MILESTONES

2011

Establishment of Shanghai Horizon Equipment

Shanghai Horizon Equipment & Engineering Co., Ltd. (Horizon Equipment) was established and signed the first customer contracts of shoring system and road equipment rental respectively, embarking on the journey of equipment rental.

2014

Strategic Merger into CDHORIZON

Horizon Equipment and Hongjin Equipment strategically merged into CDHORIZON with diversified product lines including aerial work platforms, neo-shoring system and neo-scaffolding system, entering into a new phase of integrated equipment operation services.

2015

Recognition of "National High-tech Enterprise"

Shanghai Horizon Equipment & Engineering Co., Ltd. was recognized as a "National High-tech Enterprise".

2017

Official Launch of EIM System

The self-developed Equipment Intelligent Management (EIM) system was officially launched and put into use, marking a pioneering achievement for equipment rental industry in China.

2019

Establishment of Tianjin Horizon C&D Investment Co., Ltd.

It is CDHORIZON's domestic investment holding platform and the direct domestic entity under its IPO structure.

2021

Acquisition of A Pre-IPO Strategic Investment

CDHORIZON acquired a pre-IPO strategic investment of USD 205 million, winning recognition from the capital markets and a significant milestone of capitalization.

2022

ACCESS 50 Ranked 3rd in the world
IRN100 Ranked 14th in the world

CDHORIZON ranked 14th on IRN100 (the 1st in China) and ranked among the top 3 on ACCESS 50 (the 1st in Asia). It was honored with the "Green Equipment Rental Leader" of the Soaring Award. As of 2022, CDHORIZON has acquired a total of 389 patents and software copyrights, creating competitive advantage through independent R&D and innovation.

2023

Listed on the Hong Kong Stock Exchange

CDHORIZON was listed on the Stock Exchange of Hong Kong, officially landing on the international capital market. As of Dec. 2023, it has strategically expanded into emerging overseas markets, by establishing subsidiaries in Malaysia, Indonesia, Vietnam, Thailand, The United Arab Emirates, and Saudi Arabia respectively.

2025

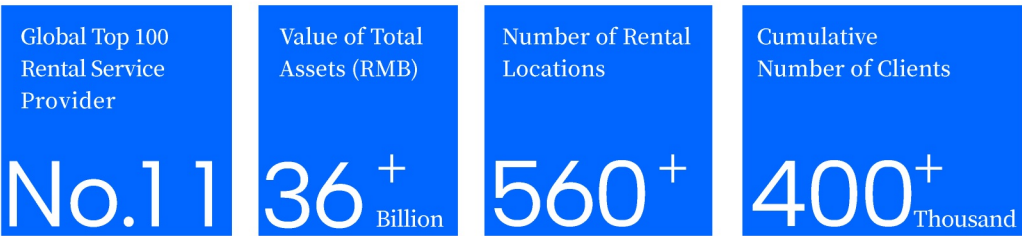

Consistently Ranking Among the Top Tier in the Industry

CDHORIZON ranked 11th globally in the IRN 100 and 1st worldwide in the ACCESS 50, won the title of "Leader in Operating Leasing Enterprise" at the Soaring Award, and with over 290 patents and software copyrights, empowered business with AI and reached new heights in digital intelligence.

As a subsidiary of Far East Horizon (03360.HK), Horizon Construction Development Limited ("CDHORIZON") is a leading equipment rental company in China, committed to providing one-stop comprehensive solutions of "product + service" for our clients in the construction and industrial sectors. Established in 2011, ranking the 11th in the IRN 100, CDHORIZON has built up an integrated network of over 560 rental locations cumulatively serving over 400,000 clients in China and overseas.

