

MAKE THE **DIFFERENCE**

At FAE, every machine, accessory and optional component is designed with utmost precision, the highest quality materials and the most advanced technology.

Each detail is designed to make the execution of the tasks as quick and efficient as possible and for the specific applications, conditions and environment where it will be carried out.

Every FAE machine and accessory was created to “make a difference” at work and, given the importance of many of the applications we work on, for the planet. This is why each member of our team, each partner and customer works daily.

ABOUT **FAE**

With a range of over 90 products and 400 models, FAE can meet the most diverse demands for forestry, agricultural, road construction, building and demining applications. The FAE product range includes heads for tractors, excavators, skid steer loaders, special vehicles and tracked vehicles, with cabins or remote controlled. FAE was founded in 1989, and the company's main office is still located in Fondo, Italy. Production, sales, after-sales service and parts services are handled by our 3 production sites, the main office, 7 commercial branches and a network of authorized dealers all over the world.

GLOBAL QUALITY

Our precision design and production processes use advanced technologies to ensure long-term performance and reliability.

CONSTANT INNOVATION

We design unique and cutting-edge products based on customers' specific needs for solutions that pave the way to the future.

COMPLETE PRODUCT LINE

We offer an extensive product range and a high degree of customization to make each process more efficient, more productive, and easier.

TOTAL SUPPORT

We make our vast range of machines, dedicated accessories and components, as well as our technical assistance available worldwide.

GLOBAL PRESENCE

FAE is present on all five continents, with 7 commercial branches and a network of authorized distributors and dealers. Constant feedback from the different sectors and customer's needs enriches FAE's product line with increasingly reliable and higher performing products. Wherever you are, FAE is there to help with your specific needs.

LAND CLEARING

Woods, forests, farmland, rivers, canals, natural areas, urban green spaces and more - FAE Land Clearing products are designed to accelerate, facilitate and increase the productivity of a wide range of forestry and agricultural work.

- ▣ Forestry maintenance
- ▣ Stump removal
- ▣ Fire mitigation and prevention
- ▣ Power Lines, Oil & Gas R.O.W. maintenance
- ▣ Roadside vegetation maintenance
- ▣ Canals, rivers, ponds, overgrowth cleanup
- ▣ Environmental & wildlife habitat protection
- ▣ Food plots management
- ▣ Orchard & vineyards maintenance and restoration

YOUR IMAGINATION
TO **ACCOMPLISH YOUR
BEST PROJECTS.**

LAND CLEARING HYDRAULIC DRIVEN HEADS

FAE offers a wide range of hydraulic driven heads for skid steer loaders, excavators and special hydraulic transmission vehicles. The product range includes mulchers, stump cutters, tillers and multitask heads that can be used for a variety of tasks such as mulching, shredding and crushing.

HYDRAULIC DRIVEN HEADS

FORESTRY MULCHERS FOR SKID STEERS

For mulching trees, branches and vegetation, exposed stumps, underbrush, bushes and agricultural debris.

45-135 hp

Ø 20 cm max

from 125 to 200 cm

HYDRAULIC DRIVEN HEADS

STUMP CUTTERS FOR SKID STEERS

For milling buried stumps of all sizes.

75 -120 hp

50 cm max

Ø 40 cm max

HYDRAULIC DRIVEN HEADS

FORESTRY MULCHERS FOR EXCAVATORS

For mulching trees, branches and vegetation, exposed stumps, underbrush, bushes and agricultural debris.

