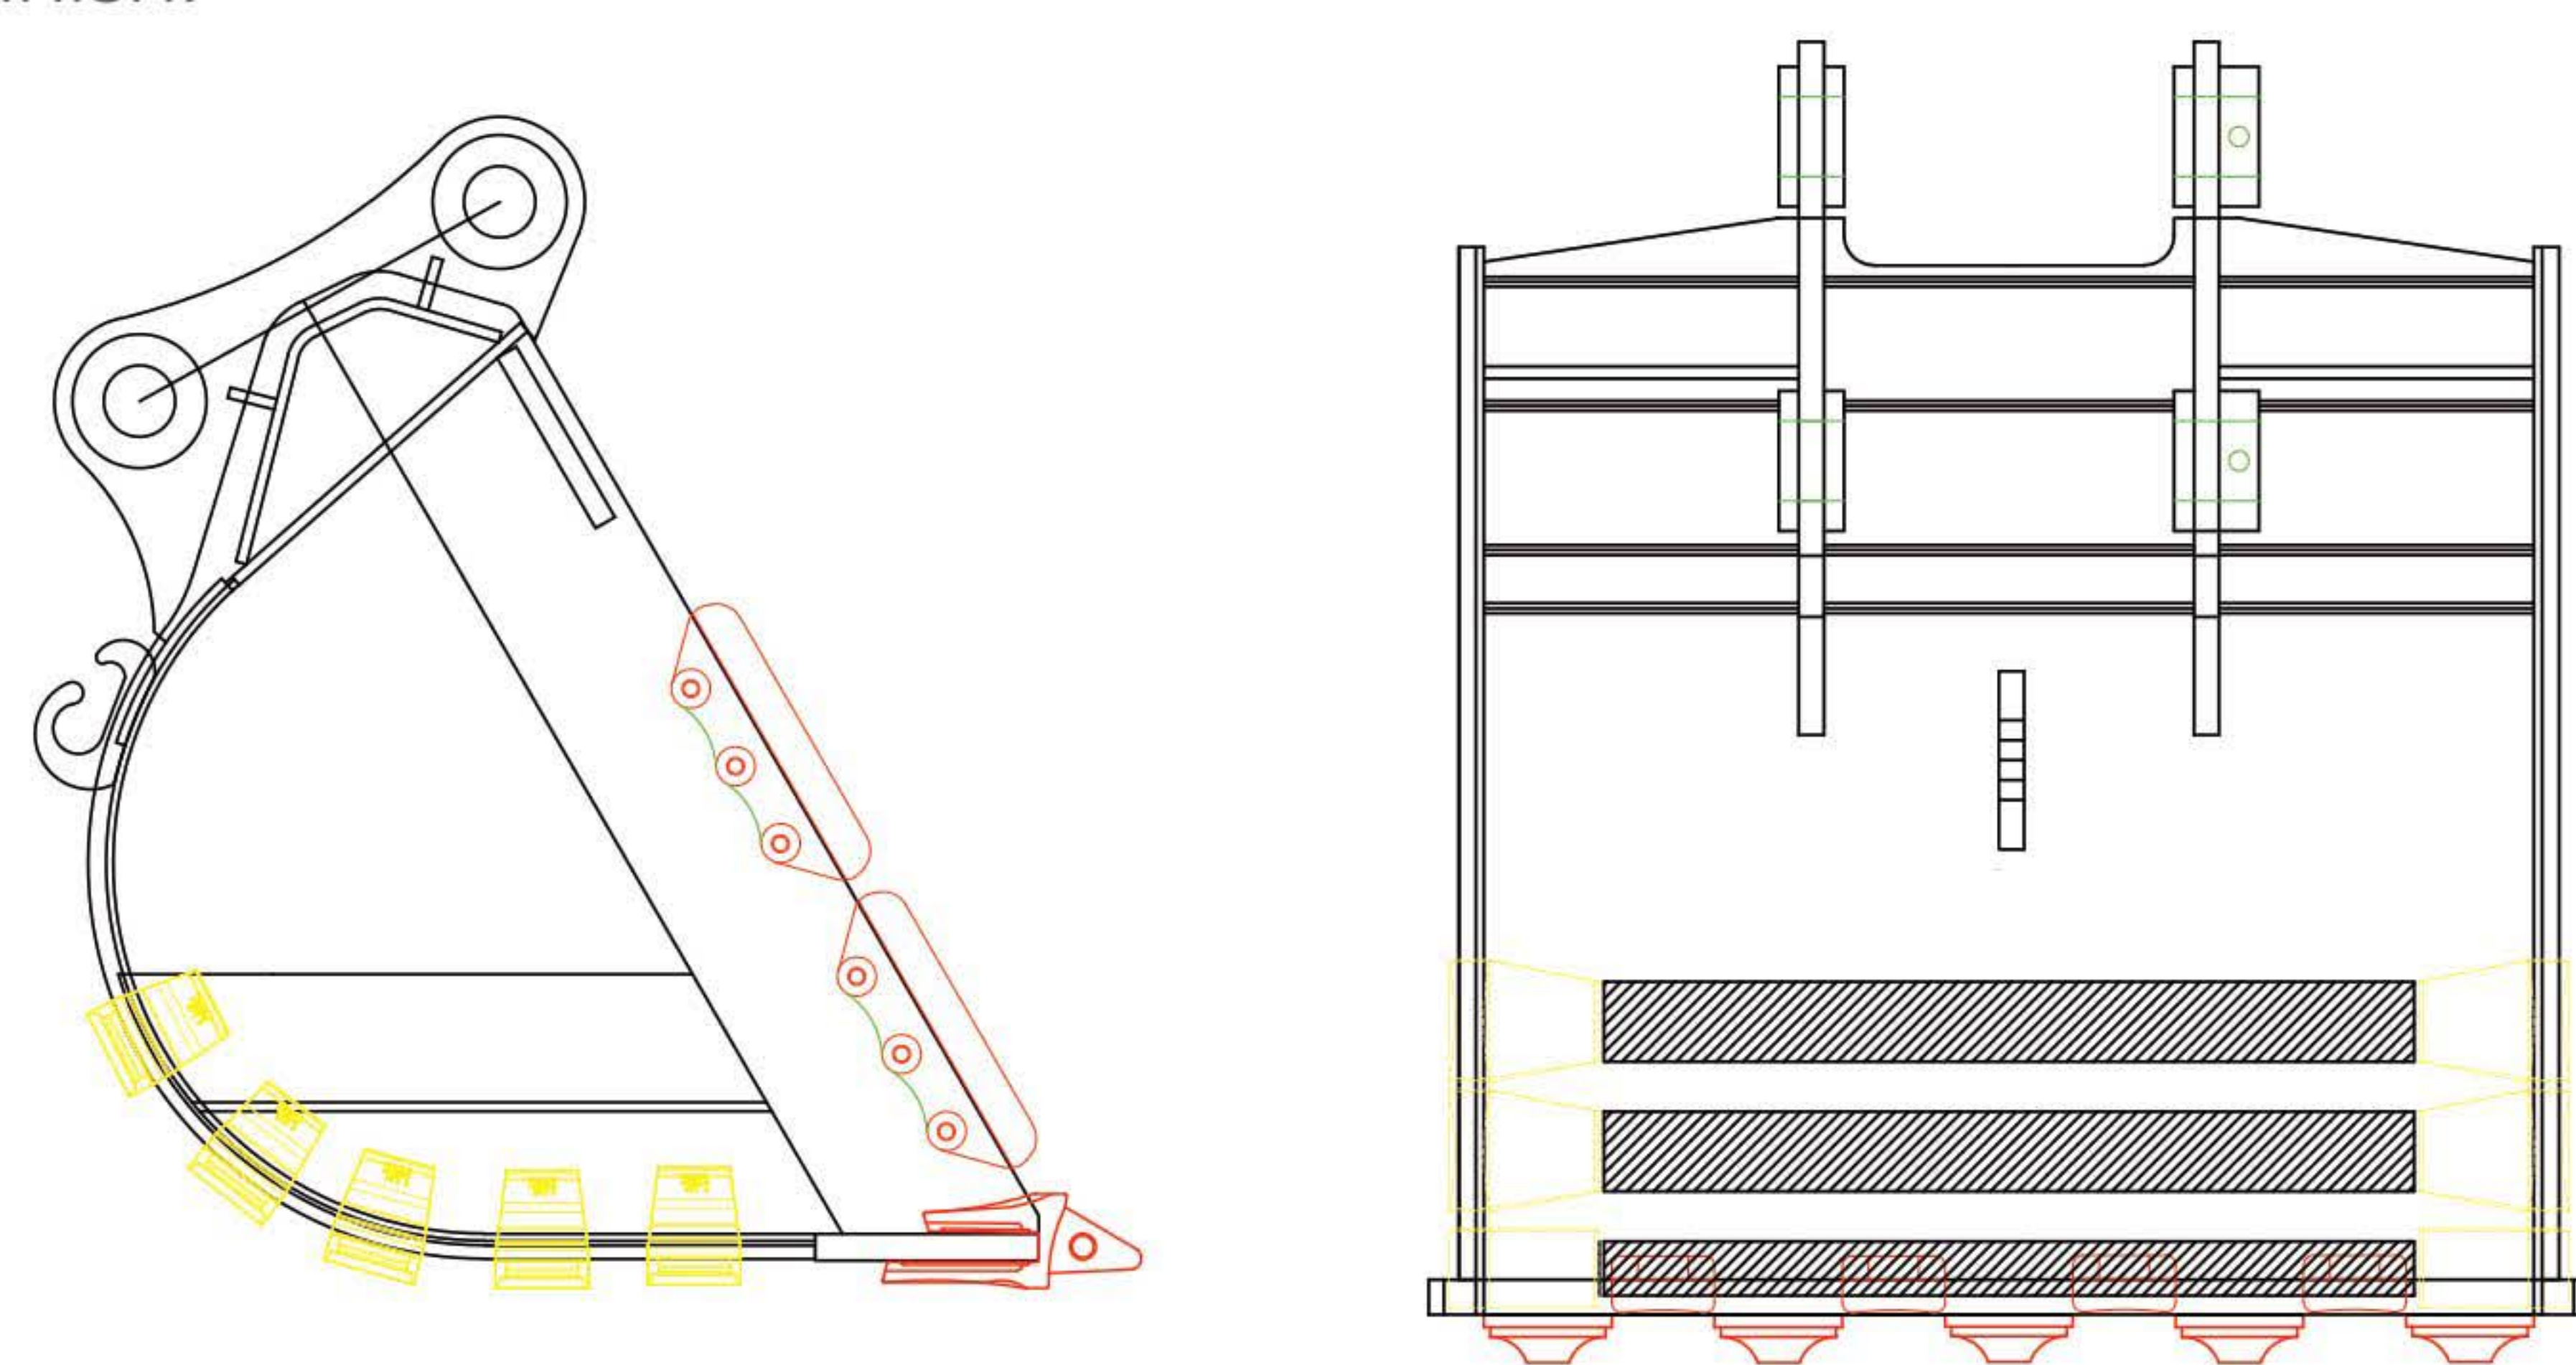

Our business tenet is "Quality First, Customer First, Credit First". While focusing on practice and exploration, we continue to strive for product innovation and service innovation, and are committed to providing first-class products, first-class products and first-class services to customers at home and abroad. We sincerely welcome new and old customers at home and abroad to call us, visit us, and create perfection and eternity together.

