CRUSHER WEAR PARTS

Shanghai Bogvik Wear Material Co., Ltd. is one of the most professional crusher parts manufacturers and distributors. We major supply crusher wear parts from "5 kg to 10,000 kg" in a broad variety of manganese steel crusher wear parts, alloy steel hammers, high chromium and ceramic insert blow bars, titanium carbide insert liners and other spares with world-renowned crushers brands.

上海勃格维克耐磨材料有限公司是相当专业的破碎机配件制造商和经销商之一。我们主要供应从5千克到10000千克的各种锰钢破碎机耐磨件、合金钢锤头、高铬铸铁与陶瓷复合板锤、碳化钛镶嵌衬板以及世界知名破碎机品牌的破碎机备件。

Wear and spare parts are at the heart of Bogvik's business and have been continually driving to find new and improved ways to optimize components life and equipment performance.

Depending on the application & our clients' requirements we offer a wide range of manganese steel wear parts including Manganese 13%, Manganese 18% and Manganese 22% all with or without chrome or molybdenum additions. All manganese liners supplied by BOGVIK are made to our own internal material specifications which are more stringent than "standard" foundry material specifications.

易损件和备件是上海勃格维克业务的核心，我们不断寻找新的改进方法，以优化部件寿命和设备性能。

根据使用工况和客户要求，我们提供一系列锰钢磨损件，包括锰13%、锰18%和锰22%，所有这些都添加或不添加铬或钼。勃格维克提供的所有锰衬都是根据我们自己的内部材料规格制造的，这些规格比“标准”铸造材料规格更为严格。

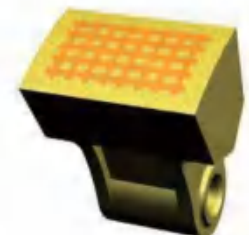

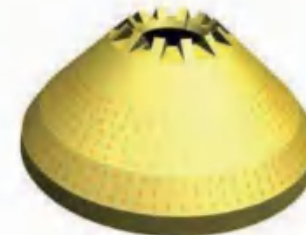

We believe in collaboration and work hand-in-hand with our customers to develop solutions that leverages our practical experience, in-house engineering & metallurgical capabilities and manufacturing capacity to provide a complete solution that meets our customer needs.

Contact us today to see how we can help customers extend the service life of their parts, improve throughput, optimize supply chain and reduce the total cost of ownership.

我们相信合作并与客户携手开发解决方案，充分利用我们的实践经验、内部工程和冶金能力以及制造能力，提供满足客户需求的完整解决方案。

请立即联系我们，了解我们如何帮助客户延长使用零件寿命、提高产量、优化供应链并降低总运营成本。

SERVICE INDUSTRY | 服务行业

INDUSTRIES OVERVIEW | 行业概述

• **AGGREGATE:** BOGVIK provides the aggregates industry with customized wear parts that can endure wear caused by the repetitive crushing, screening and feeding of abrasive materials. | **砂石骨料行业:** 上海勃格维克为砂石骨料行业提供定制的易损件，能够承受磨料的重复破碎、筛分和进料造成的磨损。

• **CEMENT:** BOGVIK manufactures machined parts for the cement industry that last significantly longer than OEM wear parts. Parts are for crushers, horizontal shaft impactors, hammer mills, feeders, etc. | **水泥行业:** 上海勃格维克为水泥行业生产耐磨零件，其使用寿命比OEM零件更长。包括但不限于破碎机零件，反击式破碎机零件，锤式破碎机零件，给料机零件等。

• **MINING:** BOGVIK wear parts address the full range of mining industry applications, from crushing, screening, feeding, grinding, power transmission and slurry transport. | **采矿业:** 上海勃格维克提供的易损件可满足采矿行业的各种应用，包括破碎，筛分，进料，研磨，动力传输和泥浆运输。

• **RECYCLING OF SCRAP:** Bogvik metal shredder castings have powerful performance and long service life. Cast in our ISO 9001 foundry, all our wear parts, from hammers and grates to pin protectors and caps, are made from virgin materials with exacting attention to detail and our proprietary heat treat cycle. | **废金属回收行业:** 上海勃格维克的金属粉碎机铸件性能强韧，并且使用寿命长。我们所有的易损件均由我们的ISO 9001 铸造厂铸造和由优质新料铸造，并且格外注重生产细节和我们的专有的热处理系统。

Wear part quality influences the shredder plant availability and operation costs!

Our shredder wear parts are designed to provide the lowest cost-per-ton and can be produced using different technologies.

Backed by decades of experience, Bogvik's experts use the best material and the appropriate technology, optimized for metal shredding, for each application.