25-300 L/min

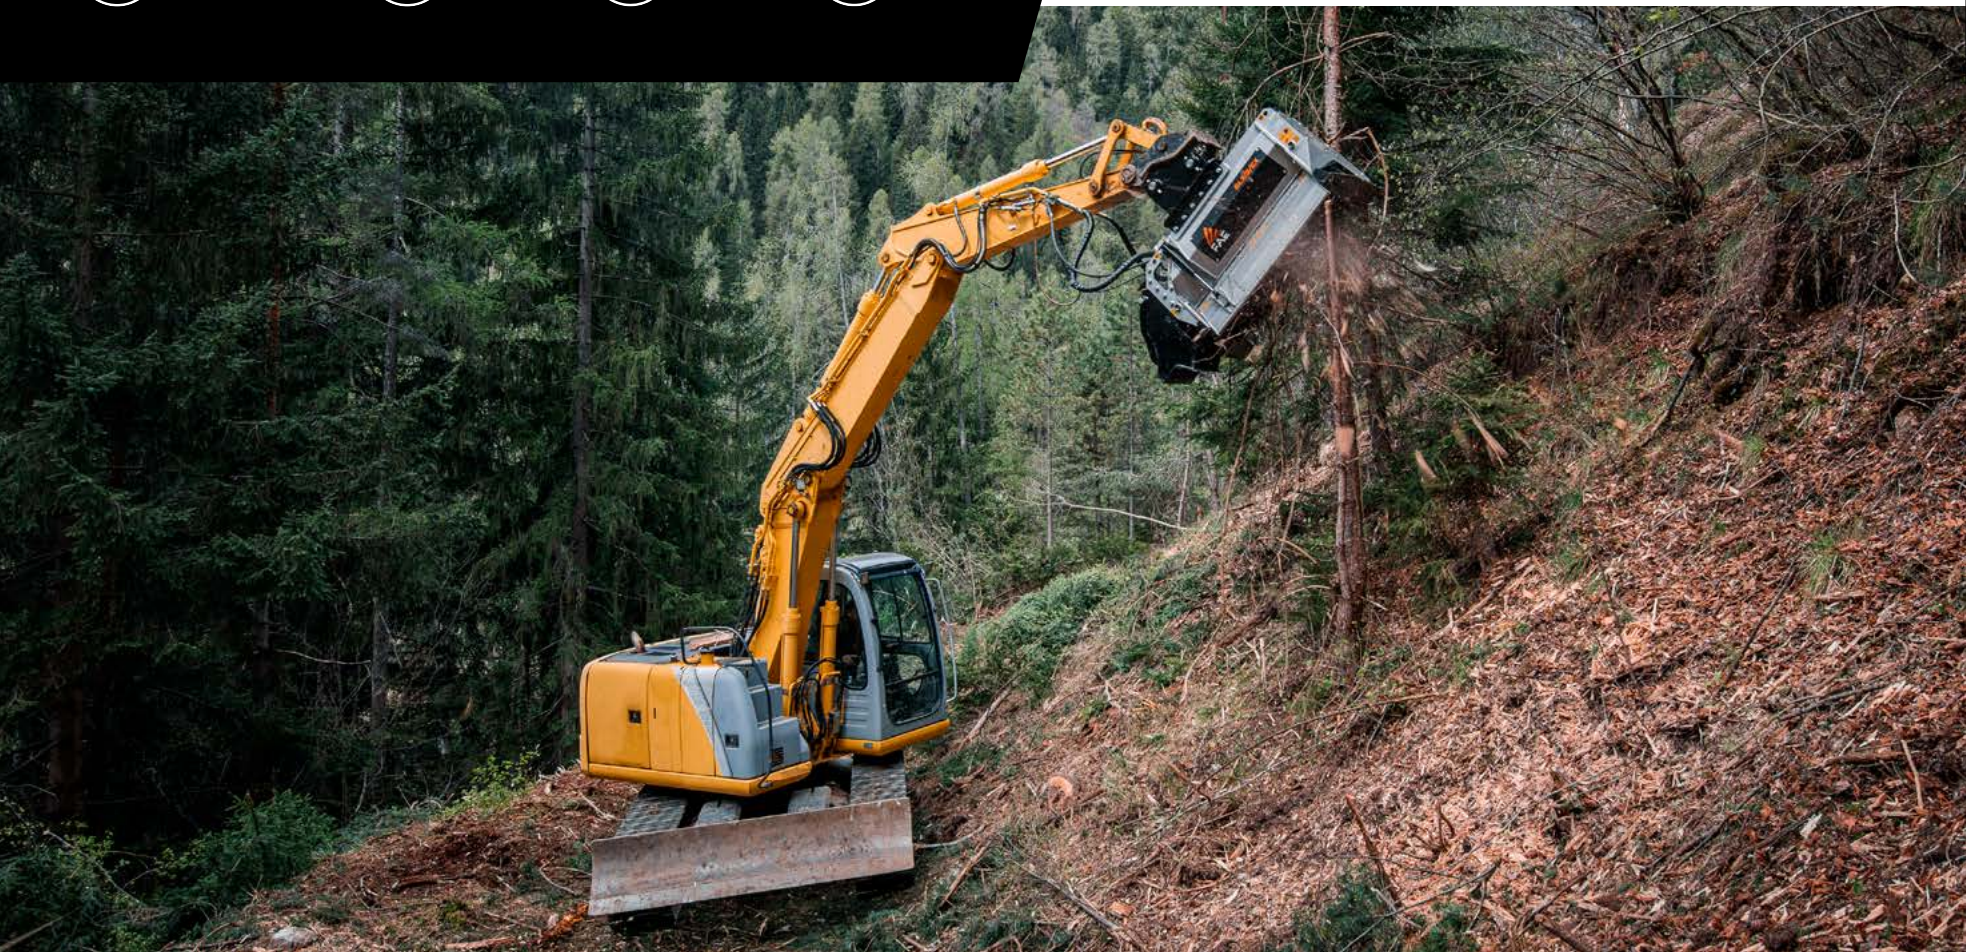

2-36 t

Ø 40
cm max

from 50
to 175 cm

HYDRAULIC DRIVEN HEADS

STUMP CUTTERS FOR EXCAVATORS

For milling buried stumps of all sizes.

50-185 L/min

4-24 t

HYDRAULIC DRIVEN HEADS

FORESTRY MULCHERS FOR SPECIAL VEHICLES

Customized forestry mulchers that work with special hydraulic vehicles.

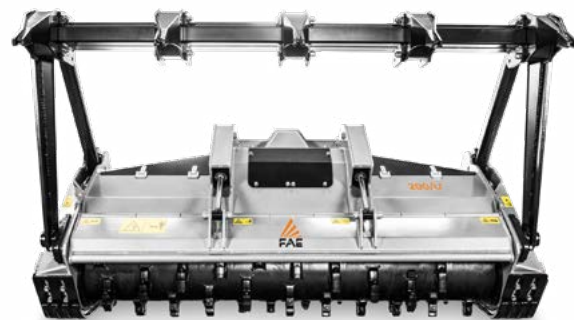

150-600 hp

Ø 50 cm max

from 140 to 250 cm

HYDRAULIC DRIVEN HEADS

FORESTRY TILLERS FOR SPECIAL VEHICLES

Customized forestry tillers that work with special hydraulic vehicles.

250-400 hp

Ø 50 cm max

40 cm max

from 225 to 250 cm

HYDRAULIC DRIVEN HEADS

STUMP CUTTERS FOR SPECIAL VEHICLES

Customized stump cutters that work with special hydraulic vehicles.

250-300 hp

Ø 50 cm max

100 cm max

HYDRAULIC DRIVEN HEADS

MULTITASKS FOR SPECIAL VEHICLES

Customized multitask heads that work with special hydraulic vehicles.

300-450 hp

LAND CLEARING

PTO DRIVEN HEADS

FAE's PTO driven heads are designed for mulching, shredding and crushing. FAE offers solutions for low, medium, high and extremely high horsepower tractors. The line includes forestry tillers, forestry mulchers, stump cutters, stone crushers and multitask heads that can be used for a variety of tasks.

PTO DRIVEN HEADS

FORESTRY MULCHERS

For mulching trees, branches and vegetation, exposed stumps, underbrush, bushes and agricultural debris.