ROCK-BUCKET

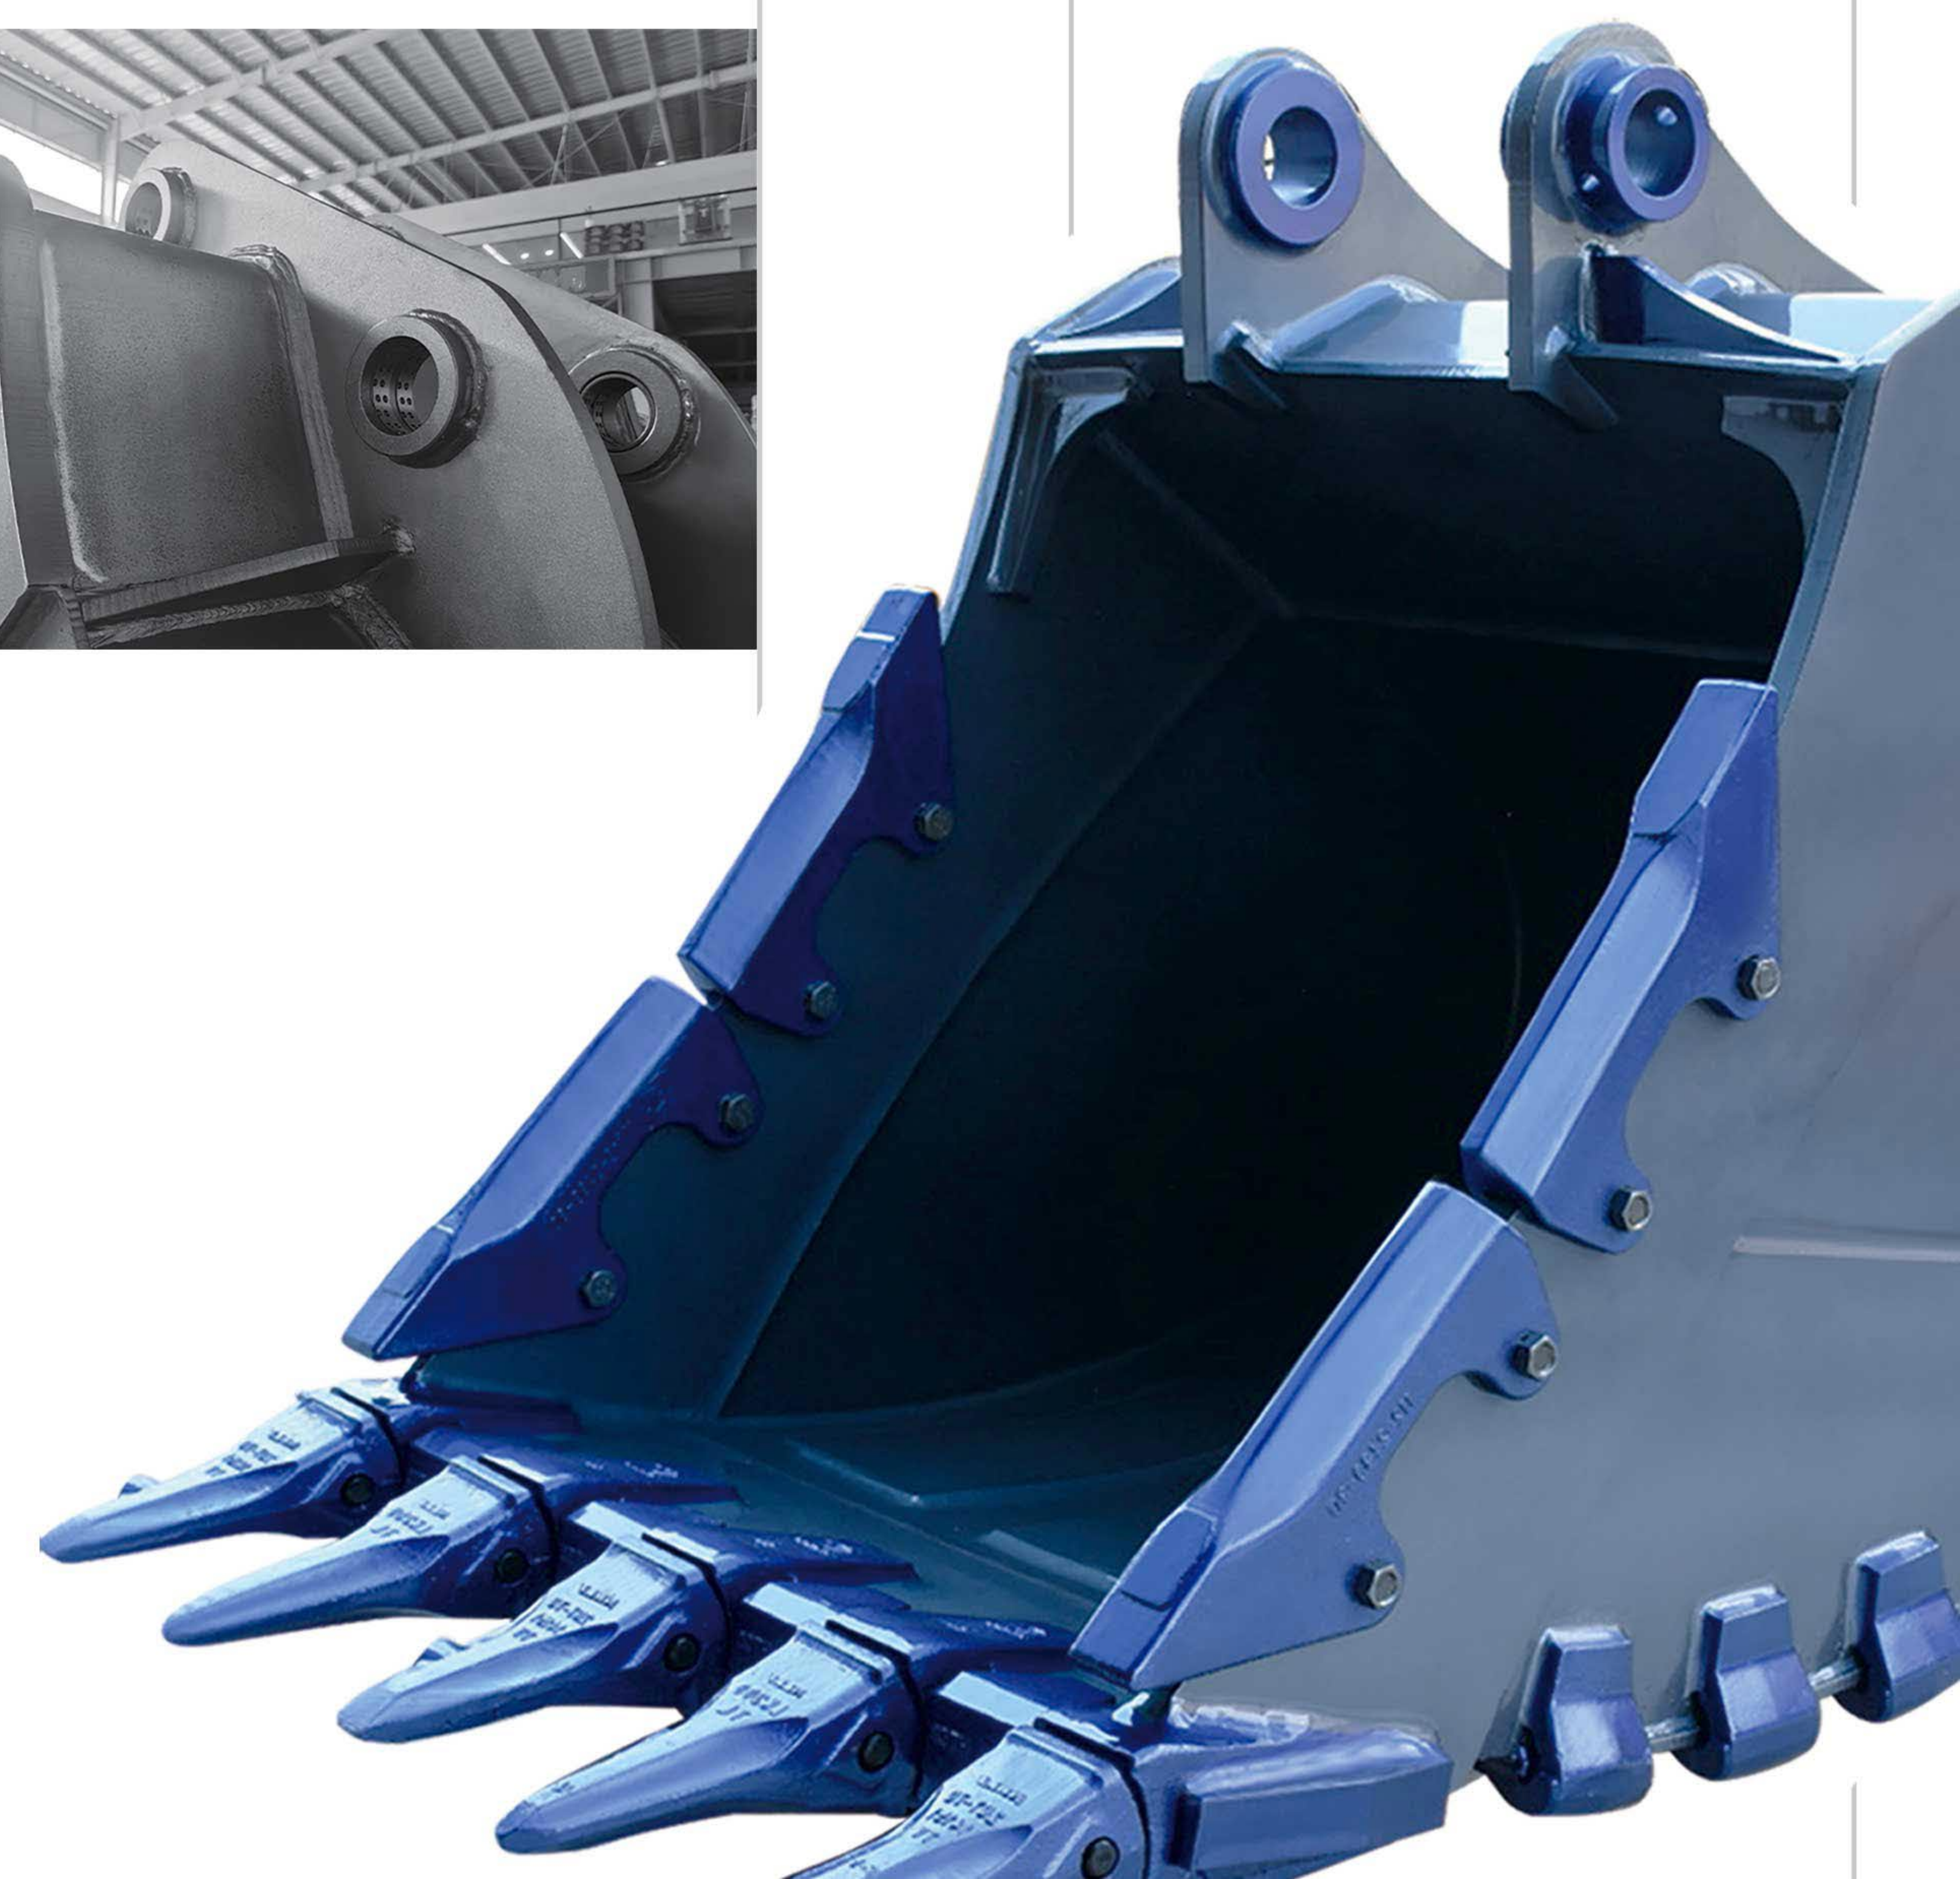

Compatible with various wheeled excavators, track excavators, more than 2000 sizes and specifications can meet the configuration requirements of excavators from 0.8 tons to 200 tons.

