

FUJIAN OCEAN MOLD

Fujian Quanzhou HaiShiTe Mould Co., Ltd.

Introduction to Ocean Mold

Fujian Ocean Mold is a professional enterprise engaged in the intelligent manufacturing of brick machine molds. At present, there are 48 employees, including 22 who have more than 10 years of industry experience. The company's molds are matched with more than 20 well-known domestic and foreign brands of brick machines, including Hess, MASA, Tiger, Besser, ZENITH, QGM, REIT, S.L. SILVER HORSE, Qunfeng, KVM, FRIMA, QUADRA, PoYatos, etc. At present, our products cover other provinces, municipalities, and autonomous regions in China except for Hong Kong and Macao, and are exported to 12 foreign markets including Russia, Saudi Arabia, United Arab Emirates, Malaysia, Thailand, India, Vietnam, and Bangladesh. Received unanimous praise from customers in terms of product quality, service, and delivery time.

The company owns

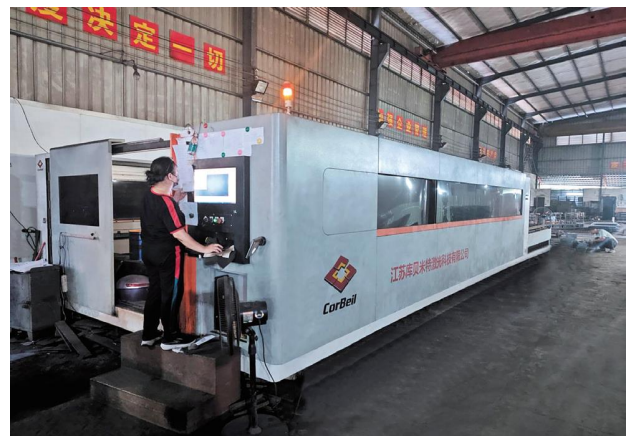

2217 (2.2 * 1.7m machining stroke) heavy-duty gantry machining center, 1 unit
1713 (1.7 * 1.3m machining stroke) light-weight gantry machining center, 1 unit
1265 (1.2 * 0.65m machining stroke) machining center, 1 unit
1160 machining center, 1 unit
060 machining center, 1 unit
850 type machining center, 1 unit
760 type machining center, 1 unit

6000W (2.4 * 12m) laser cutting machine, 1 unit
gantry milling machines, 4 unit
24 processing equipment such as sliding pillow milling machine, 53K, surface grinder, etc
The complete processing capability ensures the company's delivery capacity of 50 sets per month.

Technical introduction

Crossing thousands of miles, we transported special alloy steel from a military steel enterprise as raw materials for core components such as lining and presser feet. After carburizing heat treatment, the surface hardness can reach HRC60-64, and the 1.5mm thick carburizing layer provides sufficient wear resistance for the mold.

Product introduction

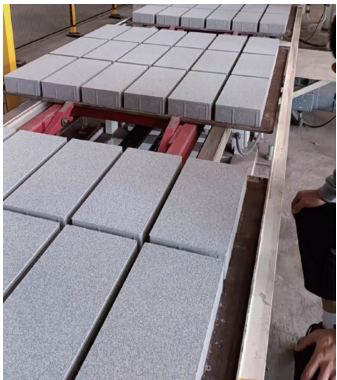

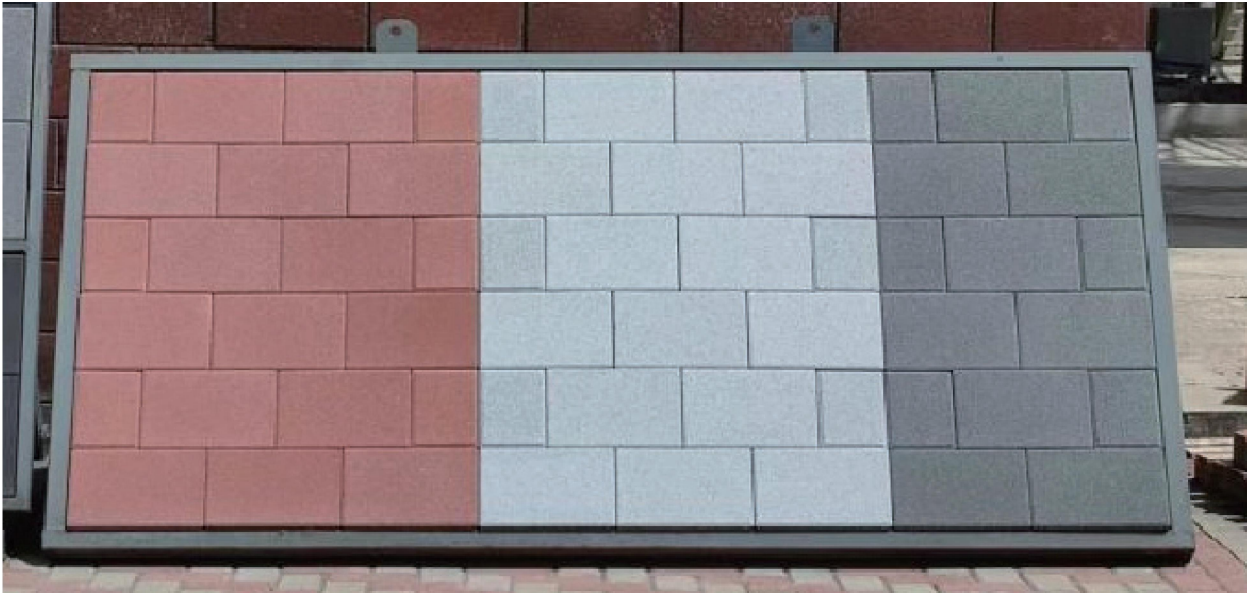

Currently developed:

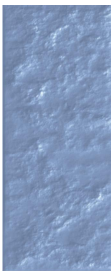

conventional pavement brick series
imitation stone pavement brick series
composite pavement brick series
curbstone series
vegetation brick series,
conventional wall block series
decorative wall series
water conservancy slope protection series

dry barrier wall series
and special function brick series
More than 10 series of over 1200 types of
brick mold products.

「Dry Barrier Wall Series」

「Special products」

The sea embraces all rivers, so can it last long.
Ocean people craftsmanship and continuous
innovation are all aimed at providing a good set
of molds!
