

The Entrepreneurial Journey and Transformation of Hebei Chunda Pipefittings Manufacturing Co.,Ltd

河北春达公司的创业历程与变革

In 2003**Origin**

Hebei Huayang pump pipe factory.

In 2010

In April, Hebei Chunda Pipefittings Manufacturing Co.,Ltd was established. And a ministry of foreign trade was established.

In 2012

The first time to participate in the bauma China.

In 2016

Attended the bauma in Munich.

In 2022

Established the first domestic subsidiary.

In 2024

Production was gradually becoming automated.

In 2009

We raised 1 million yuan to add new production lines and started production.

In 2011

We purchased 50 acres of land and started building the factory.

In 2014

The new factory was completed and put into operation.

In 2018

The new office building was successfully completed and put into use.

In 2023

Lean management was introduced to our company. Our management was upgraded and became more systematic.

The company is located in Pucheng Development Zone, Yanshan County, Cangzhou City, Hebei Province. It was founded in 2003, the company was registered as Hebei Chunda Pipe Fittings Manufacturing Co., Ltd. in 2010. The company covers an area of 50 acres. At present, our production facilities cover an area of 20,000 square meters, and the office building has an area of 1,800 square meters. We have a workforce of 80 employees.

The company has a Corporate Management Department, Purchasing Department, Planning Department, and Technical Quality Department, with a total of 11 employees. These functional departments have provided strong support for the entire process from order placement to shipment. (Of course, we also have a Finance Department, Production Department, Warehouse, and Lean Improvement Department.)

We start to develop foreign trading from 2010 and 14 years of course so far.

Since 2012, it has participated continuously Beijing, Shanghai, Germany Bauma exhibition.

【Go abroad and embrace more cooperation opportunities】

We currently have customers from 52 countries worldwide, spread across Asia, Europe, North America, South America, and Oceania.

In 2012, he participated in the Shanghai Bauma for the first time.

In 2020, he participated in the Shanghai Bauma.

In 2022, he remotely attended the Munich Bauma (Construction Machinery Exhibition).

Guided by our corporate vision and mission,
we embark on a new journey
with lean digitalization.