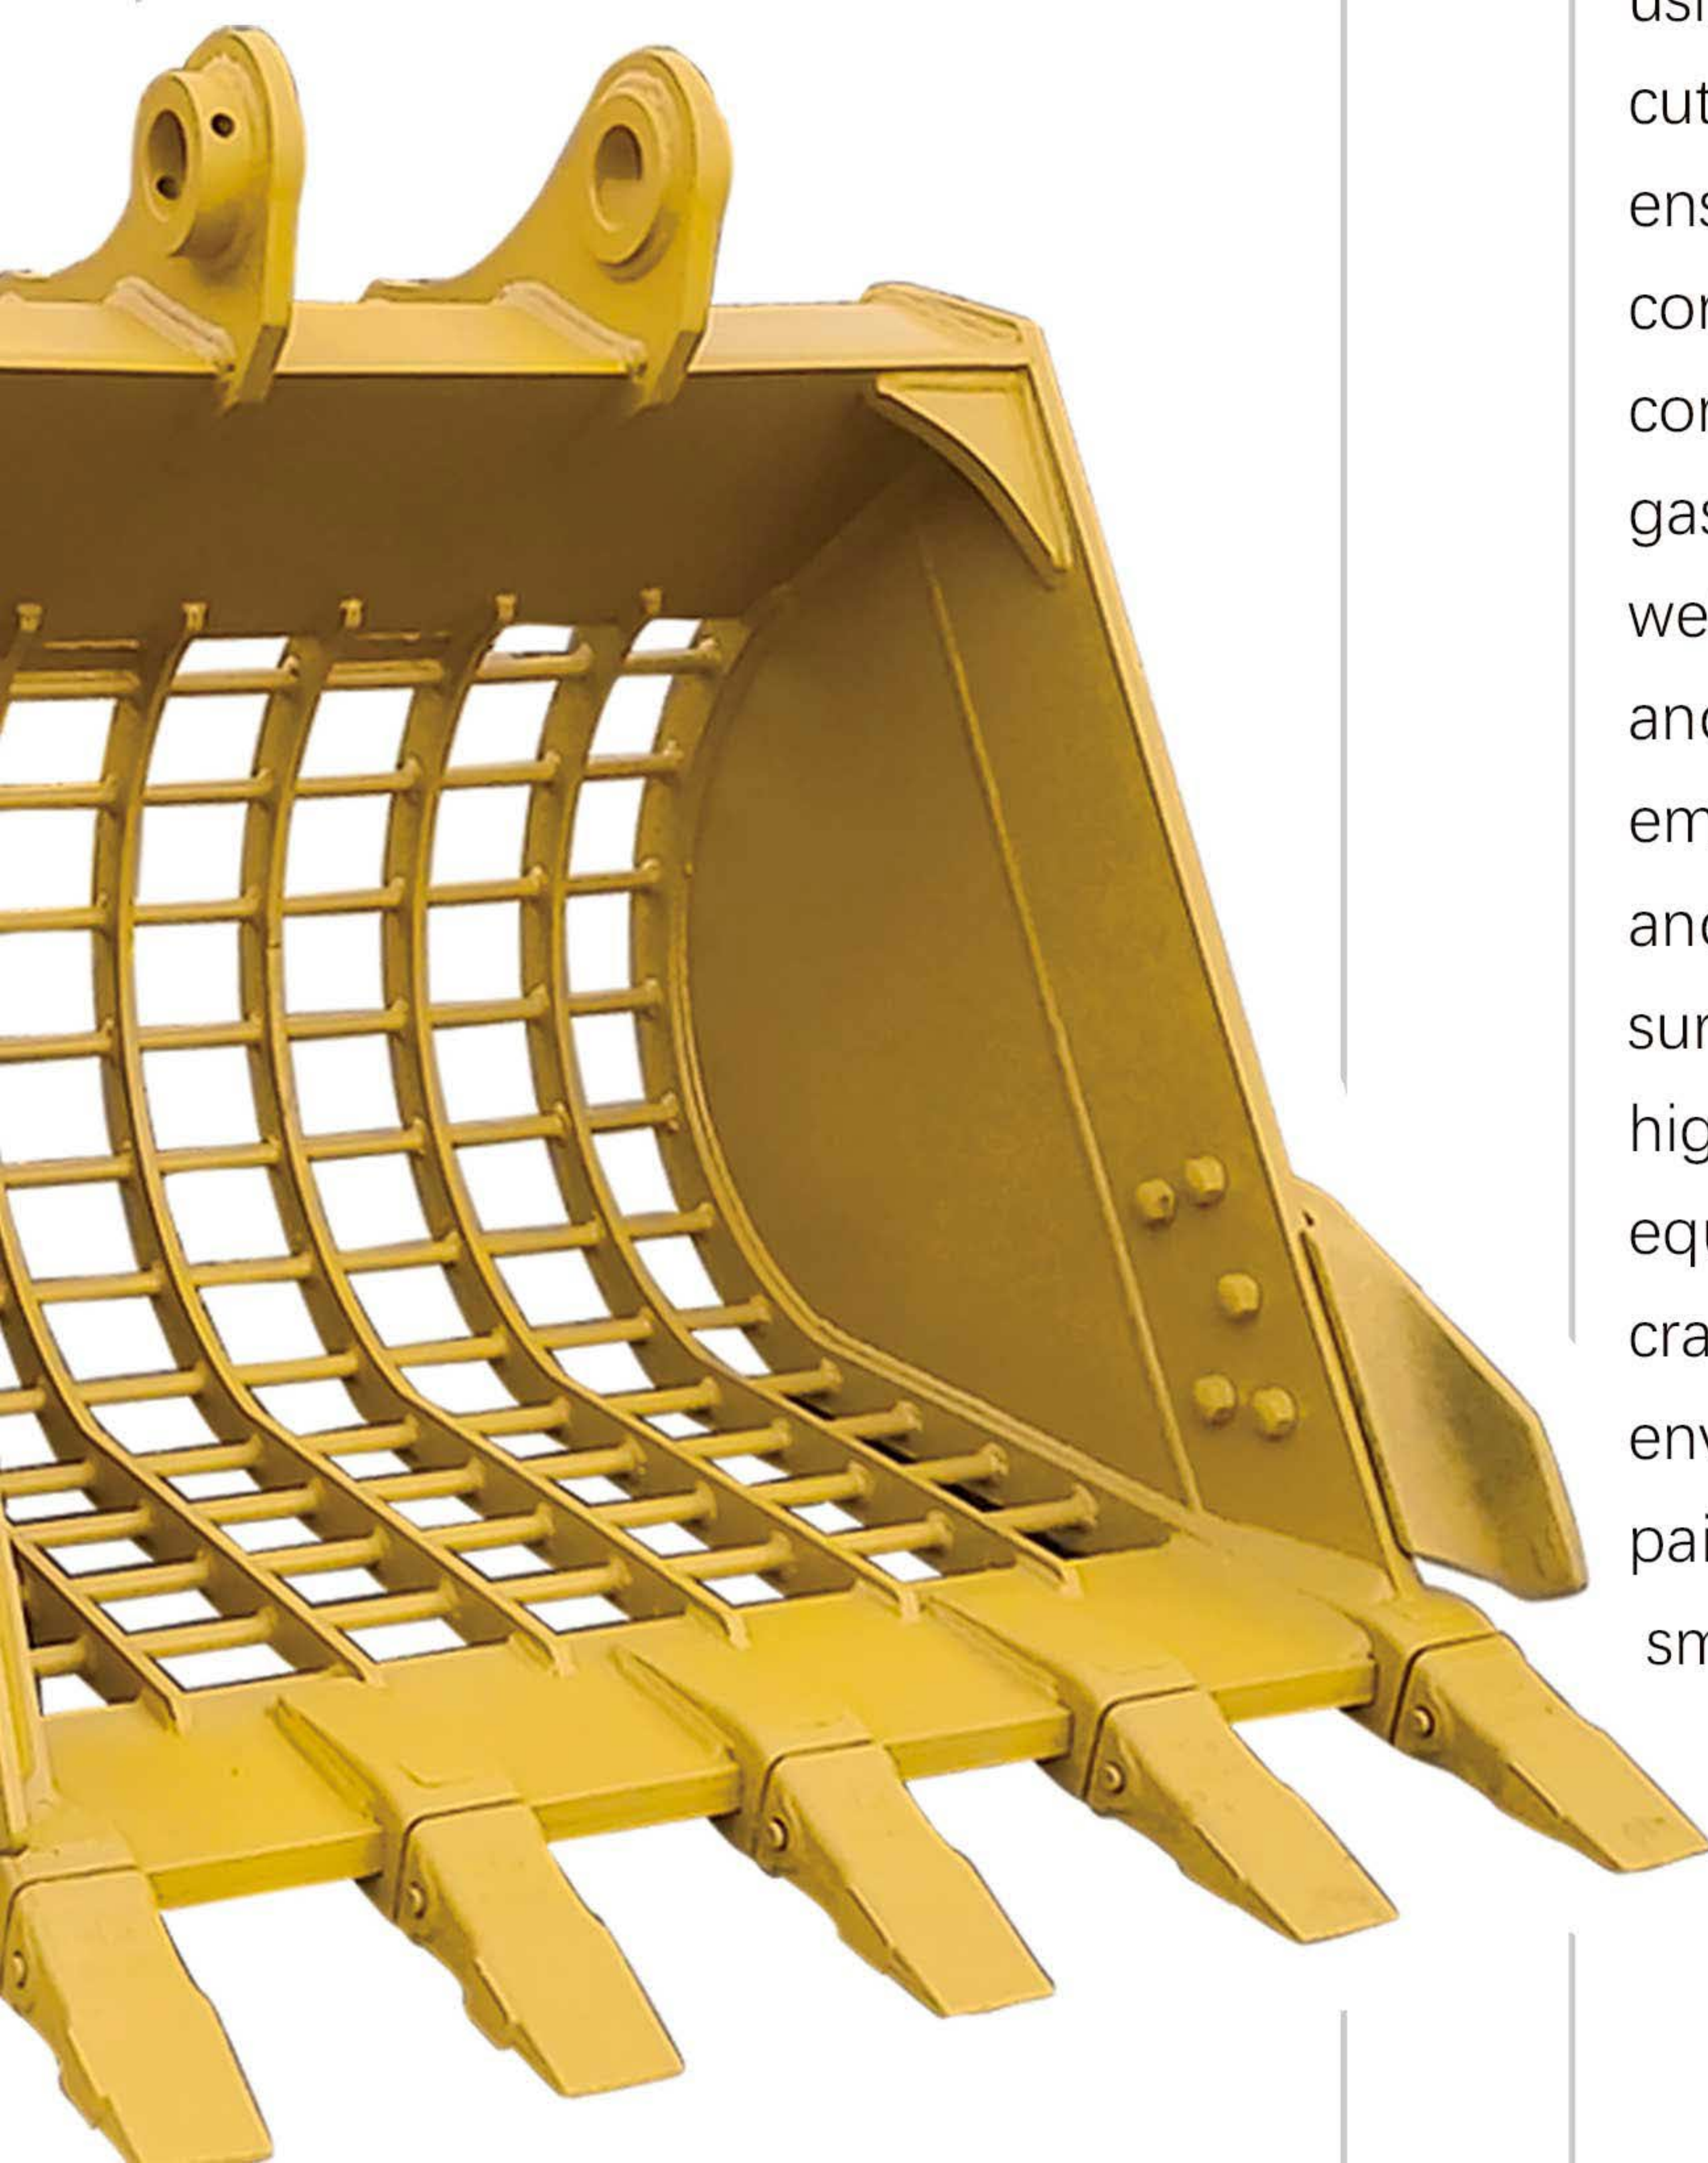

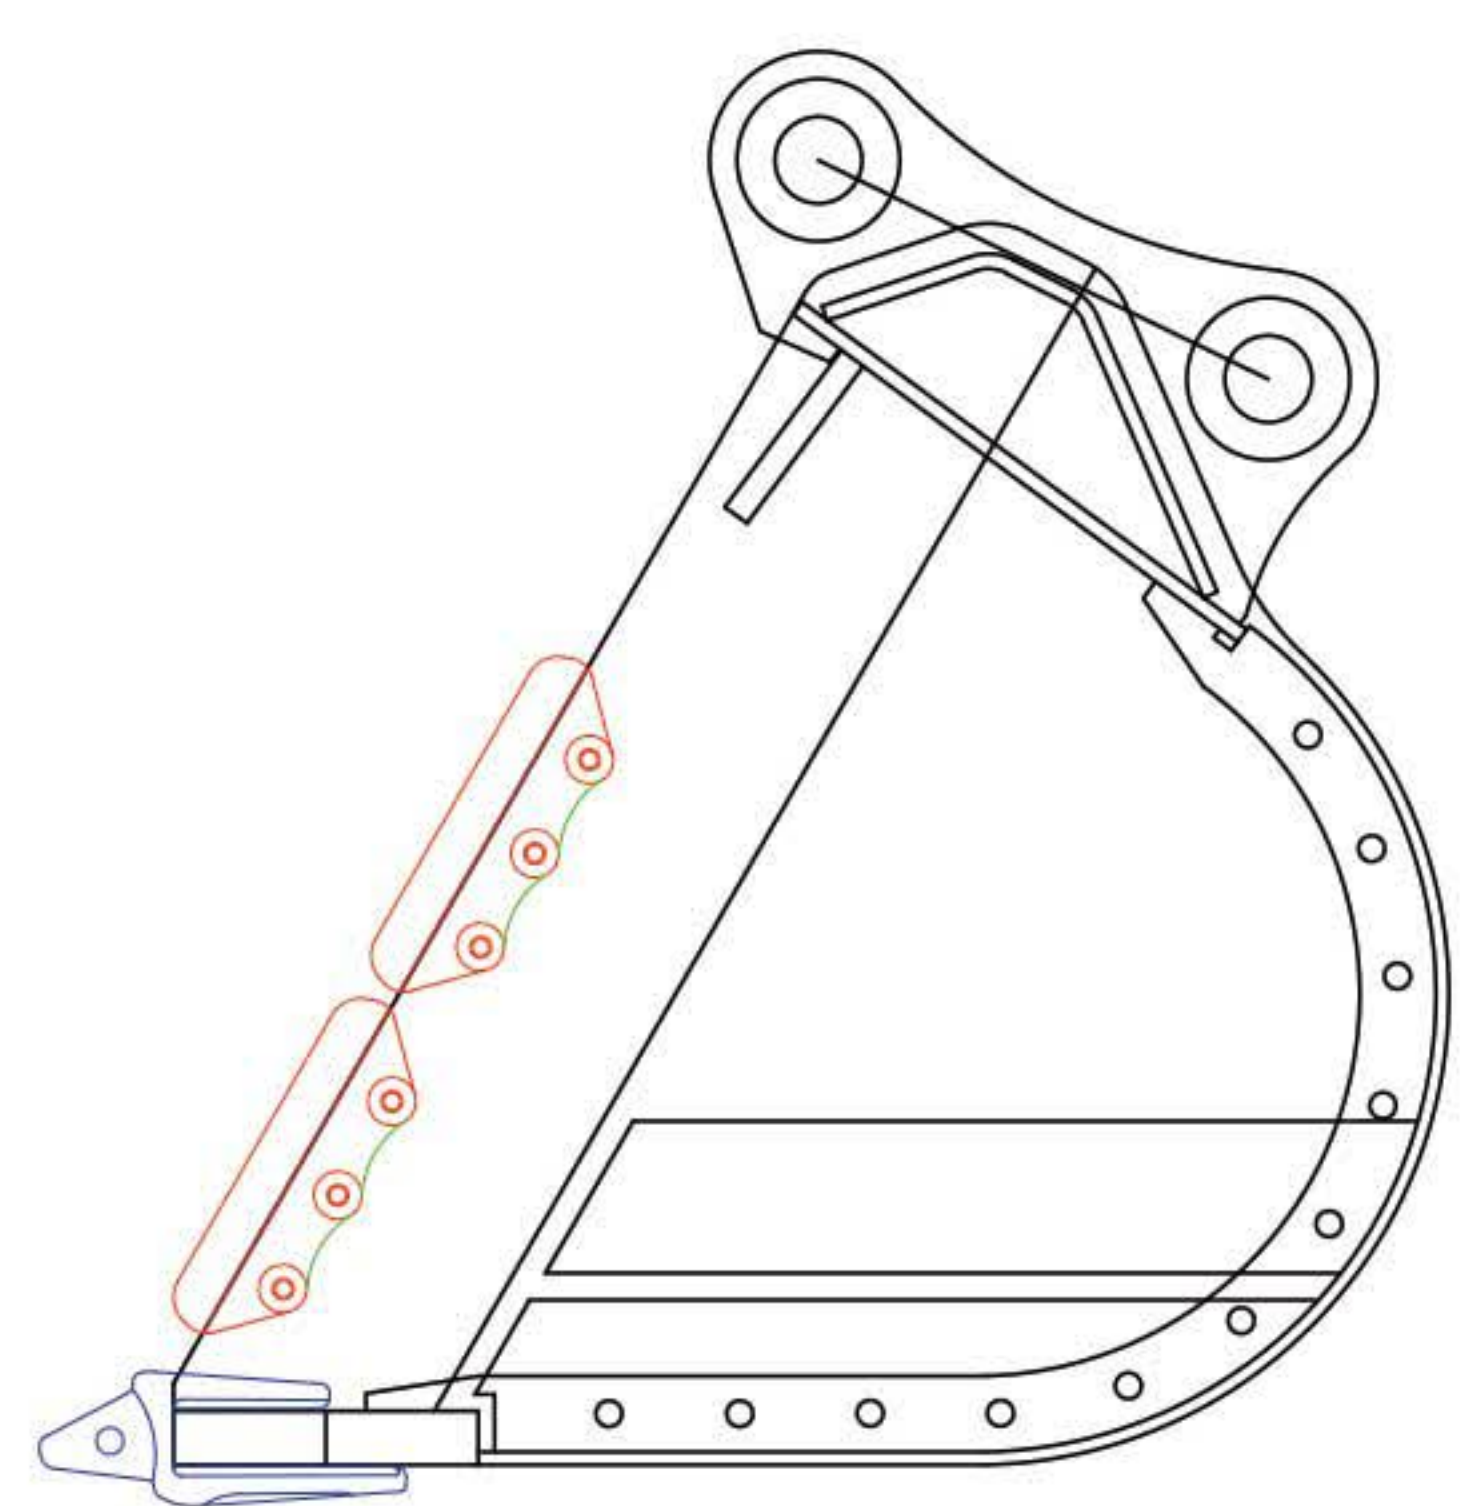

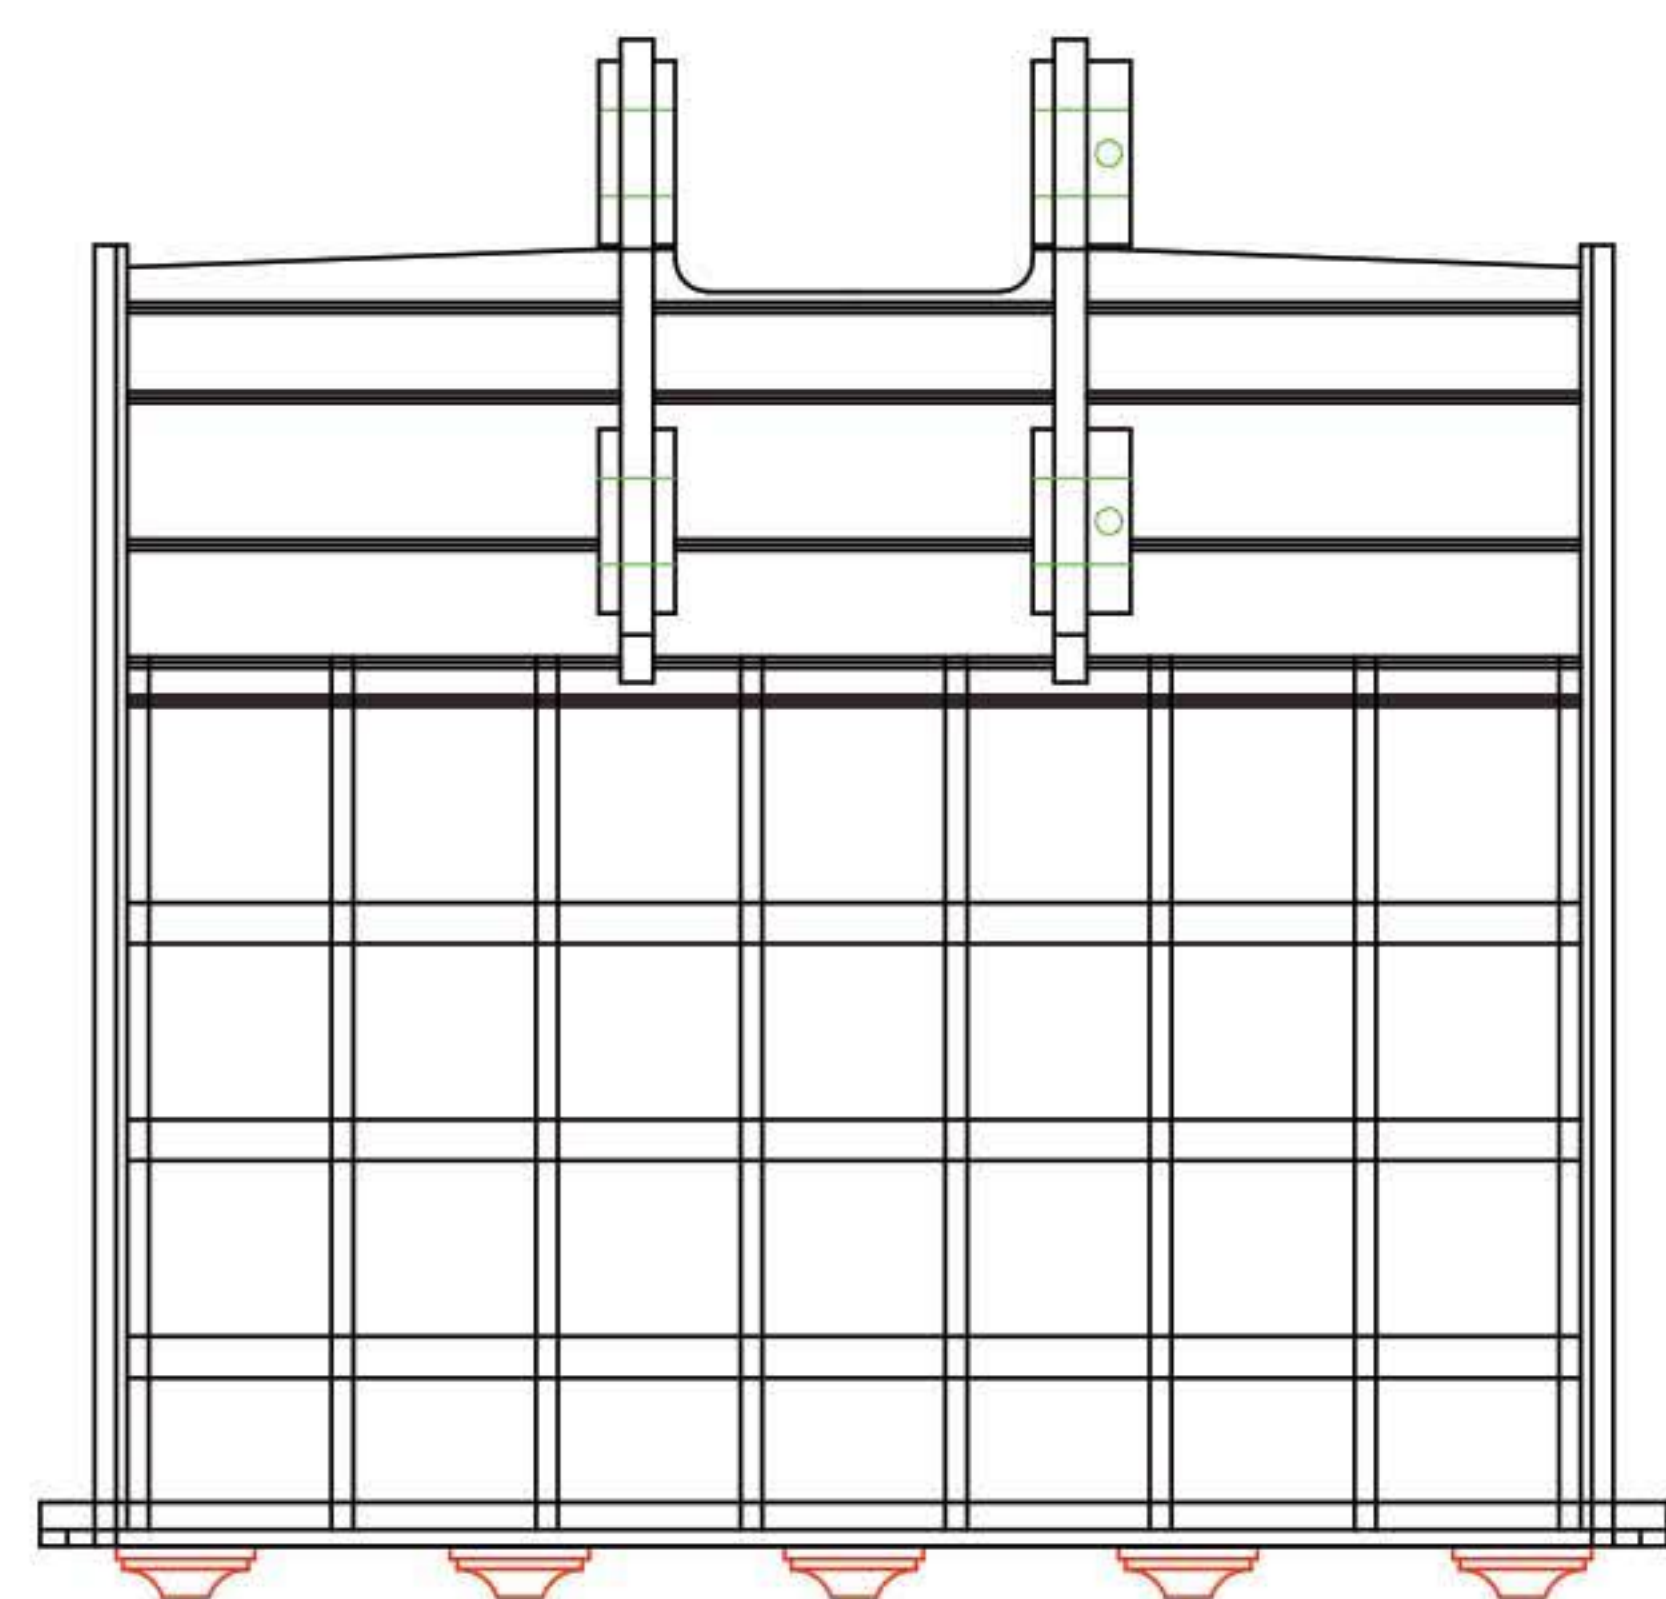

Made of high-quality steel, it has excellent wear resistance, a longer service life during high-efficiency operations, cutting accuracy guaranteed by the most advanced laser cutting equipment in China, precise control of bucket size, High power gas shielded welding, and a welder with more than ten years of experience. robotic welding techniques. The surface is processed with giant high-power polishing imported equipment, Mechanical arm welding. The workmanship is exquisite, the performance is stable, and the paint uses environmentally friendly industrial paint with strong adhesion and a smooth finish.

岩石斗

适配于各种轮式挖掘机，履带式挖掘机，达2000多种尺寸规格可满足0.8吨到200吨数的挖掘机配置要求，使用优质钢材铸造而成，耐磨性能卓越，高效作业时使用寿命延长，使用国内最先进的激光切割剪料保证切割精度，对挖斗尺寸精确把控，采用高功率气体保护焊接，聘用十余年从业经验的焊工师傅和机械手焊接，工艺表面加工为巨型大功率抛光进口设备做工精湛，性能稳定，喷漆采用环保工业漆附着力强漆面光滑。