Alloyed and manganese steel, forged steel, rolled steel. Alloyed steel are mainly used for hammers (with differential heat treatment), rotor protection caps, wear plates, anvils. Manganese steels are mainly used for grates (top and bottom) and wear segments, ejection doors.

MINING WEAR PARTS | 采矿磨损零件

12 MINING WEAR PARTS | 采矿磨损零件

Chocky Bars are combination of high chromium and molybdenum white iron metallurgically bonded to a mild steel plate. Chocky Bars provide maximum protection in high wear areas, with the mild steel backing cushioning the white iron enabling it to withstand impact.

High-quality bucket teeth is an essential part of a good excavator or backhoe. They make digging smooth and efficient while minimizing downtime to get the job done quickly.

Bogvik manufactures and supplies a wide range of grader blades to suit a variety of machines, including motor grader blades, tractor grader blades and bulldozer blades. Our grader blades are available in a variety of width, thickness, hardness and shapes(flat, curved, serrated, etc.)

MINING WEAR PARTS | 采矿磨损零件

12 MINING WEAR PARTS | 采矿磨损零件

BOGVIK manufactures high strength alloyed steel castings, heat treated to insure toughness and durability, machined to insure pin fit and overall pitch.

MINING WEAR PARTS | 采矿磨损零件

12 MINING WEAR PARTS | 采矿磨损零件

Bogvik Wear Plates are unique products that combine a hardened Chrome-White-Iron ("CWI") wear face (700 BHN) with a tough, ductile and weldable mild steel backing plate. The result is that a product is exceptionally resistant to impact and severe abrasion while retaining ductile characteristics for easy attachment.