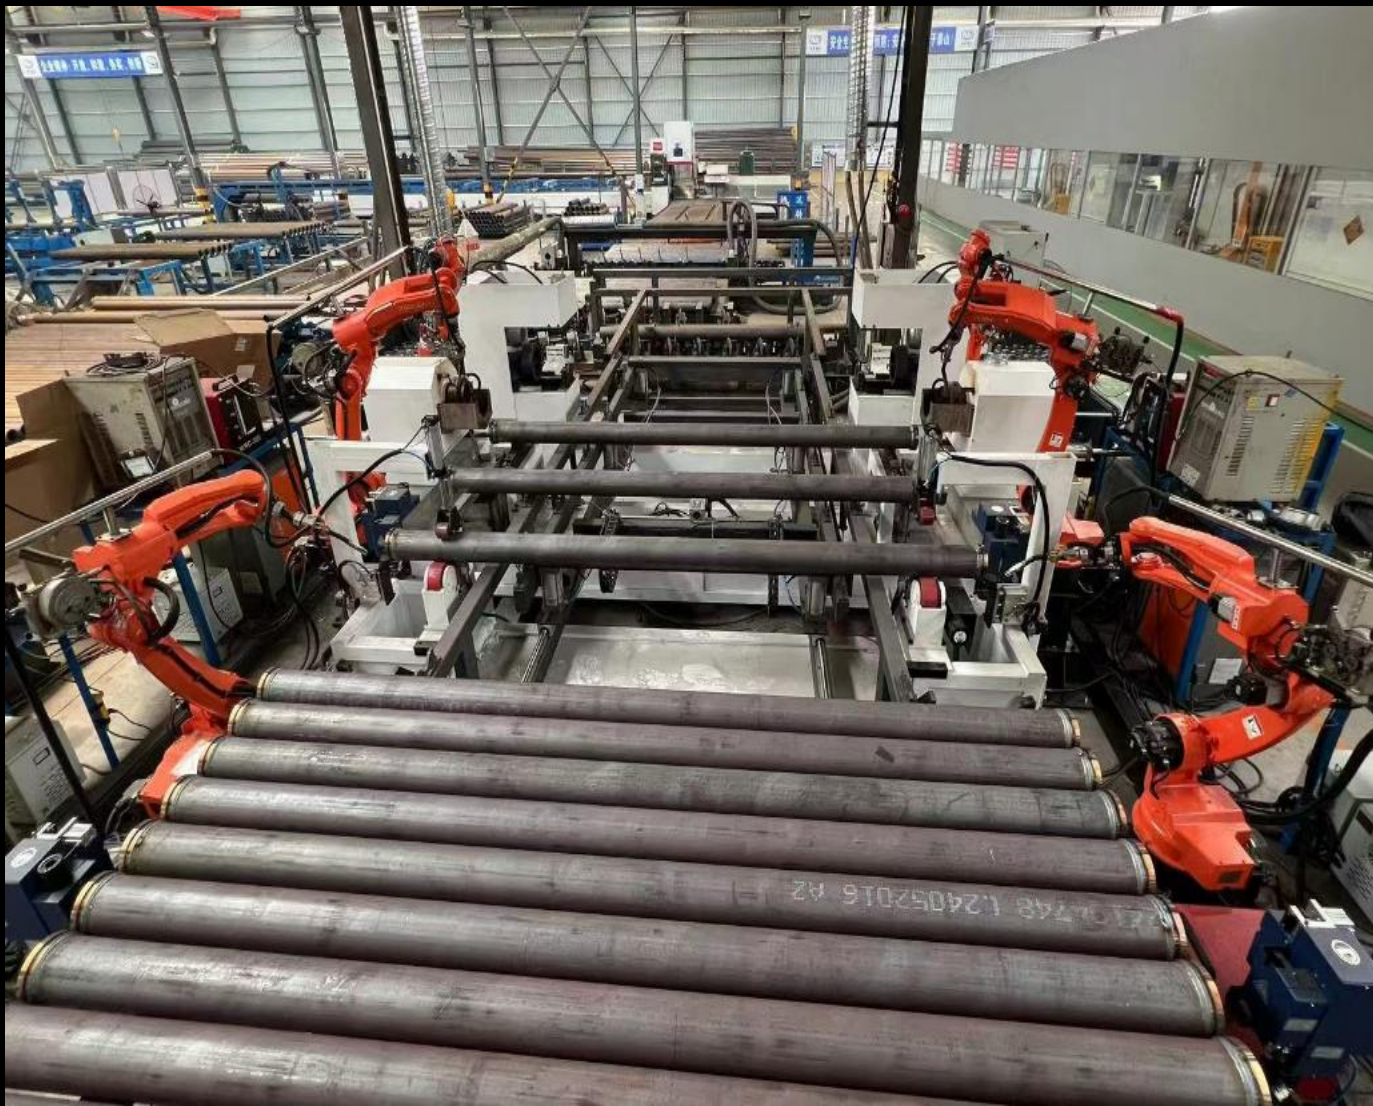

Hebei Chunda Production Workshop

From survival
to development

1. Rational workshop layout planning to eliminate transportation waste and ensure safety.
2. Maintaining a clean and tidy environment to build a first-class benchmark company.
3. Enhancing employee cohesion and attracting young, talented individuals.
4. Implementing digital management to significantly reduce operational costs.

Fully automated integrated production line, increasing efficiency by 2.5 times and saving 30% of floor space.

1. Fully automated integrated production line, increasing efficiency by 5 times.
2. Saving 30% of floor space.
3. Significant improvement in product quality, especially in surface quality, with the elimination of issues such as dents and pits.
4. Marked reduction in welding spatter, greatly reducing the amount of grinding work required.

【Transformation and Rebirth】

1. Automatic production lines, automatic spray painting area, drying room, help to reduce carrying cost, and enhance safety.

Our former weaknesses, once shared with our competitors,
have been transformed into our core competitive strengths through innovation and improvement.

5. Shortened delivery times, increased customer satisfaction, monthly doubling of new customers, doubled order value, and counter-cyclical growth.

1. Three-phase layout planning, purchasing high-rise shelving, customizing standard containers, and fixed-position management of storage locations to address discrepancies between records and physical inventory, as well as material chaos.

2. Improving product quality by eliminating surface dents, scratches, and other quality issues.

3. Visible management, making on-site waste transparent, and quickly eliminating waste.

4. Saving 50% of space and increasing storage capacity by three times.

5. Boosting employee morale, creating a standardized and impressive work environment that impresses customers, leading to a rapid and significant increase in both domestic and international orders month by month.