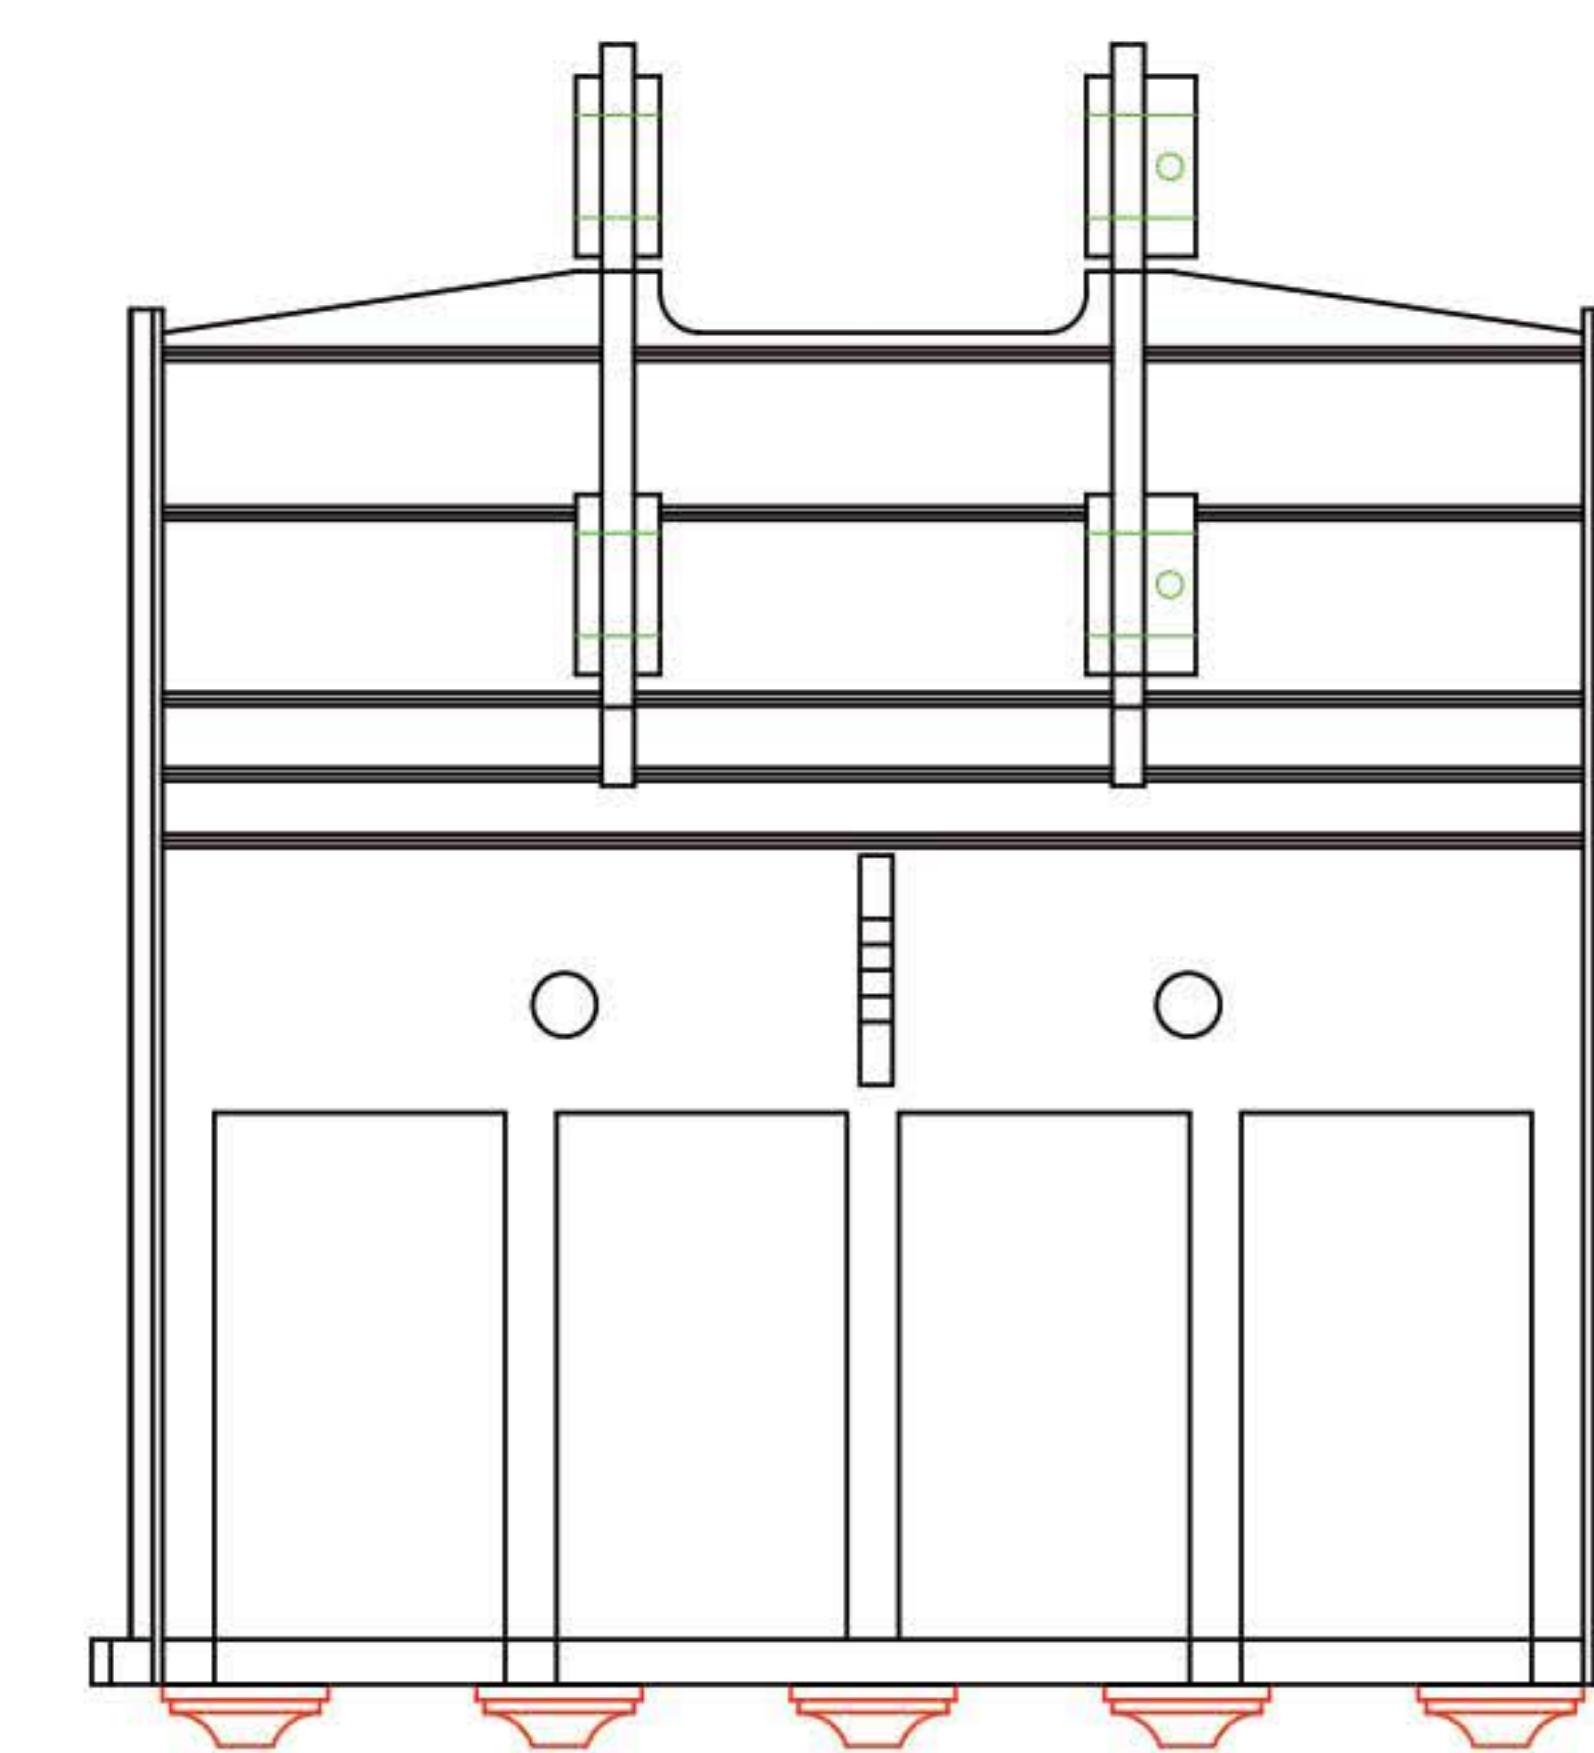

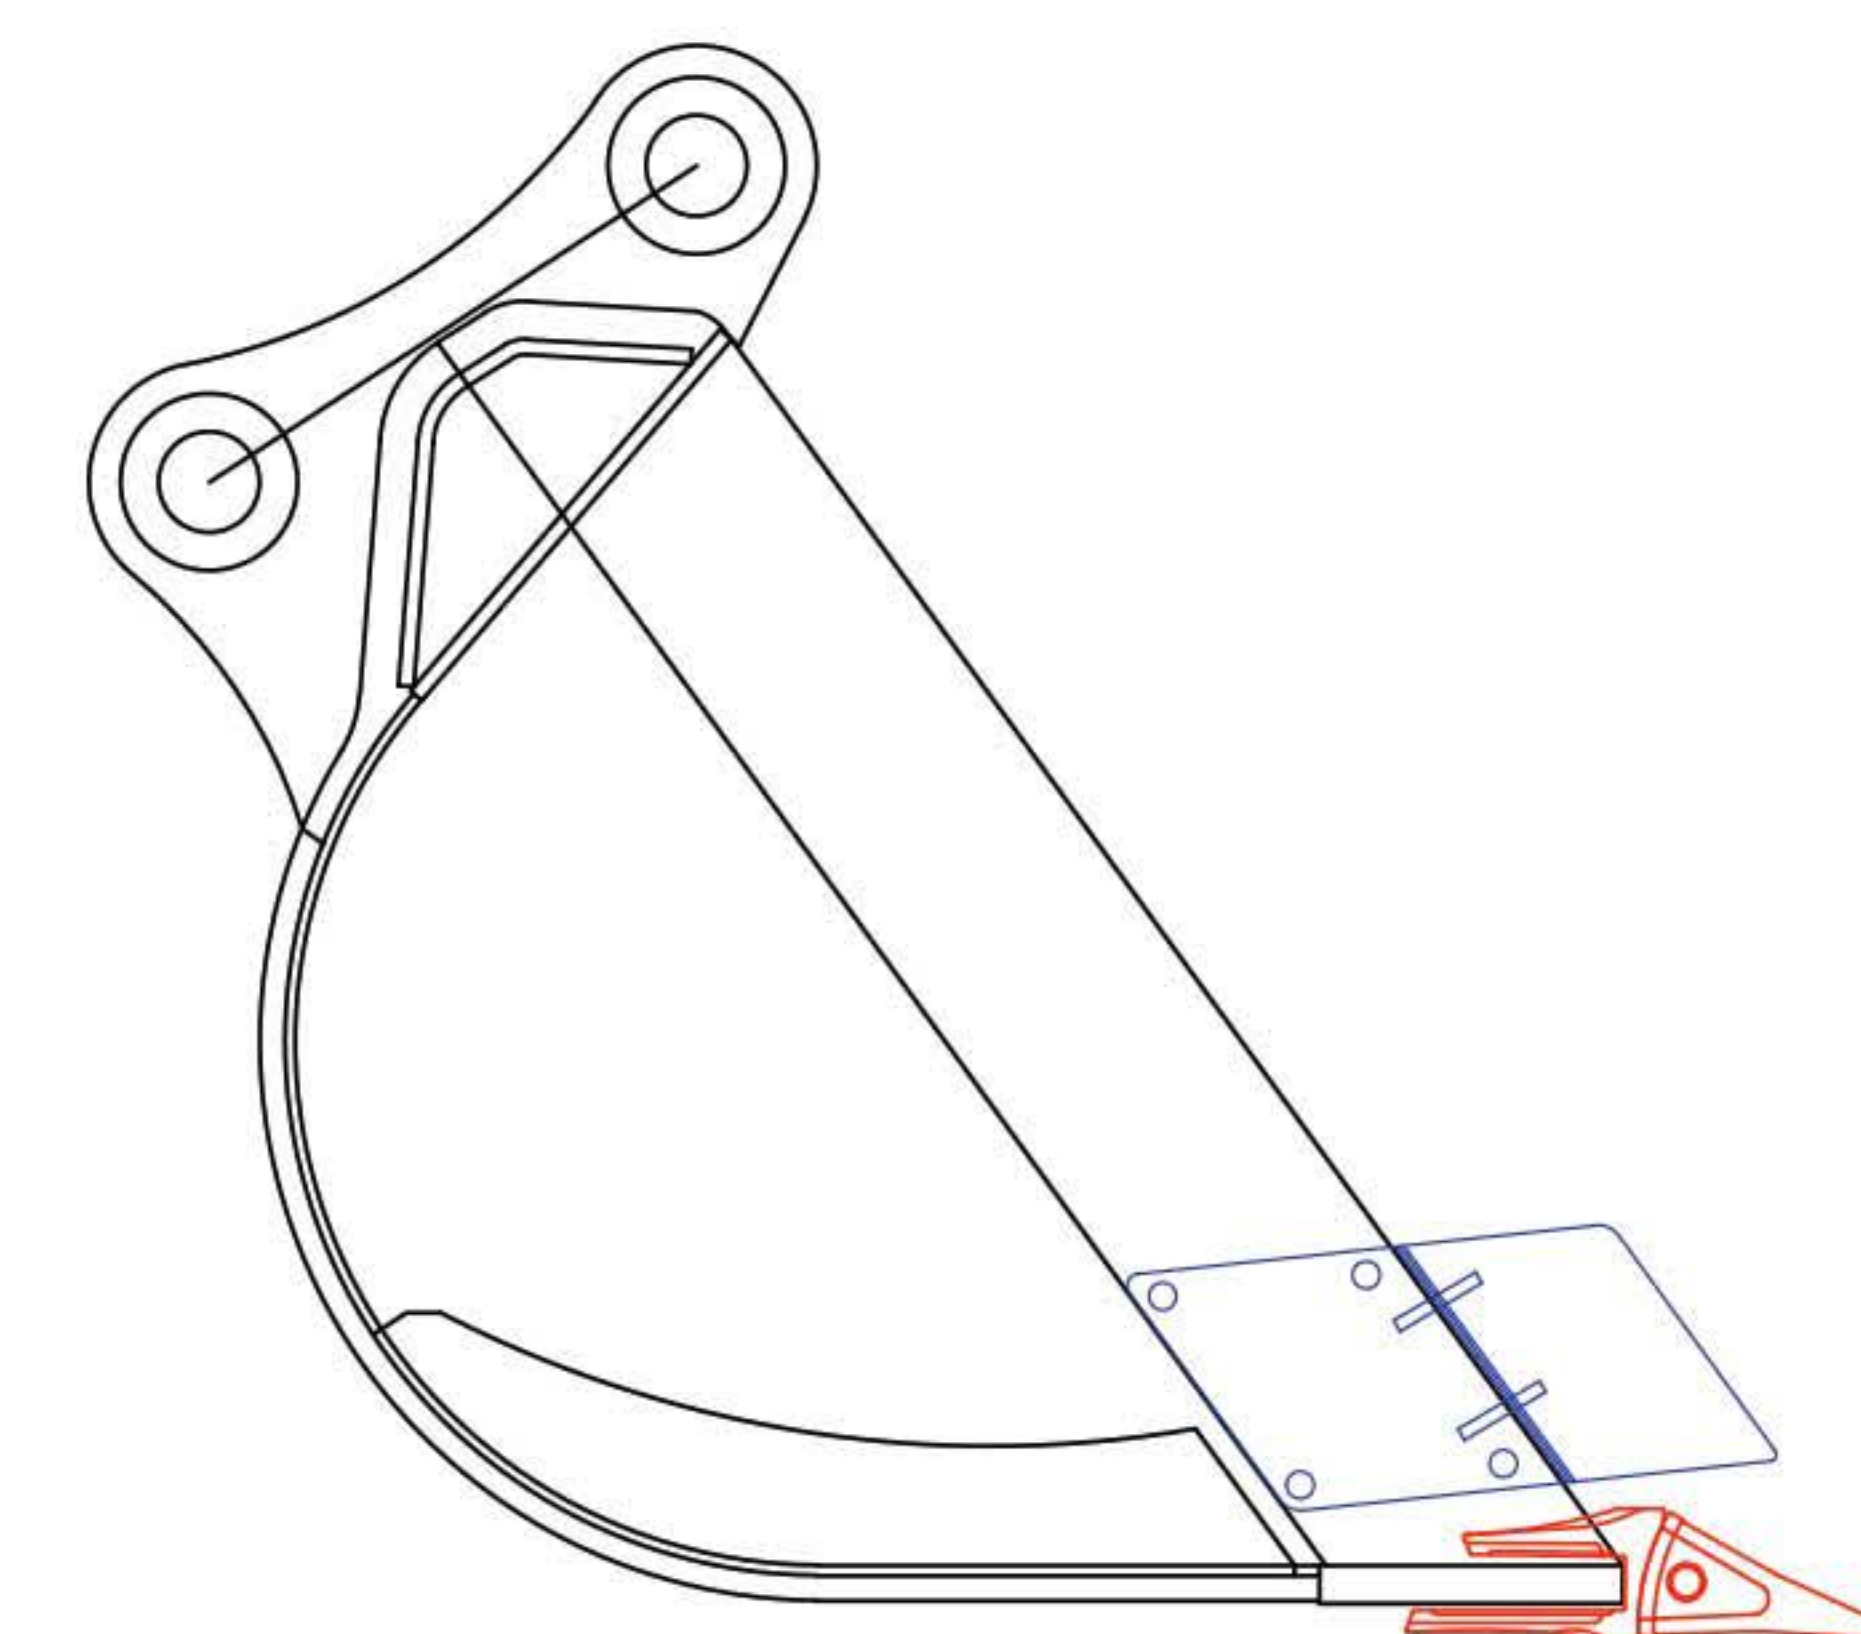

网格斗 SKELETON BUCKET

Compatible with various wheeled excavators, track excavators, more than 2000 sizes and specifications can meet the configuration requirements of excavators from 0.8 tons to 200 tons. Made from high-quality steel casting it has excellent wear resistance, a longer service life during efficient operation, designed through CAD drawing and stress simulation, using the most advanced laser cutting materials in the country to ensure cutting accuracy, precise control of bucket size and component size, high-power gas-shielded welding, overall welding to ensure the strength and durability of the bucket, employing experienced welders and robotic welding techniques, surface processing with giant high-power polishing imported equipment, exquisite craftsmanship, stable performance environmentally friendly industrial paint for spraying, strong adhesion, smooth paint surface.