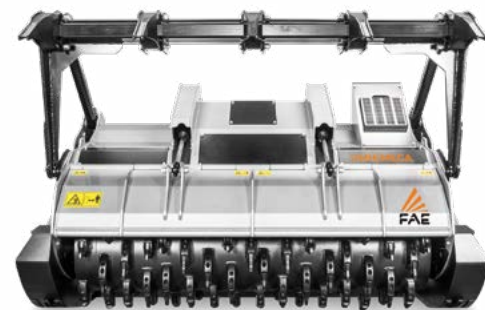

50-500 hp

Ø 50 cm max

from 125 to 250 cm

PTO DRIVEN HEADS

FORESTRY TILLERS

For deep soil shredding of wood debris, roots and buried stumps.

100-500 hp

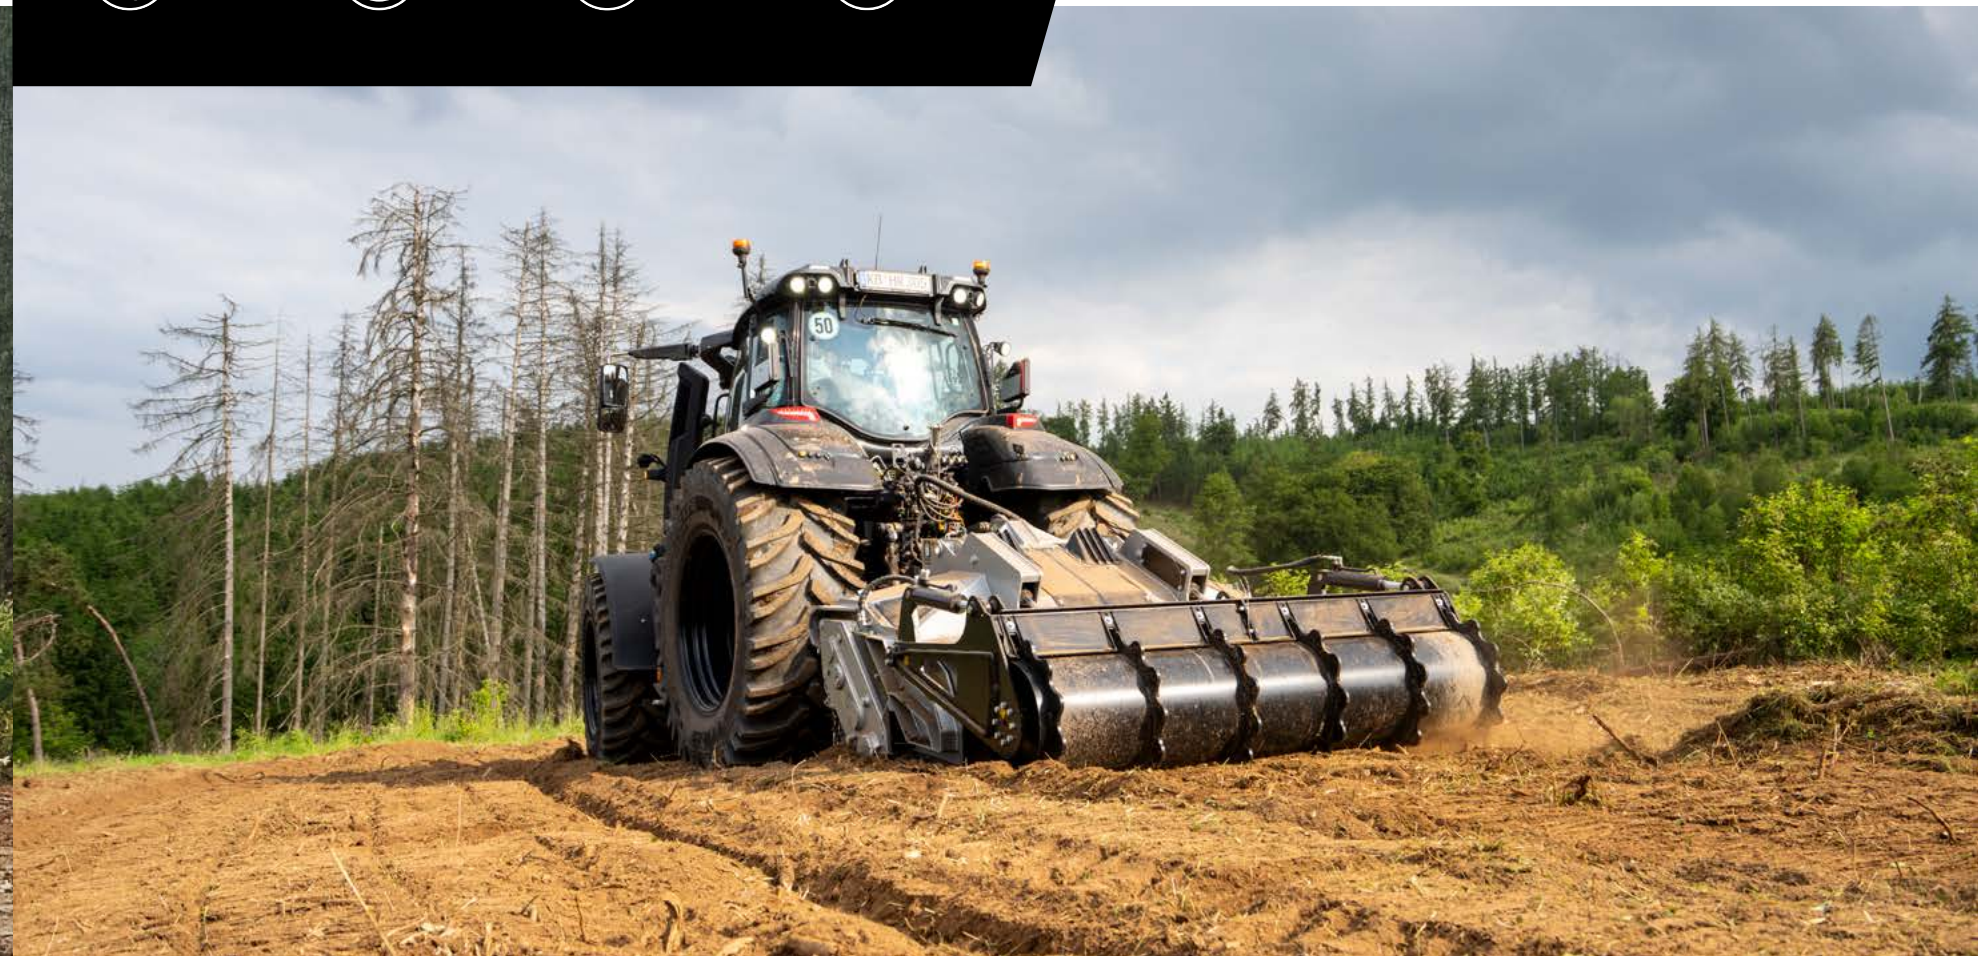

Ø 70 cm max

50 cm max

from 150 to 250 cm

PTO DRIVEN HEADS

STUMP CUTTERS

For underground milling of buried stumps of all sizes.

