Beijing MK Crusher Minerals Technology Development Co., LTD, (formerly Beijing Meikuang Machinery Equipment Co., Ltd.) specializes in the research, development, manufacturing, sales, and import/export of mining machinery auxiliary systems. The company boasts a highly competent technical team composed of professional researchers and senior engineers, primarily dedicated to: hydraulic lubrication control systems for cone crushers, gyratory crushers, jaw crushers, impact crushers, vertical shaft impact (VSI) crushers, crawler-type mobile crushing plants, and vibrating equipment; development and application of integrated hydraulic lubrication control systems for mining / aggregate production lines; supply of spare parts and wear components for the full range of crushing and screening equipment, meeting operational requirements and helping customers reduce production and maintenance costs.

Superior products and outstanding service have earned us an excellent reputation. Our products are sold throughout China and exported to Europe, the Americas, Southeast Asia, the Middle East, Australia, and other countries and regions. First-class service, superior quality, and competitive pricing are our core principles — your satisfaction is our ultimate goal. We look forward to working with you !
