New heart for your equipment

1 MINING INDUSTRY

ofM TOP LINE

60 OFM TOP LINE SINCE 1960

OFM Top Line boasts more than 60 years tradition in producing and supplying replacement parts adaptable to Caterpillar®, Komatsu® and Volvo® earthmoving machines.

New heart for your equipment

History, passion and experience are the hallmarks of the company founded by the Mosca family in 1960. The two brothers Romano and Floriano were wisely able to make the company grow and lead it into the global market, securing a leadership role in the industry.

A wide area of 30.000 m2 embraces high-tech manufacturing plants: thanks to the most advanced technologies we transform the raw material in final products with Italian heart and soul:
MADE IN ITALY by OFM TOP LINE ®.
With over 80.000 items available in stock. Automated warehouses, dedicated logistics, process optimization, speed and efficiency are our long-time pride.

Thanks to our advanced high-precision systems, in-house production of several spare parts is of premium quality and well renowned worldwide.

Made in Italy high-precision and efficiency

Experience, quality and reliability ensure an excellent service and a steady presence in the market.

High-tech automated warehouses ensure fast picking and shipments.

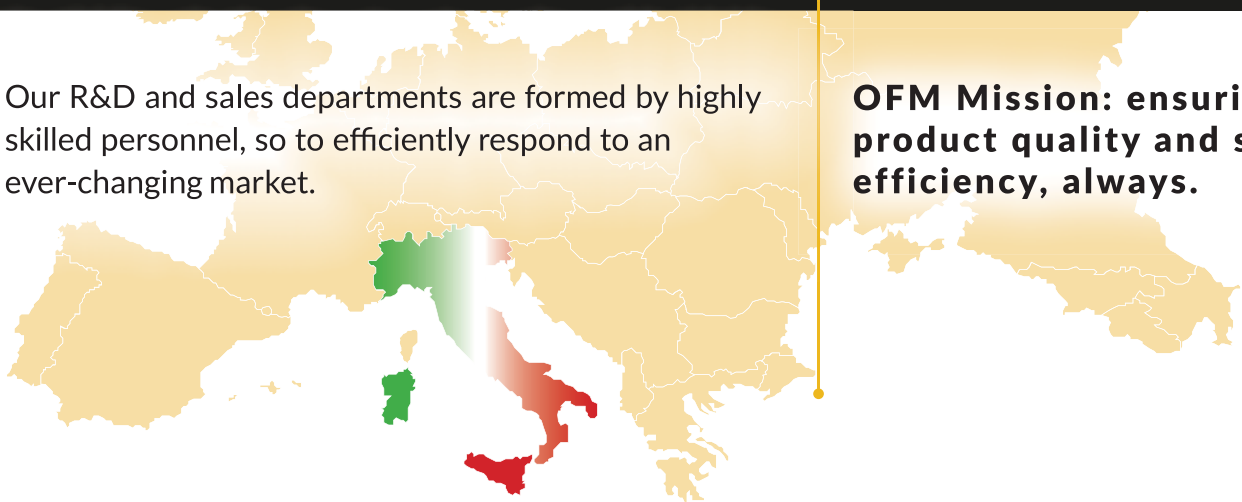

The right answer at the right time: our sales department can always give accurate response, thanks to high technical skills.

Our R&D and sales departments are formed by highly skilled personnel, so to efficiently respond to an ever-changing market.

OFM Mission: ensuring product quality and service efficiency, always.