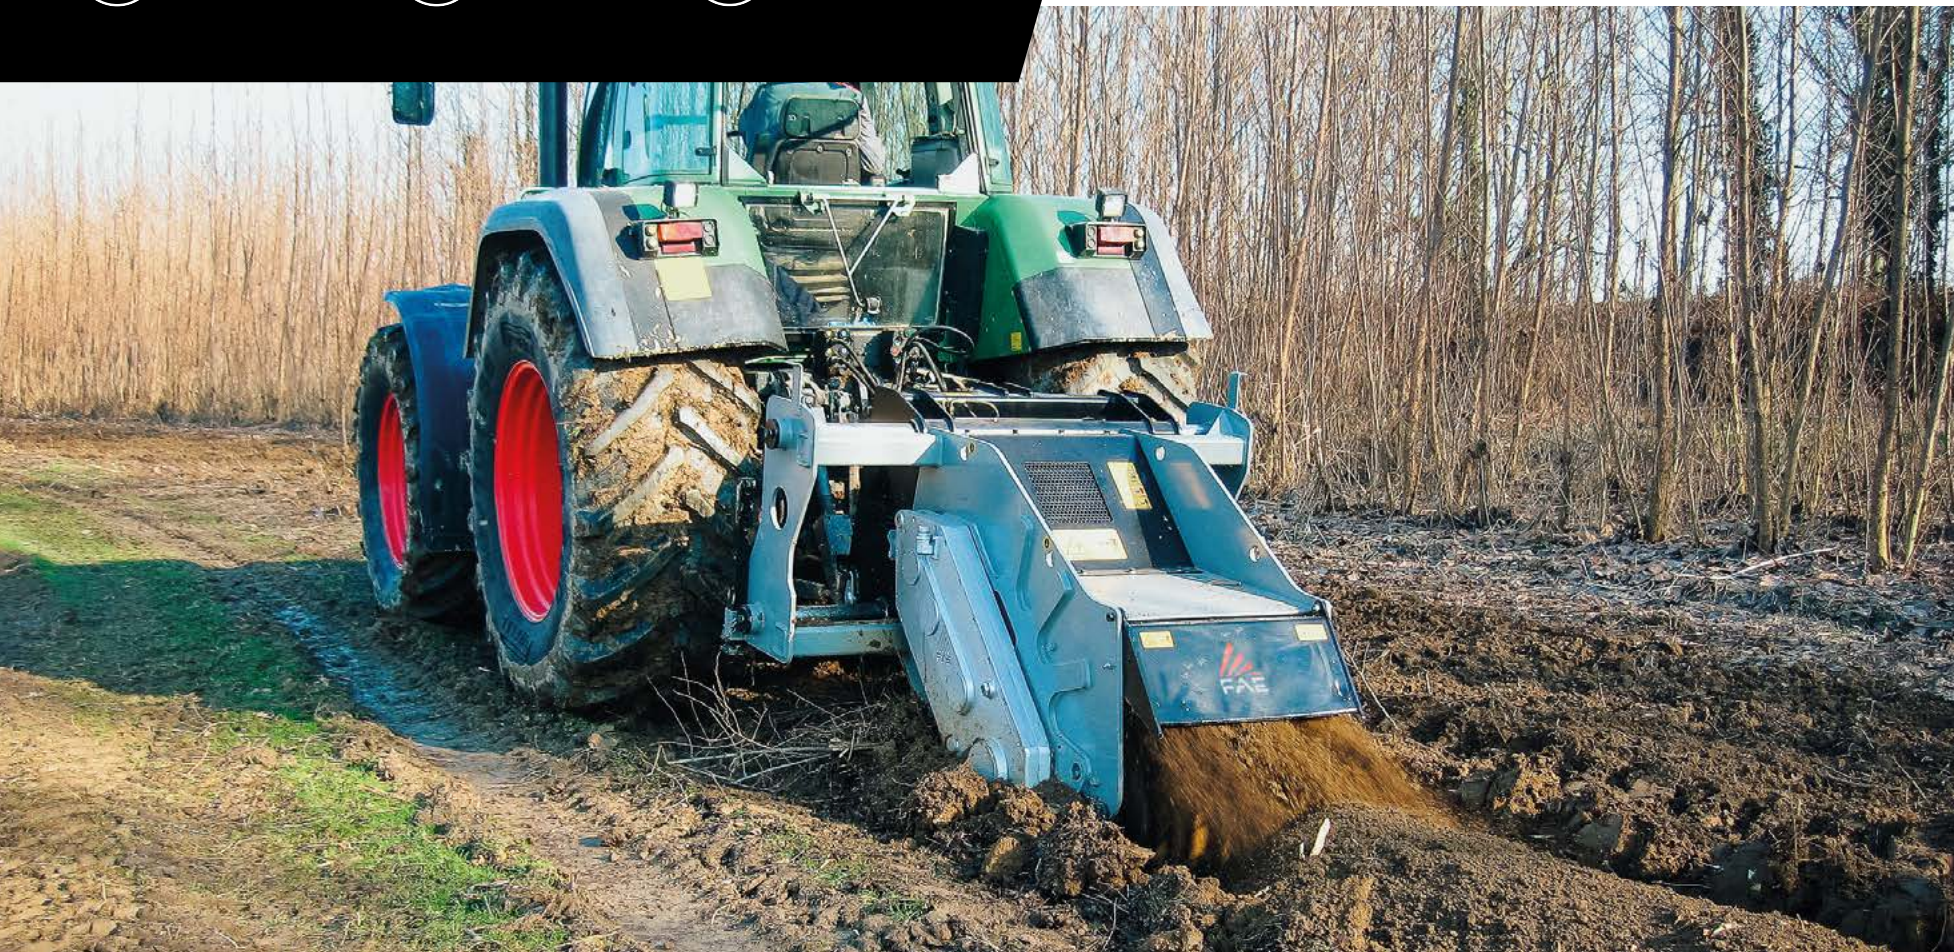

160-350 hp

60 cm max

from 55 to 75 cm

PTO DRIVEN HEADS

STONE CRUSHERS

For crushing stones, rocks and slabs, even deep underground.

70-500 hp

Ø 50 cm max
(stones)

50 cm max

from 100
to 250 cm

PTO DRIVEN HEADS

MULTITASKS

Mulcher, tiller and stone crusher - all in one multitask head.

130-500 hp

Ø 35 cm max
(stones)
Ø 45 cm max
(trees)
Ø 55 cm max
(stump)

40 cm
max

from 200
to 250 cm

LAND CLEARING TRACKED CARRIERS

FAE's tracked carriers are designed for forestry and agricultural work. The available selection of interchangeable heads makes FAE carriers extraordinarily flexible. They are designed and built to work in extreme conditions, on soft ground and on steep slopes.

TRACKED CARRIERS

TRACKED CARRIERS WITH CABS

For maintaining woods and forests, reclaiming farmland, creating firebreaks and maintaining power lines, oil pipelines and gas pipelines.

