PART ONE

ABOUT US

About Us

Dedicated to mining since 1998.

OUR JOURNEY

- 1998** ● Established drilling tools factory
- 2011** ● Established branch factory
- 2014** ● Drilling tools entered international market
- 2018** ● Strategic cooperation with exploration rig factory
- 2020** ● Strategic cooperation with blasting rig factory
- 2021** ● Officially expanded global market under TDS Brand

CORE VALUES

1

Stable & Durable

Drilling rigs engineered to endure the harshest sites, shift after shift.

2

Customer-Centric

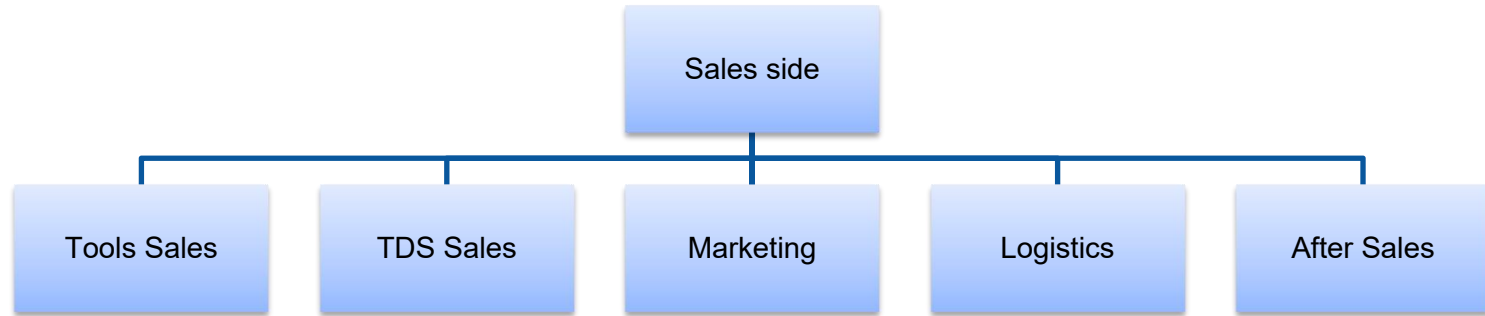

Rig configurations and service tailored to your jobsite and budget.

3

Integrated Solutions

One partner for drilling rigs, tools and spare parts.

Our Team—Sales Team

We Learn

We Listen

We Work Together

Engineering & Manufacturing Strength

From design to delivery — the strength behind every TDS drilling rig

01 ENGINEERING

- Experienced drilling equipment engineers
- Continuous product development & upgrades
- Customized solutions for exploration projects

02 MANUFACTURING

- International-brand components;
- Strict supplier management — professionals ensure consistent quality
- Core production & technical team averages 8 years of exploration-equipment experience
- Quality inspection throughout production; full machine testing before shipment

PART TWO

WHAT WE OFFER

What We Offer

Surface Core Drilling Rigs

NQ / HQ / PQ | Drilling depth up to 2,500 m

Model	NQ	HQ	PQ
C1000	800m	500m	300m
C1300	1300m	800m	500m
C1600	1600m	1000m	700m
C1800	1800m	1300m	800m
C2200	2200m	1800m	1000m
C2500	2500m	2000m	1000m

Tunnel Core Drilling Rig (U6)

NQ (71mm)	600m (Downward)	500m (Horizontal)	500m (Upward)
HQ (89mm)	350m (Downward)	300m (Horizontal)	300m (Upward)

RC Drilling Rigs

Hole diameter Ø105–800 mm
Drilling depth up to 1,200 m

DTH Drilling Rigs

Hole diameter Ø90–165 mm
Drilling depth up to 30 m

Drilling Consumables & Spare Parts

Including Cortech original & compatible parts

One-stop drilling solution provider

PART THREE

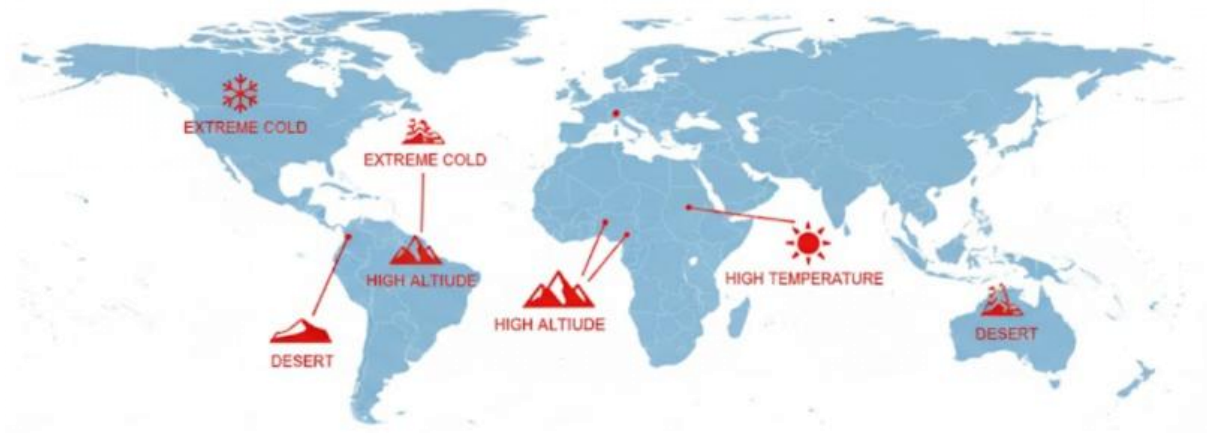

GLOBAL OPERATIONS

Global Operations

Our equipment is operating in multiple regions worldwide.

- Middle East
- Africa
- Southeast Asia
- Central Asia

Experience with diverse geological conditions and project environments.

Our rigs have demonstrated reliable performance across challenging environments — from the **hot conditions** of Mali and Ghana, to the **harsh cold of Mongolia**, and **high-altitude** environments in Tibet.

--- Mali: C1000 / C1300 ; Ghana: C2200 / C2500 ; Mongolia: C1600 / C1800; Tibet: C1800

PART FOUR

SERVICE & SUPPORT

Comprehensive Service Support

Instant Sync

24/7 Connectivity: Dedicated WhatsApp expert groups.

8h Response: Guaranteed feedback within one shift

Direct Guidance

Field Immersion: **1-week** on-site support by engineers.

Face-to-Face: Direct troubleshooting for complex challenges.

Knowledge Legacy

Academy Workshops: **7-day** intensive factory training.

Expert Transfer: Transforming local teams into certified experts.

Global Parts Support

Proactive Supply

Wear-Parts Kit:

3-month supply included.

Lifecycle Tracking: Build dedicated profiles with one- on- one follow- up, and proactively alert for parts replenishment based on usage conditions.

Intelligent Sourcing

Digital Tools: **1,300+** parts with fault mapping.

Global Brands: Local access to Cummins/Danfoss.

Rapid Logistics

24h Response: Instant emergency action.

48h Dispatch: Global core-part shipping
