

Vane Pumps with Manifold End Cover HV20M SERIES

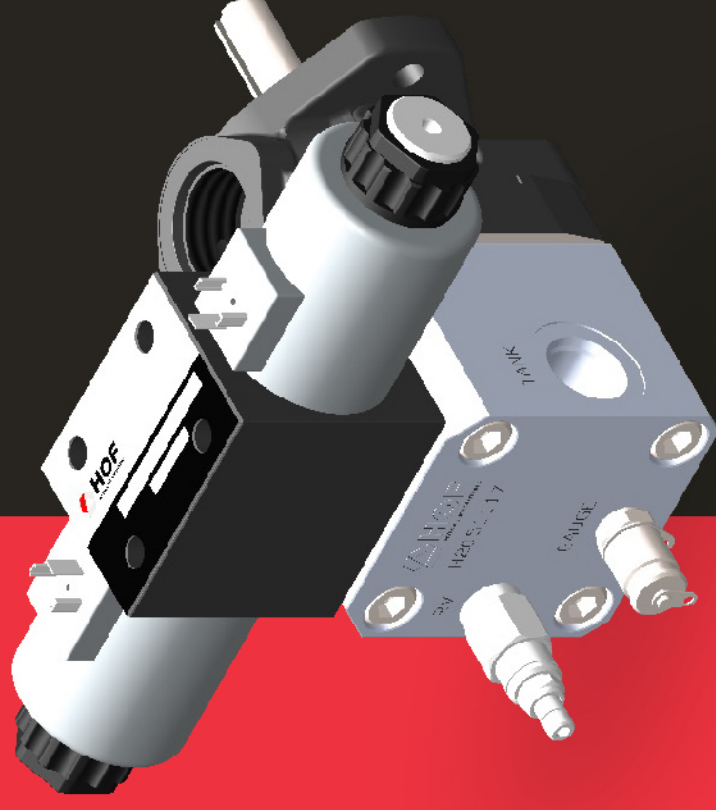

Less space. Less complexity. More value.

Features :

- Four cover orientations and two tank port options.
- Fewer leakage points
- Sturdy cast-iron construction
- Space-saving
- Common standard cartridge valves
- Modular pump design

Benefits :

- Quiet, reliable, consistent high performance and long-lasting
- Cost reduction
- Reduced installation labor costs
- No sub-plate mounting valve required
- No hose/pipe connections needed between pump and valve
- Simple to maintain or repair
- Versatile installation