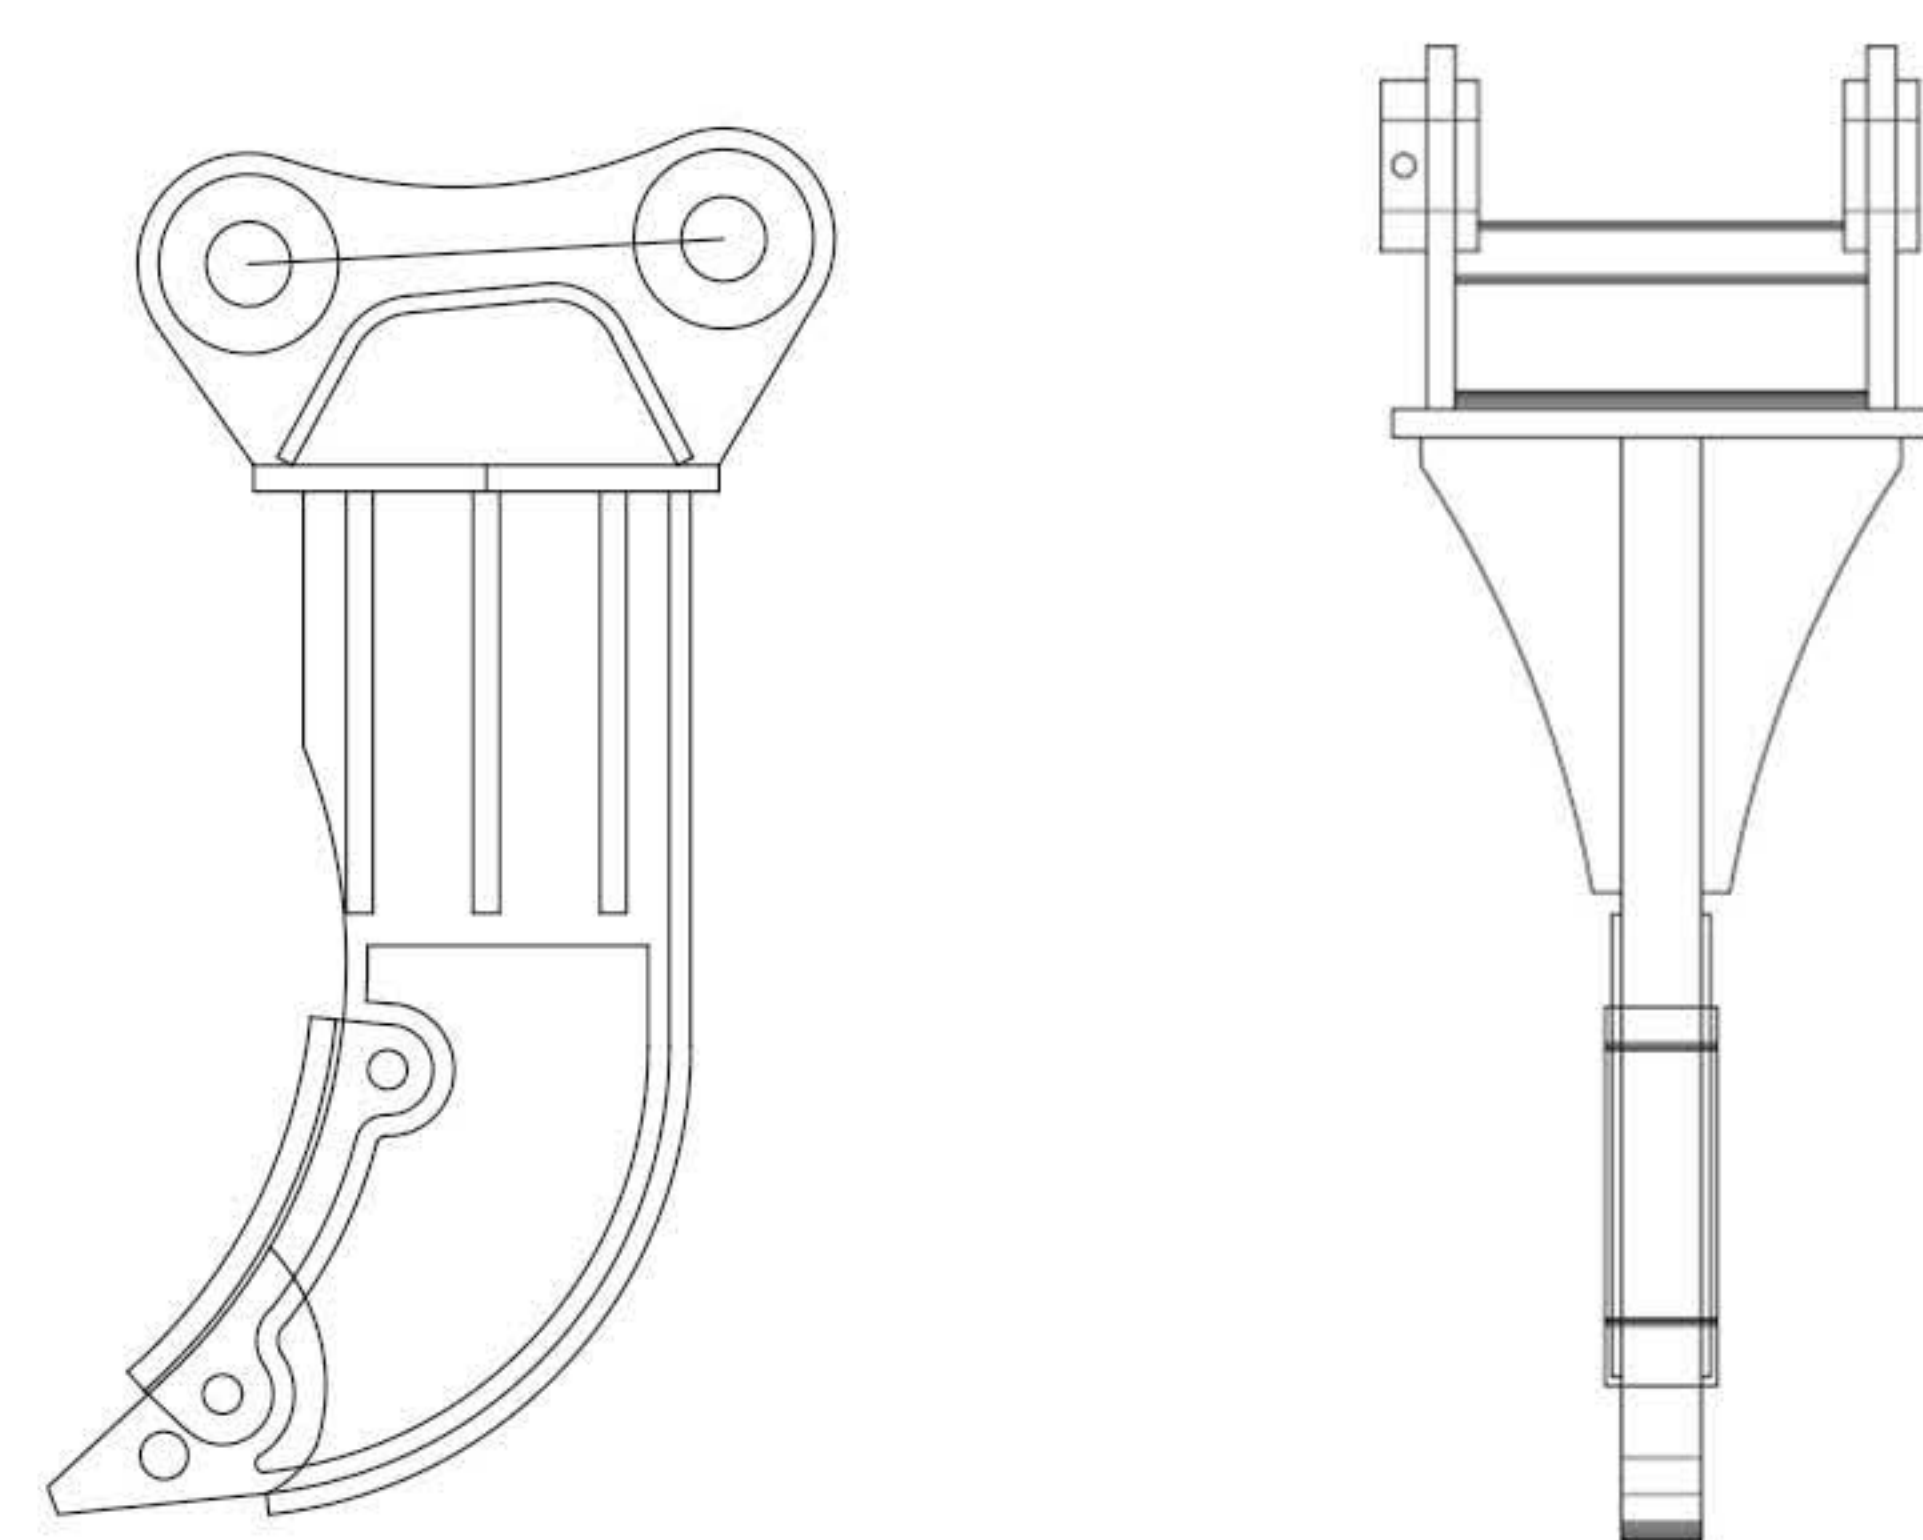

土方斗 GENERAL PURPOSE BUCKET

适配于各种轮式挖掘机，履带式挖掘机，达2000多种尺寸规格可满足0.8吨到200吨数的挖掘机配置要求，使用优质钢材铸造而成，耐磨性能卓越，高效作业时使用寿命延长，通过CAD制图进行设计，并进行抗应力模拟，使用国内最先进的激光切割剪料保证切割精度，对挖斗尺寸以及零部件尺寸精确把控，采用高功率气体保护焊接，整体焊接以保证挖斗的强度和耐用性、聘用十余年从业经验的焊工师傅和机械手焊接工艺，表面加工为巨型大功率抛光进口设备，做工精湛，性能稳定，喷漆采用环保工业漆附着力强漆面光滑。