188 - 536 hp

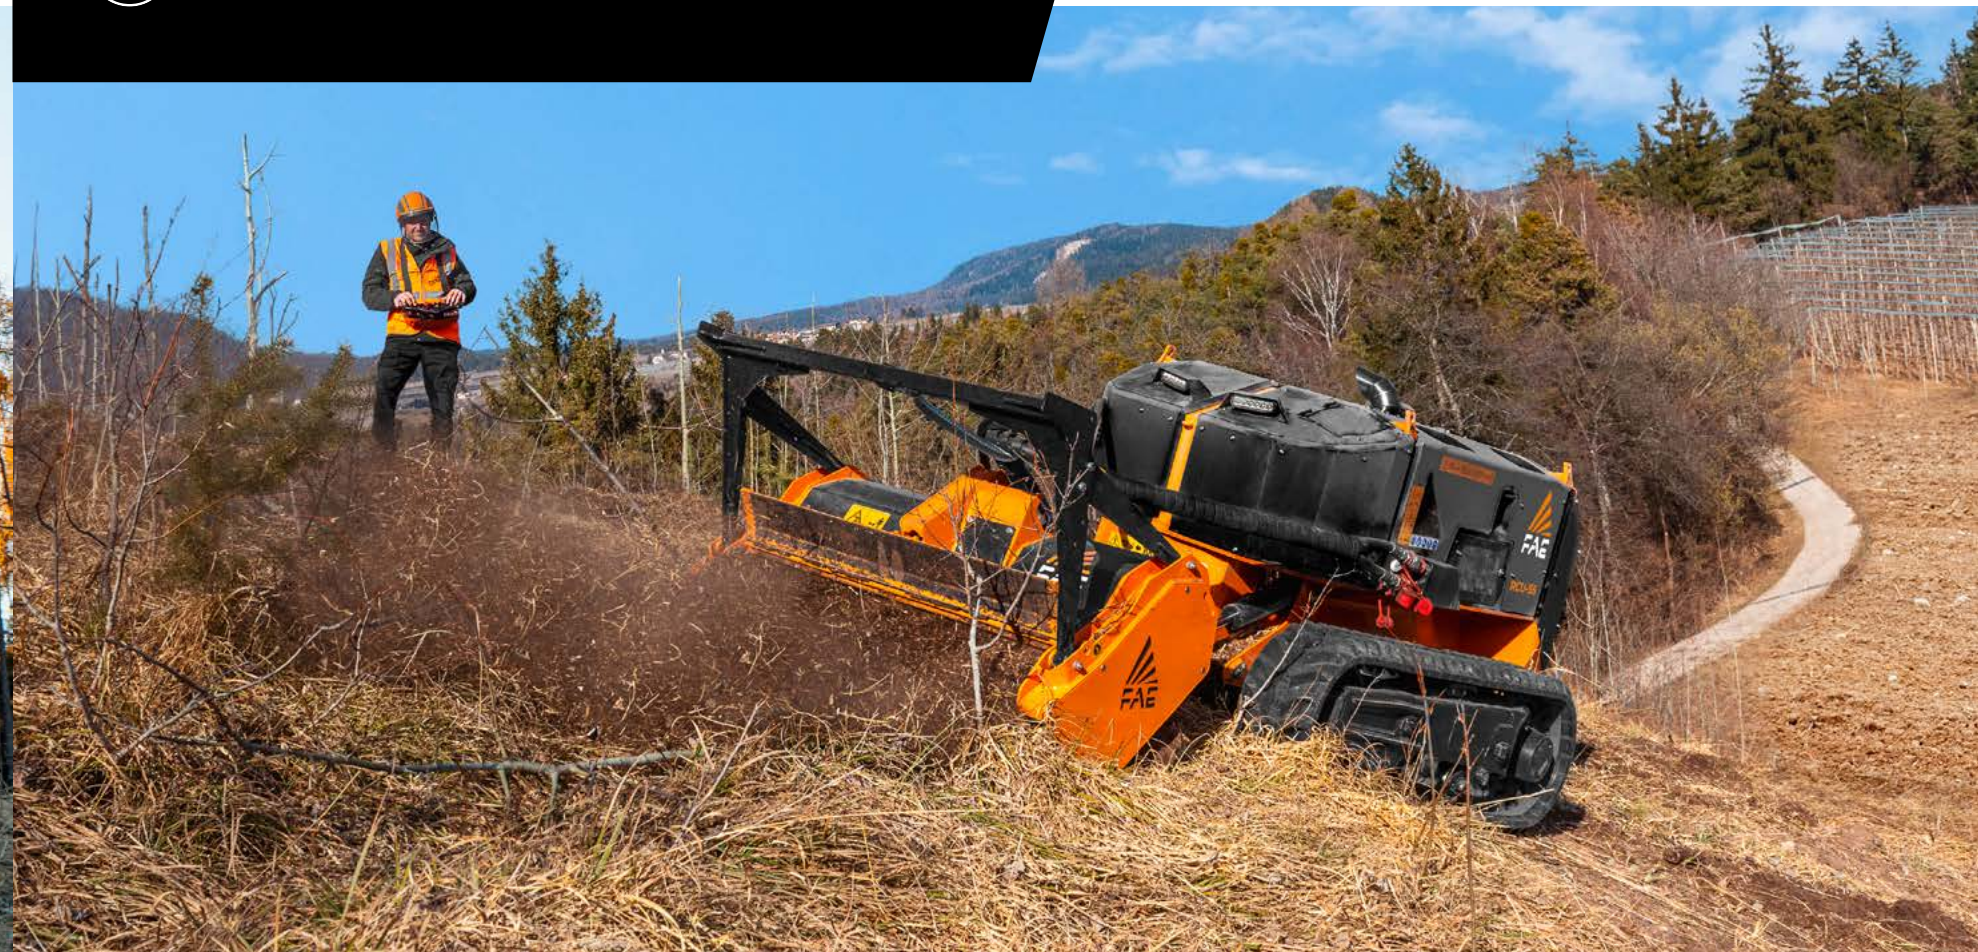

TRACKED CARRIERS

REMOTE CONTROLLED TRACKED CARRIERS

Vegetation management, forestry, or road construction. Can be equipped with FAE or third-party equipment.

44-120 hp

CONSTRUCTION

Roads, highways, trails, quarries, mines and infrastructure - the FAE Construction line is geared towards professional customers who need highly flexible and productive products.

- ▣ Rock crushing
- ▣ Full-Depth-Reclamation (FDR)
- ▣ Soil stabilization
- ▣ Slab milling
- ▣ Asphalt grinding
- ▣ Asphalt milling
- ▣ Asphalt recycling
- ▣ Dirt and gravel roads maintenance
- ▣ Utility trenching
- ▣ Quarrying, mining and tunneling
- ▣ Bike, horse & hiking trails construction & maintenance

WE HELP YOU THINK BIG
TO **DEVELOP YOUR MOST
AMBITIOUS PROJECTS.**

CONSTRUCTION HYDRAULIC DRIVEN HEADS

FAE's hydraulic driven heads from the Construction line are designed for shredding asphalt and concrete, or crushing stones. The line offers solutions for skid steer loaders and excavators.

HYDRAULIC DRIVEN HEADS

ROAD PLANERS FOR SKID STEERS

For milling asphalt and concrete road surfaces.

60-135 hp

25 cm max

HYDRAULIC DRIVEN HEADS

WHEEL SAWS FOR SKID STEERS

Utility trenchers for laying electrical, water, gas, and fiber optic conduits.

50-135 hp

50 cm max

HYDRAULIC DRIVEN HEADS

STONE CRUSHERS FOR SKID STEERS

For crushing stones, asphalt and concrete, even deep underground.

90-120 hp

15 cm max

HYDRAULIC DRIVEN HEADS

ROAD PLANERS FOR EXCAVATORS

For milling asphalt and concrete road surfaces.