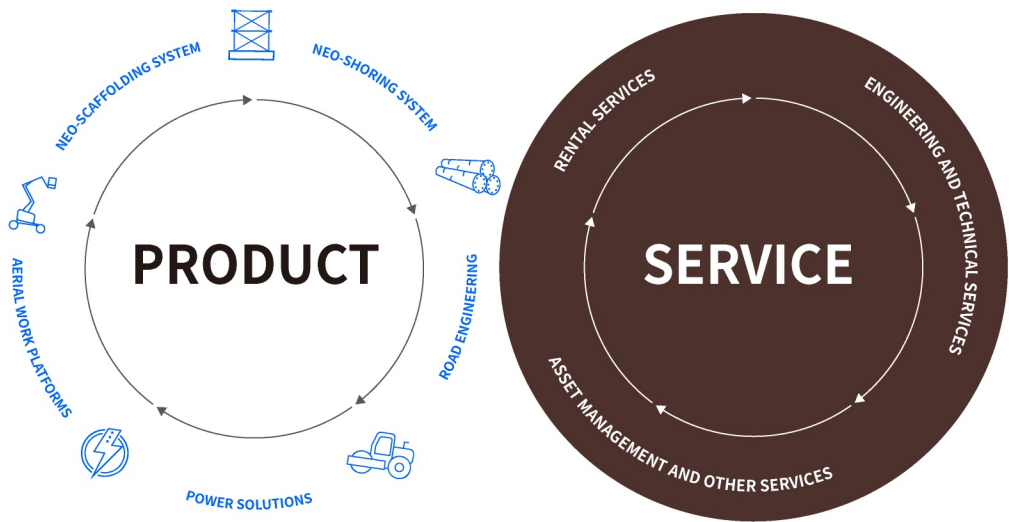

In 2023, CDHORIZON was listed on the main board of the Stock Exchange of Hong Kong (HKEX), with the stock code 09930.HK. The company makes continuous investment in R&D and innovation. Moreover, it has reached strategic cooperation with a number of leading domestic and international equipment manufacturers, well-known universities and scientific research institutes, possessing hundreds of patents of invention and intellectual property rights, and two of its subsidiaries have been awarded "National High-tech Enterprises".

ABOUT US

COMPLETE TYPES OF EQUIPMENT TO PROVIDE ONE-STOP SERVICES

Providing Multi-Category One-Stop Comprehensive Operational Services for Our Clients in the Construction and Industrial Sectors.

Global Presence to Explore Overseas Markets

We establish locations nationwide and actively explore and conduct localized operations in overseas markets of Southeast Asia and the Middle East.

GENERAL EQUIPMENT

Building on the operation of aerial work platforms, CDHORIZON has diversified its business to include earthmoving equipment, lifting and transport machinery, power systems, and HVAC equipment, tailored to meet various demands of different industrial applications. The company has formed extensive and in-depth cooperation with leading domestic and international manufacturers, e.g. XCMG, Zoomlion, LGMG, Dingli, JLG, Genie, etc., in equipment development, repair & maintenance, and sales channel distribution. With special focus on safety and efficiency, CDHORIZON provides high quality and professional equipment rental services to create the best customer experience.

Wide Coverage and Responsive Service

Rapid Response to Meet Urgent Needs >>

Instant Response

Provide timely guidance and troubleshooting services

Efficient Maintenance Services

Respond to customer needs at any time

TECHNOLOGICAL EMPOWERMENT FOR EASY OPERATIONS

We have widely embraced digital services such as mobile ordering, electronic settlement, and remote monitoring to facilitate easy operations.

MOBILE ORDERING ELECTRONIC SETTLEMENT REMOTE MONITORING

RENTAL FLEET OF FULL EQUIPMENT TYPES, SPECIFICATIONS AND IN GOOD SHAPE

Complete types of equipment

We offer a variety of equipment covering aerial work platforms, earthmoving equipment, lifting and transport machinery, power systems, and HVAC equipment, tailored to meet different needs of clients.