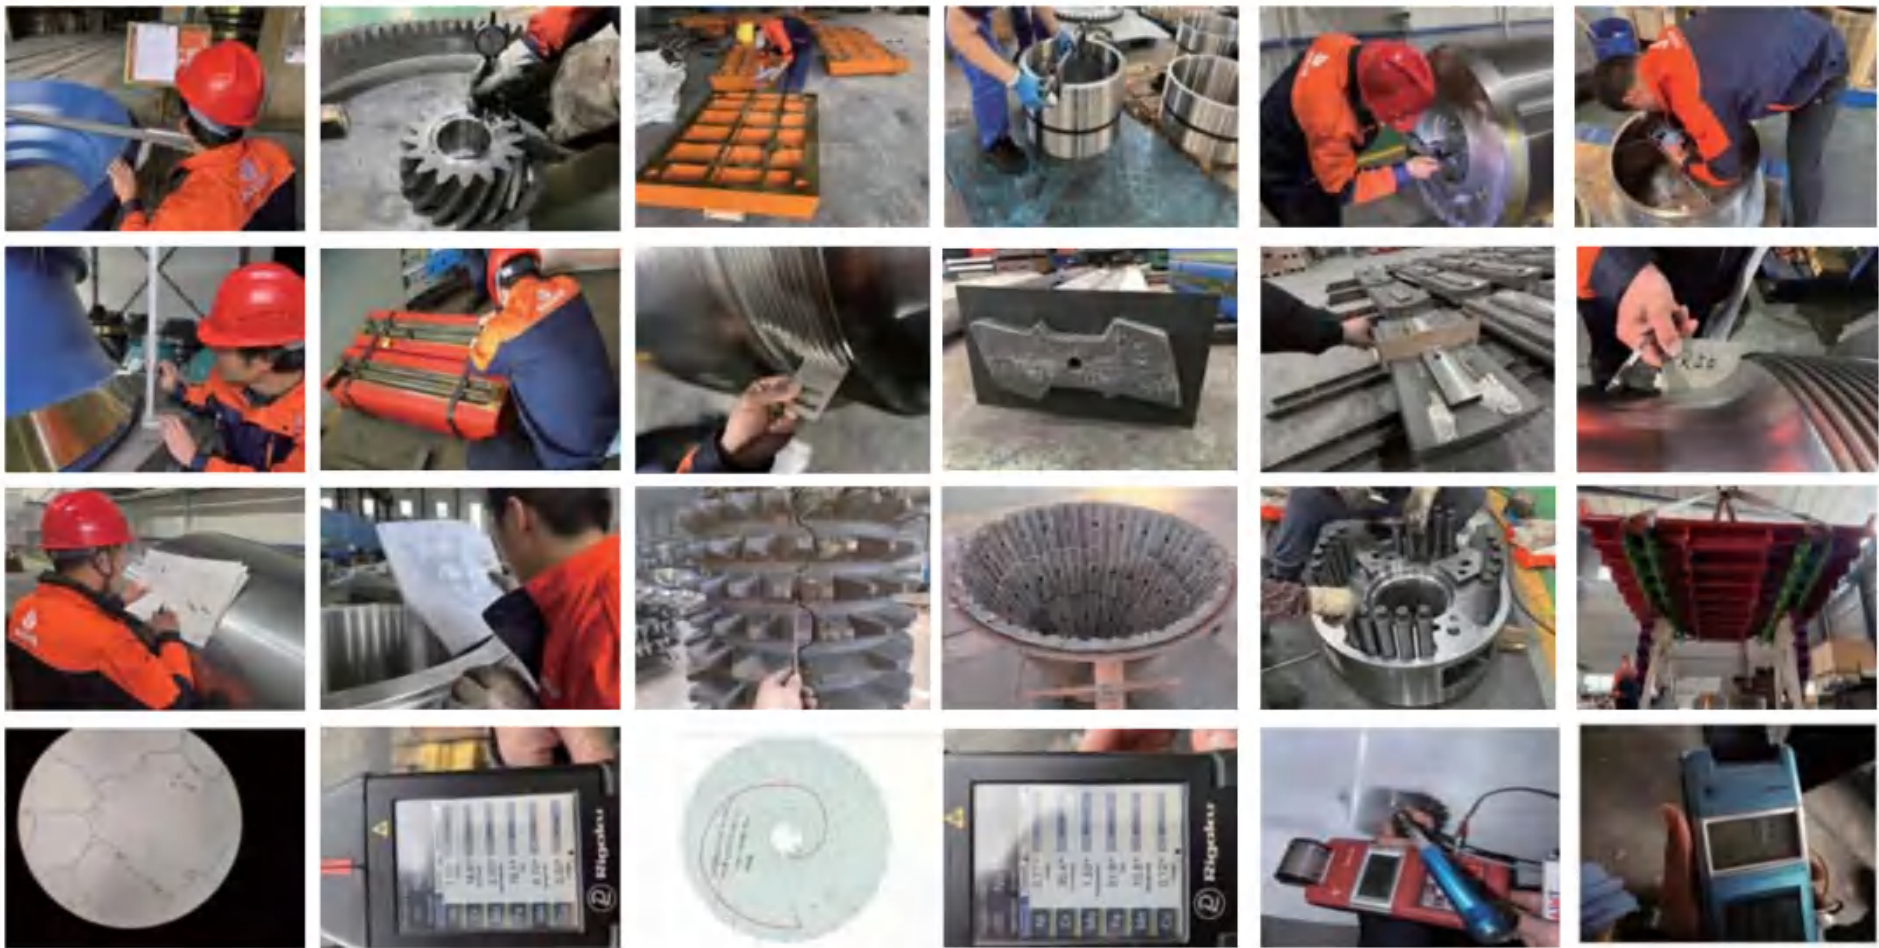

Drop balls supplied by us are characterized by quality cast steel with excellent durability, helping to reduce overall operating and production costs. They find their application mainly in quarries and also when breaking large pieces of slag in blast furnace plants.

Abrasion Resistant Coating Surfacing.

Shanghai Bogvik Wear Material Co., Ltd. is one of the most professional crusher parts manufacturers and distributors. We major supply crusher wear parts from "5 kg to 10,000 kg" in a broad variety of manganese steel crusher wear parts, alloy steel hammers, high chromium and ceramic insert blow bars, titanium carbide insert liners and other spares with world-renowned crushers brands.

上海勃格维克耐磨材料有限公司是相当专业的破碎机配件制造商和经销商之一。我们主要供应从 5 千克到 10000 千克的各种锰钢破碎机耐磨件、合金钢锤头、高铬铸铁与陶瓷复合板锤、碳化钛镶嵌衬板以及世界知名破碎机品牌的破碎机备件。

BOGVIK has in excess of 10,000 patterns of wear parts to fit the world's most popular crushers. Our patterns cover jaw crushers, cone crushers, gyratory crushers, roll crushers, hammer crushers, horizontal shaft impactors and vertical shaft impactors. No matter what your requirements are, BOGVIK probably already has existing patterns for the wear parts. 上海勃格维克拥有超过 10000 种耐磨件型号，适用于世界上最流行的破碎机。我们的型号涵盖了颚式破碎机、圆锥破碎机、旋回破碎机、辊式破碎机、锤式破碎机、水平轴反击式破碎机和垂直轴反击式破碎机。无论您的要求是什么，勃格维克可能已经有了零件的模具。
