Forging Together

The Forging Supplier Procurement Guide has a total circulation of approximately 3,000 copies and is updated annually. It will be distributed at domestic and international exhibitions and events hosted or co-organized by the China Forging Alliance for Import & Export, and delivered via direct mail to forging enterprises, industry professionals, and procurement personnel.

The Forging Supplier Procurement Guide allows easy search of forging enterprises by region, market, process, and material type. Additionally, it facilitates quick matching of equipment suppliers and service providers based on product categories. It serves as an effective platform for businesses to stay informed, enhance brand visibility, promote products, and forge strategic partnerships.