Construction	Shipbuilding & Oceanography Engineering	Petrochemicals	Mining Construction
	Power Generation	Municipal Sanitation	

Superior quality

We have established strategic partnerships with leading domestic and international manufacturers, ensuring our equipment performance and quality stays ahead of the industry.

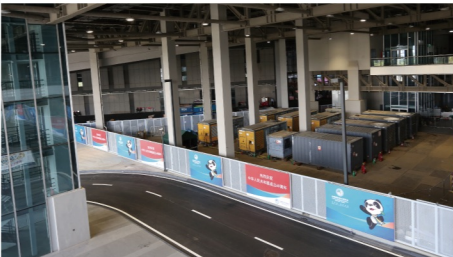

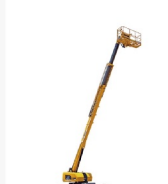

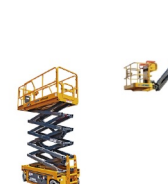

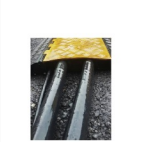

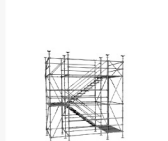

Scientific management

We employ scientific approaches of equipment maintenance and management, to keep the equipment in good condition. In addition, we keep upgrading the management and optimize the age structure of the fleet, ensuring the provision of efficient services to customers.

NEO-SHORING SYSTEM

CDHORIZON neo-shoring system specializes in foundation pits and bridges construction, where we provide customers with one-stop solutions that integrate engineering planning, material rental and construction management of the shoring for either underwater or land foundations. Our main products include shoring systems such as Larssen piles, SMW, HLC and PLC piles, various strut systems of composite steel tube and H-beam, as well as bridge systems including steel cofferdams and steel trestles, etc. CDHORIZON's shoring system caters to industrial building, civil building, and various municipal engineering projects. Committed to ensuring safety, promoting sustainable construction, shortening project period, and reducing construction cost, CDHORIZON constantly upgrade the technological solutions. We have participated in 16,000+ projects serving 7,000+ customers.

We Provide One-Stop Solutions that Integrate Engineering Planning, Material Rental and Construction Management with Leading Technologies.

Product Features

Cost-effective Solutions

Adoption of all-steel structure **saves time and labor**, and therefore more cost-effective than concrete structure.

Being standardized, easy to assemble and dismantle, it is fast and **efficient in construction**.

Green Construction Methods

With its lower energy consumption in production process, our system is not only **recyclable** but also **pollution-free**.

Thereby our solutions are conserving energy, reducing emissions and contributing to sustainable development.

TECHNOLOGICAL LEADERSHIP INNOVATION, FLEXIBILITY AND SOLID TECHNOLOGY WHICH IS AHEAD OF THE INDUSTRY

Independent Innovation

By overcoming technical challenges, we have acquired a series of invention patents such as truss-type steel support, steel support axial force multi-point synchronous system, and steel support axial force compensation system, etc.

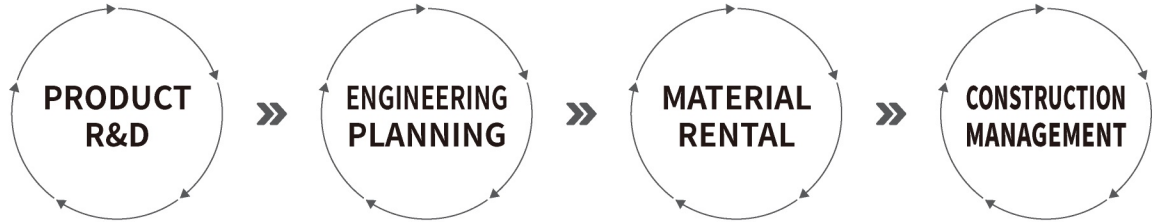

Full-Scenario Adaptation

We have developed a diverse range of products suitable for all types of foundation pits and bridge projects, capable of addressing complex scenarios and challenging projects, empowering us to provide customers with comprehensive and professional solutions.