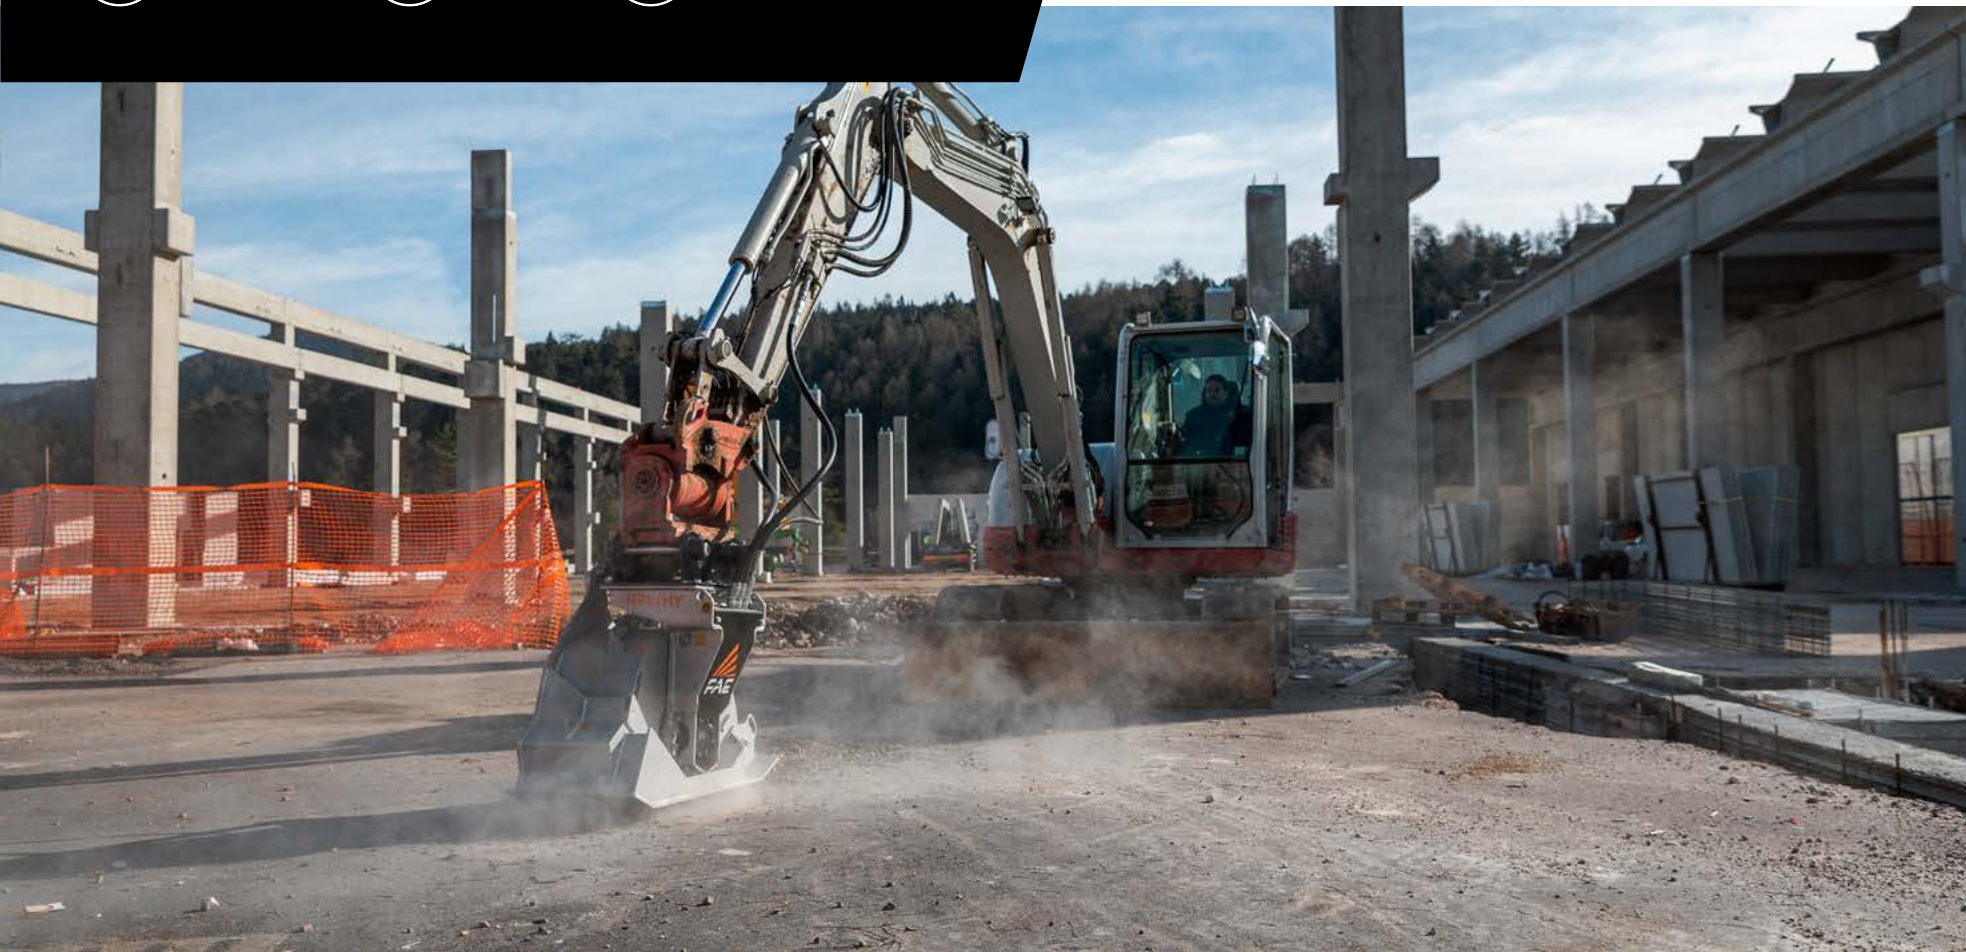

50-160 L/min

5-14 t

13,5cm max

CONSTRUCTION

PTO DRIVEN HEADS

FAE's PTO driven heads in the Construction line are designed for mixing, stabilizing, crushing and shredding. The line offers solutions for low, medium, high and extremely high horsepower tractors. The product line includes soil stabilizers and multitask heads that can be used for a wide variety of tasks.

PTO DRIVEN HEADS

SOIL STABILIZERS

For soil mixing and stabilization, also with special binders.