松土器 RIPPER TOOTH

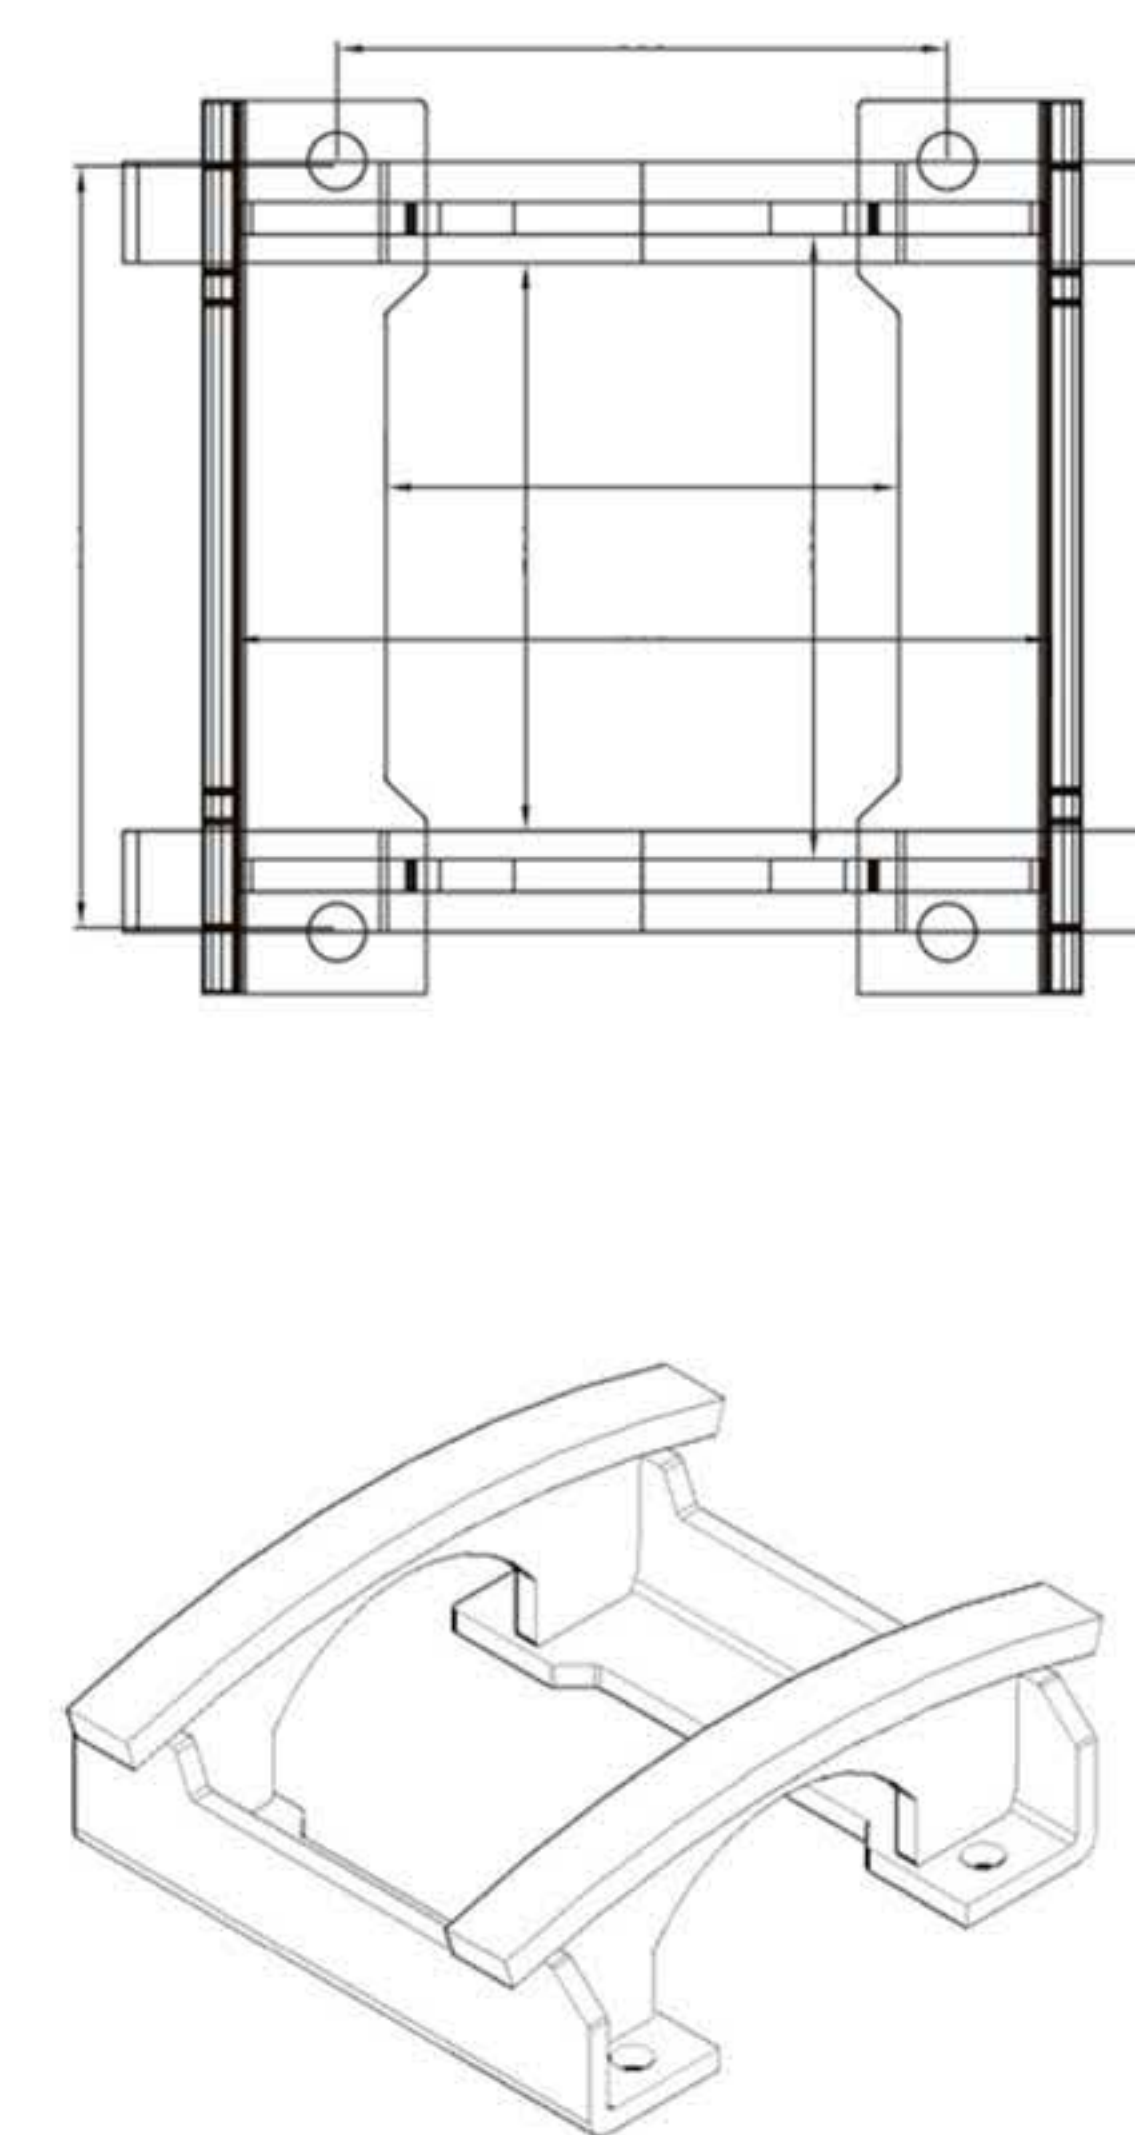

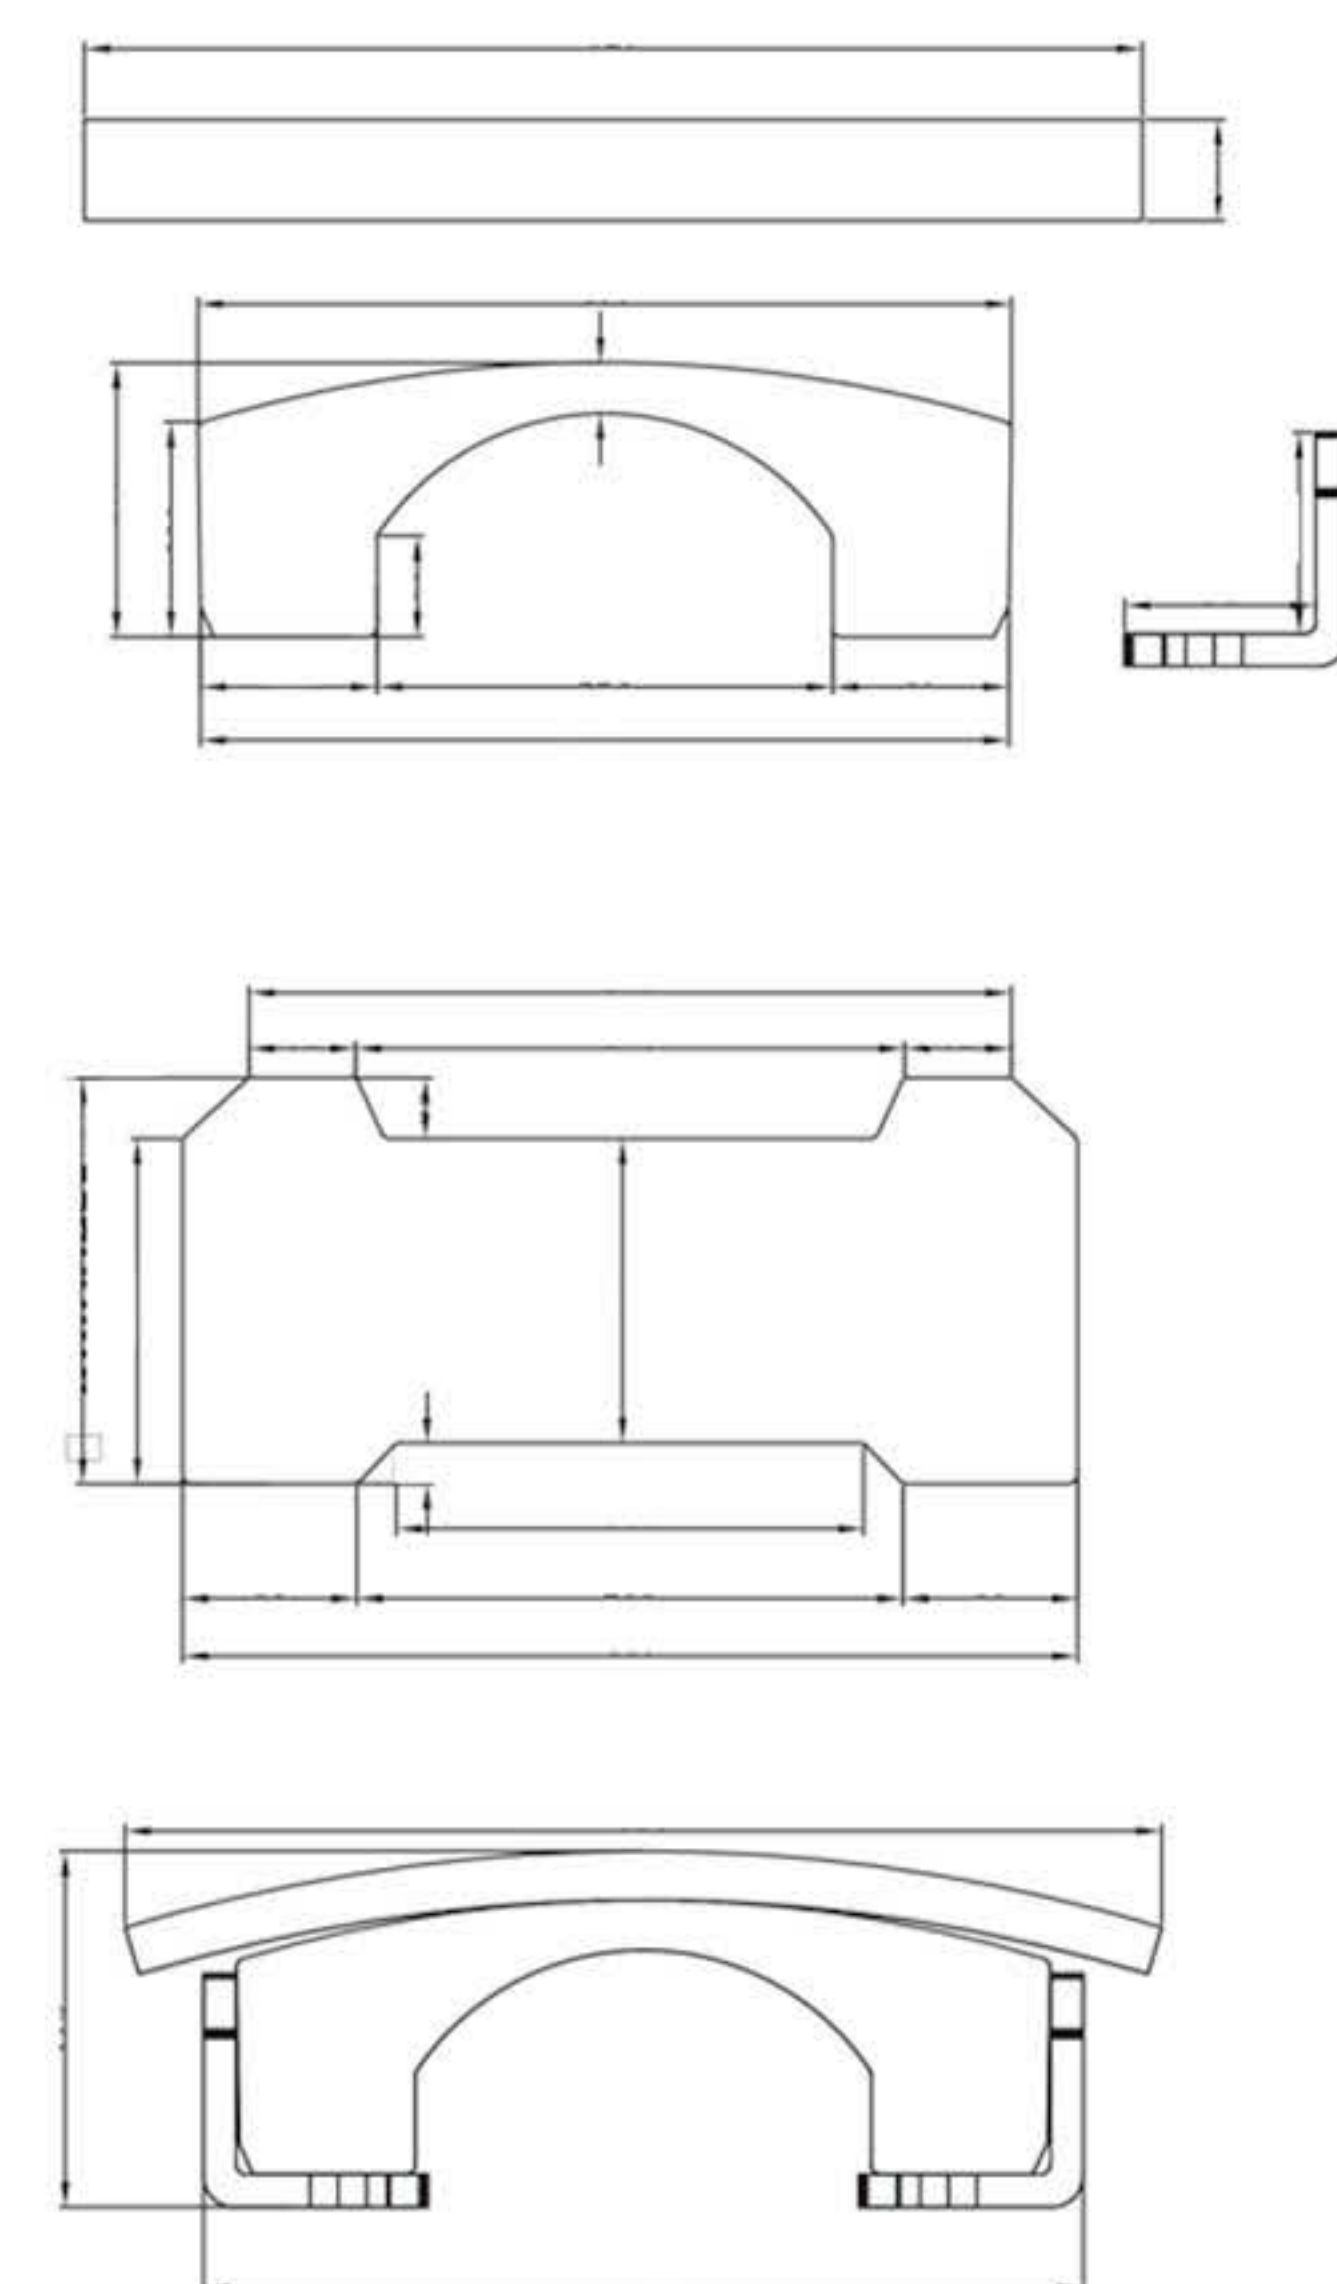

适配于轮式挖掘机，履带式挖掘机，达2000多种规格可满足0.8吨到200吨数的挖掘机配置要求，使用优质钢材铸造而成，挖掘切入能力强，使用国内最先进的激光切割剪料保证切割精度，使用J507焊条，表面加工为巨型大功率抛光进口设备做工精湛，耐磨性能卓越，前端采用高耐磨材料做成圆形防护板分离装置，可以方便的分离土石，减少切入阻力。可方便拆装更换，同时也有效的保护了松土器主体，延长了主体的寿命。

It is suitable for various wheeled excavators, track excavators, More than 2000 sizes and specifications and can meet the configuration requirements of excavators ranging from 0.8 tons to 200 tons.