ONE-STOP SERVICE: EFFICIENT DELIVERY BY FULL PROCESS PARTICIPATION

From product R&D, engineering planning, material rental, to construction management, we provide a one-stop service. We tailor shoring solutions to meet the specific requirements from diverse and complex applications, ensuring the best balance in economy, efficiency, and safety. With a complete suite of construction equipment and a professional technician and field service team, the project delivery of ours is, as always punctual and in high quality.

NEO-SCAFFOLDING SYSTEM

CDHORIZON specializes in $\Phi 48$ and $\Phi 60$ ringlock scaffold, galvanized steel pipes, and clamp scaffold with couplers. Our business caters to industrial construction, civil construction, and various municipal engineering projects, meeting the customized construction needs of a wide range of clientele. Over the years, we have provided comprehensive and integrated services of formwork and scaffolding system, including engineering planning, material rental, and construction management, for a variety of large-scale projects.

We Deliver Customer-Tailored Professional Solutions.

R&D AND MANUFACTURING:

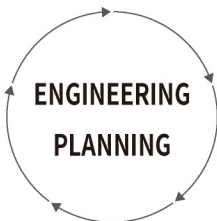

INNOVATIVE R&D

Committing to independent innovation, we invest in developing neo-scaffolding systems, obtaining over 50 patents and several groundbreaking technologies.

Advanced Manufacturing

Possessing state-of-the-art facilities and intelligent production, we constantly upgrade our processes and standards of quality control ensuring our products of the highest quality. Our product range covers over 12 categories and more than 3,400 specifications to meet customized needs of our clients.

ENGINEERING PLANNING:

Professional Team

We have more than 70+ seasoned engineers and technical consultants, working and solving problems on all kinds of complex and challenging construction projects.

Cost-Effective Solutions

Our scaffolding solutions are highly customized for different industries and application scenarios, constantly optimizing in economy, efficiency, and safety.

CONSTRUCTION MANAGEMENT:

Abundant Management Professionals

We gather top-tier talents of construction management, forming a high-level management team with extensive industry know-how and project experience.

Efficient Resource Utilization

Resource allocation is optimized based on project requirements, strengthening material management for inbound and outbound logistics and establishing standardized labor management to improve efficiency.

Assured Engineering Quality and Safety

Through 24/7 construction management, we achieve project milestones, hold the safety bottom-line, and rigorously control quality of work, thereby creating top-quality projects.

ROAD ENGINEERING

As a leading professional contractor in road engineering, CDHORIZON specializes in pavement construction, catering to a diverse range of projects such as highways, municipal roads, airport runways, and industrial park roadways. We provide our clients with professional engineering services that integrate construction planning, material rental and construction management.

With a Grade-II qualification for professional contracting in highway pavement engineering, CDHORIZON can meet all levels of construction needs of customers, such as laying graded cement stabilized macadam and constructing asphalt pavements. Over the years, CDHORIZON has consistently delivered top-notch projects thanks to its construction expertise, rigorous construction management practices, and reliable fulfillment of financial commitments.

Leading Professional Contractor in Road Engineering

Professional Team

We have a well-rounded engineering team comprising professionals in project planning, engineering management and construction. It has undertaken over 4,000 domestic and international projects and therefore can meet the variety of engineering requirements.

Construction Management

We build up a closed-loop management system including the strict quality control of construction raw material, efficient coordination of equipment and personnel, overall standardization of construction management, to ensure the management system is ahead of the industry, and supporting high-quality delivery.

Capital Strength

Our strong capital strength allows us to undertake high-grade, large-scale road engineering projects, ensure the successful completion of the projects and enhance our capabilities to fulfill contracts effectively.

Service Response

We offer 24/7 services to address urgent and ad-hoc needs of our customers, and establish a sound emergency response mechanism to ensure fast reaction to requirements.