300-500 hp

56 cm max

PTO DRIVEN HEADS

MULTITASKS

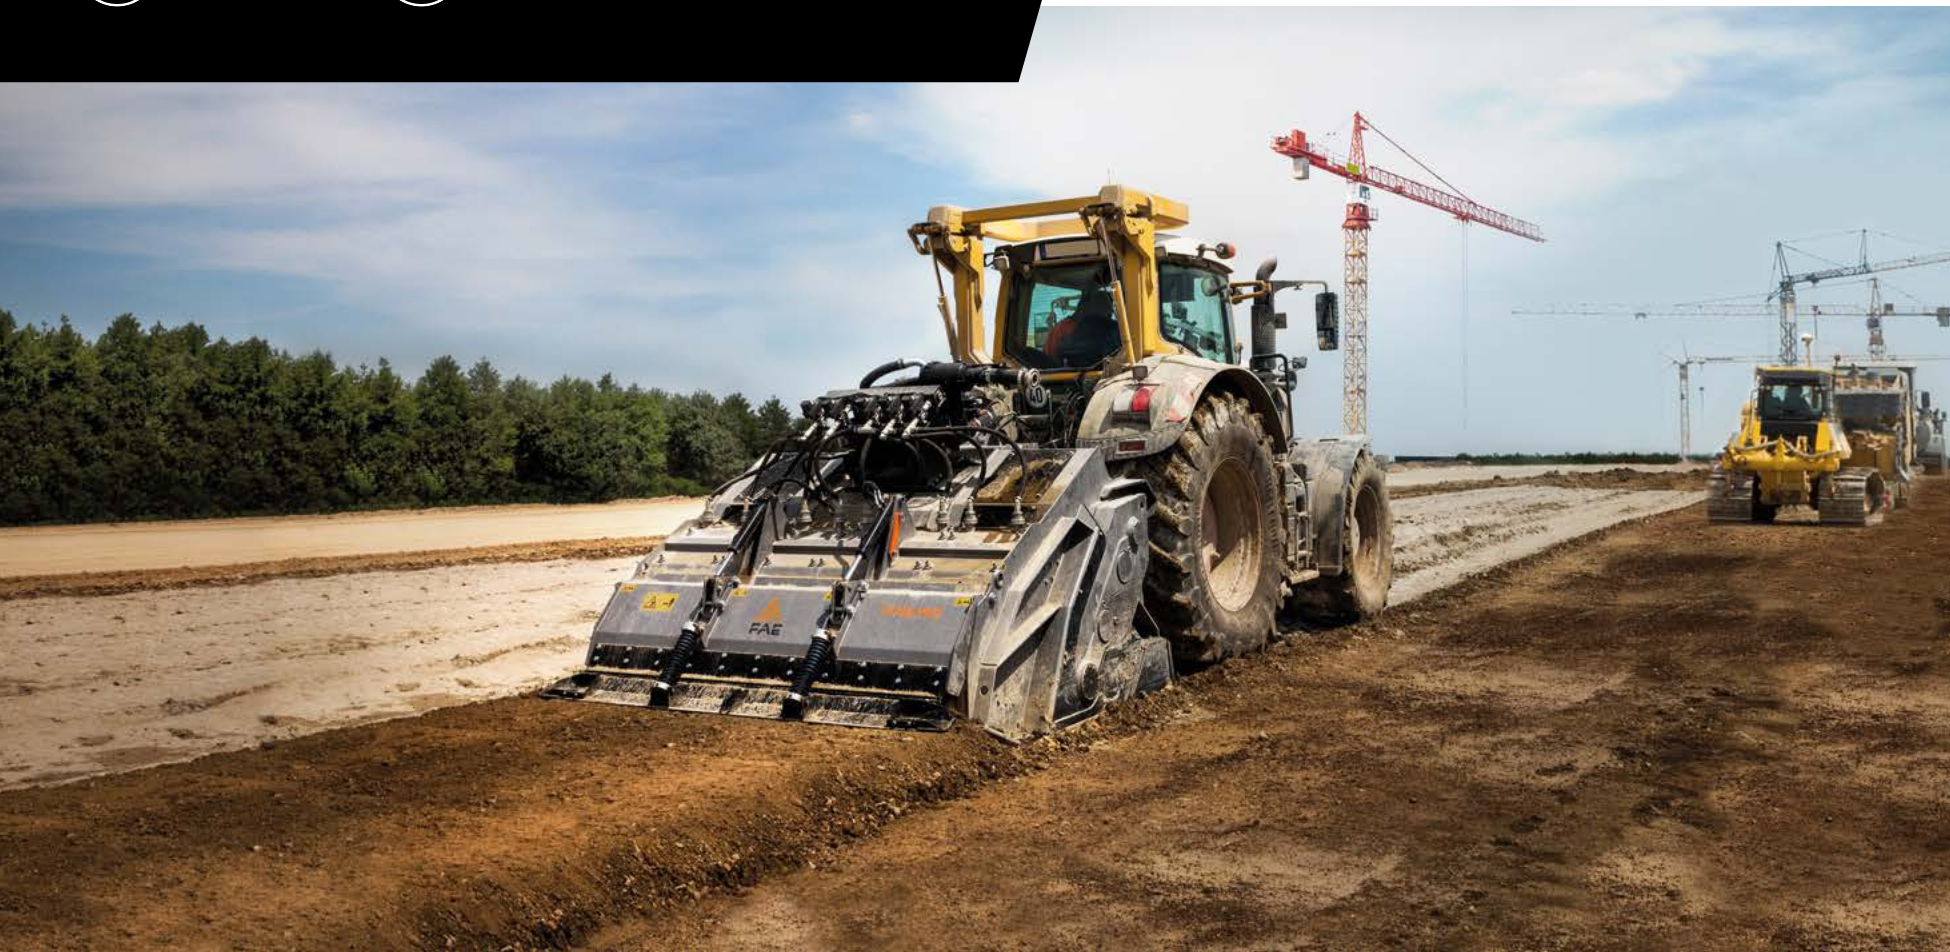

Stone crushing, mixing, stabilizing, shredding - all in one multitask head.

140-500 hp

50 cm max

DEMINING

Roads, paths, agricultural and forest areas with the presence of mines: the FAE Demining line is aimed at organizations and institutions that work to reclaim and restore otherwise dangerous and unusable land to civil use.

- ▣ Clearing land of anti-personnel mines
- ▣ Clearing land of anti-tank mines

TOGETHER, WE GIVE YOUR
COMMUNITY BACK THE
CONFIDENCE **TO PLAN
FOR A SAFE FUTURE.**

DEMINING

REMOTE CONTROLLED TRACKED CARRIERS FOR UXO/ERW CLEARANCE

The remote controlled tracked carriers are designed to clear the ground of deep explosive ordinance. They are built to withstand extreme stress and to be maneuvered at a substantial distance for the safety of the operator.

REMOTE CONTROLLED TRACKED CARRIERS FOR
UXO/ERW CLEARANCE

REMOTE CONTROLLED TRACKED CARRIERS

Clearing land of explosive ordinance,
anti-personnel mines and anti-tank mines.