Made of high-quality steel, it has strong digging and cutting ability. The cutting precision is guaranteed by using the most advanced laser cutting materials in China. The J507 welding rod is used, and the surface processing is done with giant high-power polishing imported equipment. The workmanship is exquisite, the wear resistance is outstanding, and the front uses high wear-resistant materials to make a circular protective plate separation device, which can easily separate soil and rock, reducing cutting resistance. It can be easily disassembled and replaced, and it also effectively protects the main body of the loosening tool, extending the life of the main body.

护链架 CHAIN GUARD FRAME

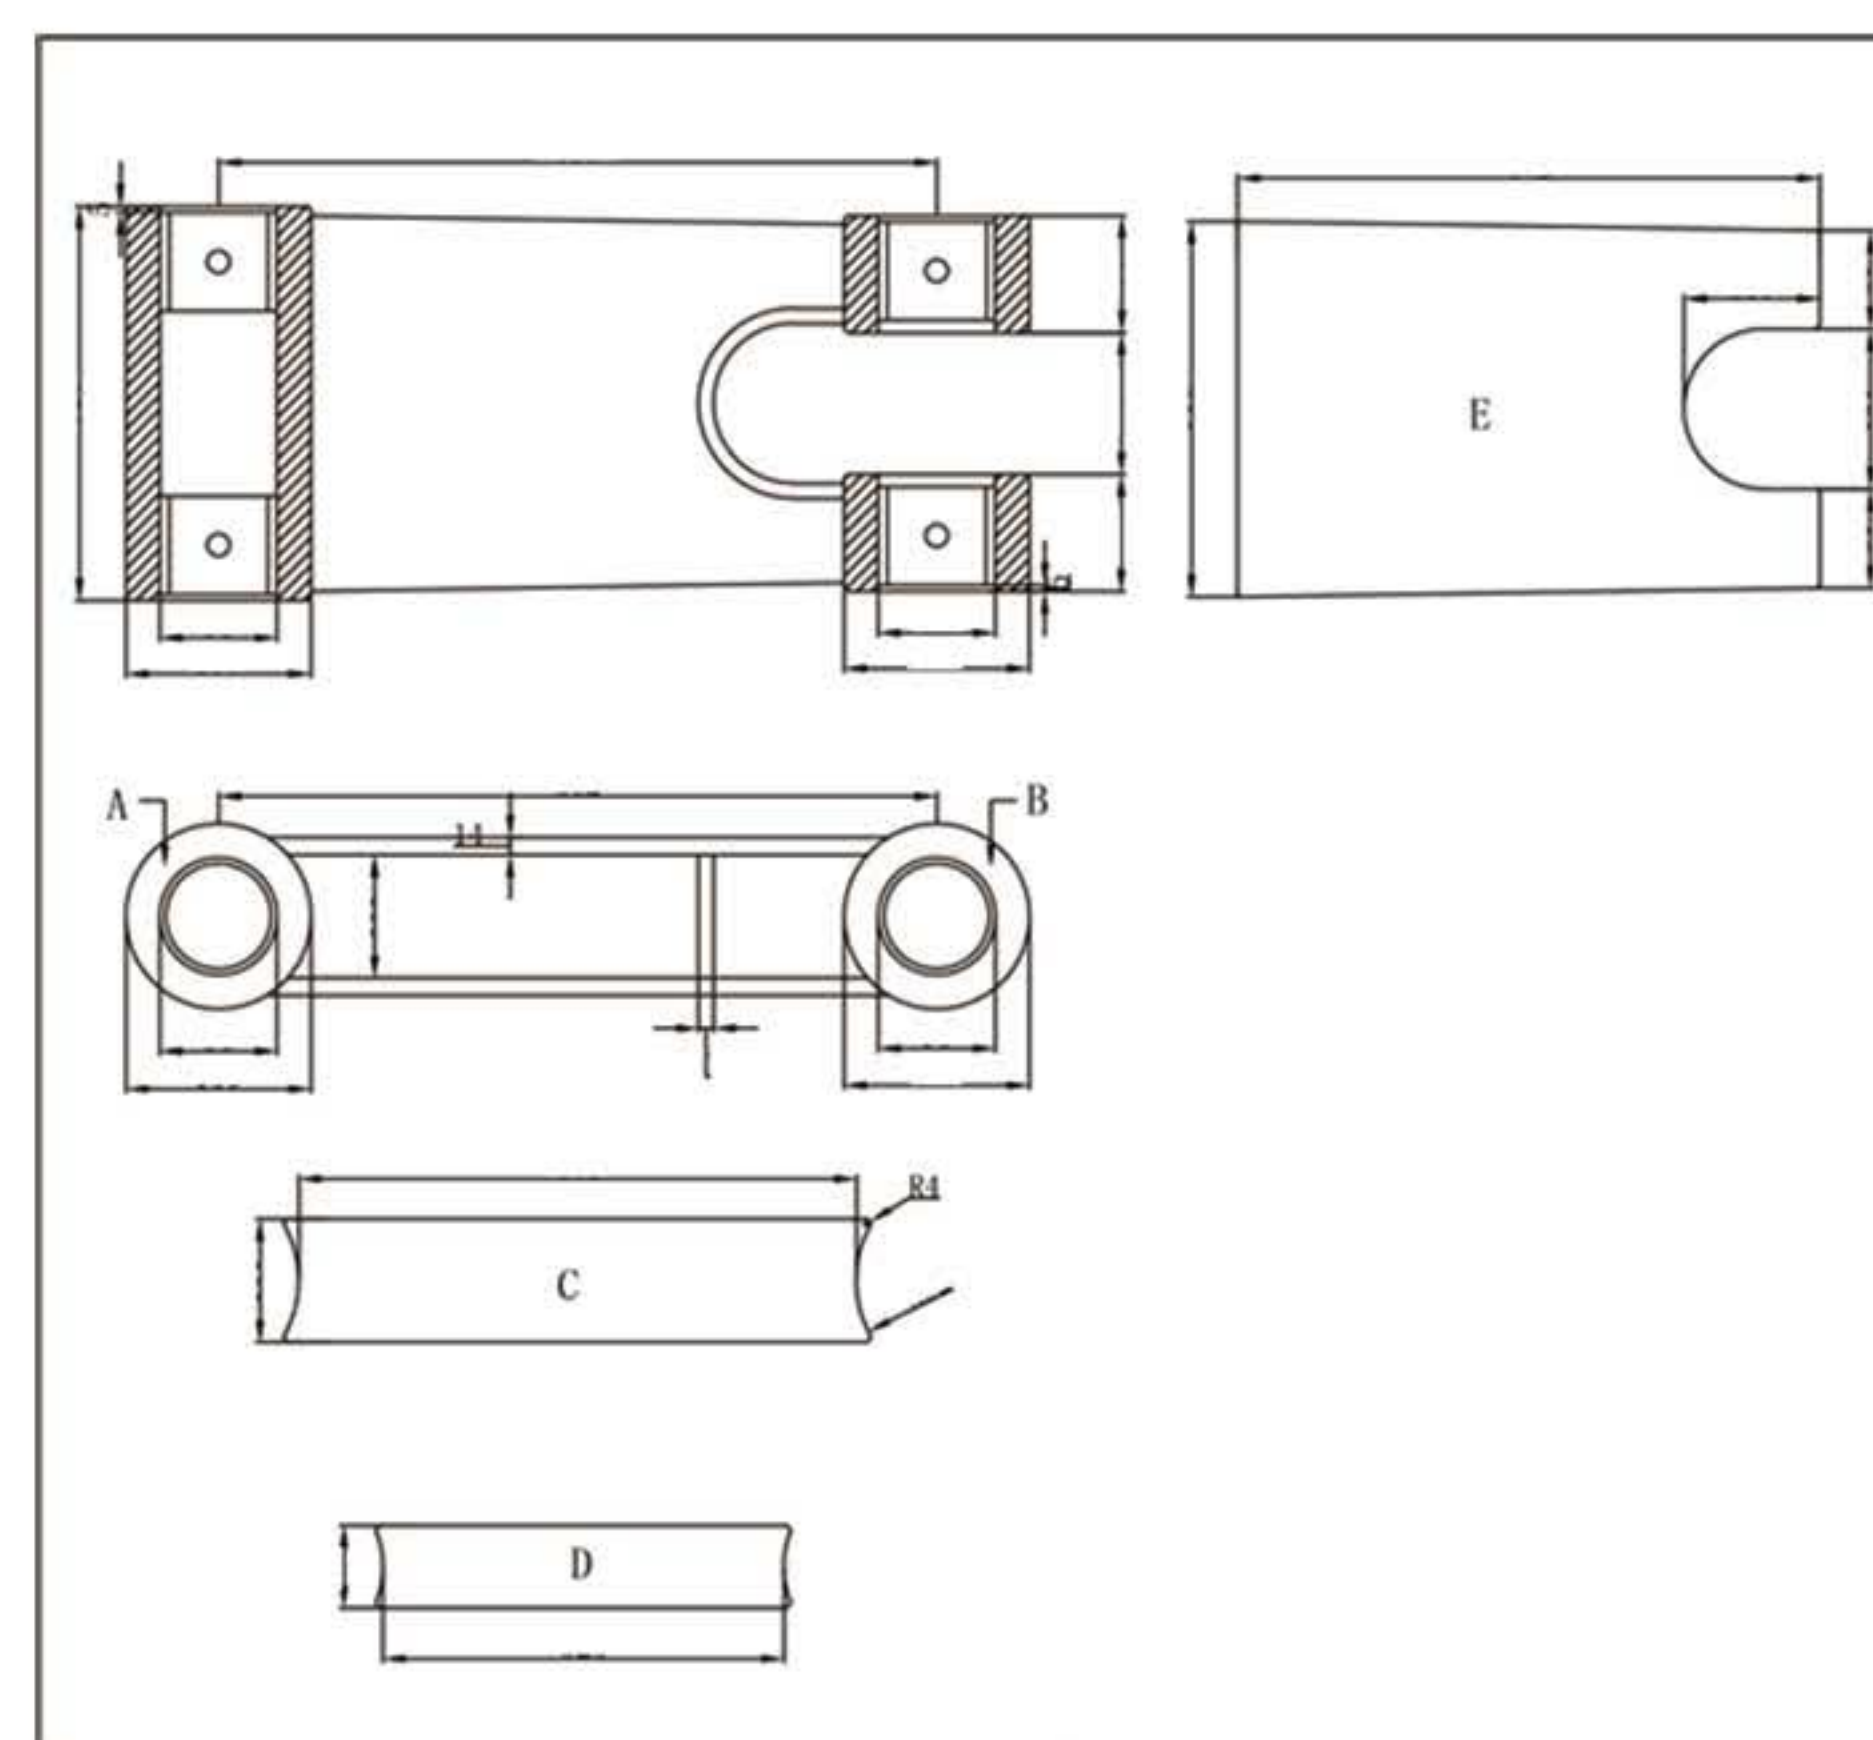

适配于各种轮式挖掘机，履带式挖掘机，推土机，使用优质钢材制作的护链架，达2000多种规格选择，可满足0.8吨到200吨的挖掘机配置要求，使用优质钢材制作的拱形架板、底角板，进一步提升耐磨性和承载能力，延长使用寿命，先进的激光切割剪料保证切割精度，表面加工为巨型大功率抛光进口设备，增强防锈，耐磨性能。

Suitable for various wheel excavators, track excavators and bulldozers, chain braces made of high-quality steel, with more than 2000 specifications, can meet the configuration requirements of excavator ranging from 0.8 tons to 200 tons ,The use of high-quality steel arch frame plate, bottom plate, to further improve the wear resistance and load carrying capacity, extend the service life, advanced laser cutting material to ensure the cutting accuracy, surface processing for giant high-power polishing imported equipment, enhance rust, wear resistance,

工字架 H-LINK

适配于各种轮式挖掘机，履带式挖掘机，推土机，达2000多种规格，可满足0.8吨到200吨的挖掘机配置要求，用于挖掘机前端连接油缸和小臂的部位，先进的激光切割原料保证尺寸精准匹配挖斗可以伸缩自如，使用优质钢材制作的工字架，承压能力大，抗腐蚀性强，不易生锈焊接整齐连续，表面油漆涂层、镀锌处理。

Compatible with various wheeled excavators, track excavators, bulldozers, and over 2000 specifications, can meet the configuration requirements of excavator ranging from 0.8 tons to 200 tons ,it is used to connect the oil cylinder and the boom at the front end of the excavator. Advanced laser cutting raw materials ensure precise size matching of the bucket, which can be flexibly extended. made of high-quality steel, has a large pressure resistance, strong corrosion resistance, and is not prone to rust. The welding is neat and continuous, with a surface paint coating and galvanized treatment.

连杆 L-LINK

适配于各种轮式挖掘机，履带式挖掘机，推土机，达2000多种规格，可满足0.8吨到200吨的挖掘机配置要求，使用优质钢材，保证高强度韧性和耐用性，使用国内最先进激光切割技术，确保连杆的尺寸精度，提高连杆整体质量和使用寿命，表面加工为巨型大功率抛光进口设备，表面光滑平整，优质的涂装可以起到防锈、防腐的作用。

It is suitable for various wheeled excavators, track excavators, bulldozers, and more than 2000 specifications. can meet the configuration requirements of excavator ranging from 0.8 tons to 200 tons, It uses high-quality steel to ensure high strength, toughness, and durability. It uses the most advanced laser cutting technology in the country to ensure the size accuracy of the connecting rod, improve the overall quality and service life of the connecting rod, and the surface processing is giant high-power polished imported equipment, the surface is smooth and flat, and the high-quality coating can play the role of rust and corrosion prevention.
