01 公司简介 COMPANY PROFILE

宁波三晋工程机械有限公司是一家生产工程机械地面作业装置耐磨配件的外向型企业，地处中国东部美丽的国际港口城市—宁波，海陆空交通便利。公司继承了中国几千年的铸造文化，致力于耐磨材料的研究与开发，建立铸造基地。

公司始建于2006年，现占地面积10900多平方米。公司配备检测及生产设备，技术力量雄厚，采用熔模铸造、覆膜砂及树脂砂铸造工艺，生产挖掘机耐磨斗齿，齿座，边齿，销子等耐磨配件，使产品具有了足够的冲击韧性和强度。公司已建立的营销网络系统使三晋斗齿遍布国内的各大矿区，并远销欧洲、美洲、澳洲、和东南亚等国家和地区，凭借产品质量和售后服务，受到广大用户的好评。

宁波三晋工程机械有限公司始终坚持“以用户需求为导向，以质量求发展，以诚信服务为宗旨”，不断增强国际竞争力。诚邀工程机械经销商与三晋全体员工携手共创美好未来。

Ningbo Sanjin designs and manufactures a wide range of excellent quality bucket teeth, adapters, cutting edges, end bits, and other G.E.T. replacement parts with more than 15 years of experience.

NBSJ devotes to improve the products quality including surface, fitment, performance by innovative design and technologically advanced production processes. We insist on providing our customers with durable and long wear life products because we know stable and excellent quality is very important to our customer to keep their market. We always trust that your consistent success in business will lead to our success in business.

We welcome our respected customers to develop our products. And we are willing to give our customers very strong support to help get your desired products and expand your sales markets. All of our effort is to make customers completely satisfied and establish long-term and mutually beneficial cooperation. Customer satisfaction is our ultimate guide. We trust that NBSJ will be your ideal and reliable partner in China.

02 生产流程 PRODUCTION PROCESS

03 公司和产品优势 OUR STRENGTH

质量

Quality

1. We have our own bucket teeth factory with large production capacity, abundant knowledge and expertise team since 2005. You can get the factory price from us directly without any trading company.
2. Our factory manufactures teeth with our high specification alloy steel to ensure optimum wear resistance.
3. Very nice appearance, innovation design and excellent mechanical property after Heat treatment.
4. Advanced production and inspection facilities with strict quality control system.
5. Constantly improving the products quality including surface, fitment and performance.

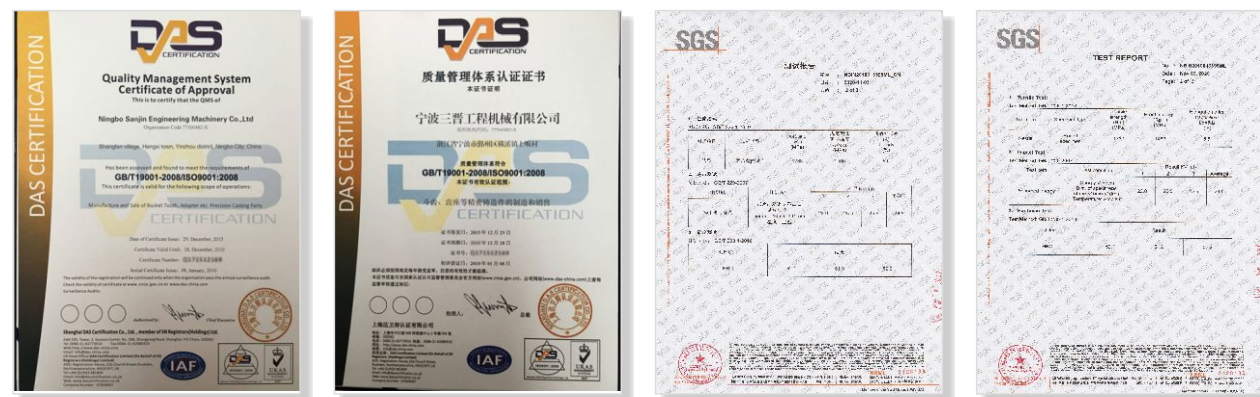

服务

Service

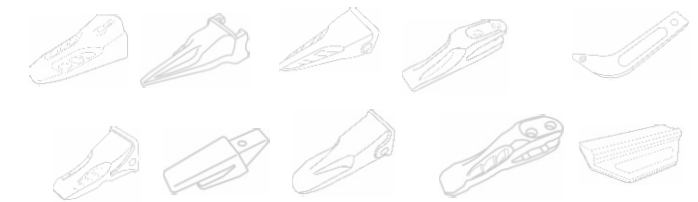

1. We can supply a full range of wear parts to provide one-stop purchasing service. Over 1500 different bucket teeth and adapters and more than 8000 various G.E.T. Parts is available. We have rich supplier resources for other related parts. We can help to search and purchase other parts as you require and ship together to you.
2. OEM&ODM: We can produce bucket teeth as per standard part no., client's idea, drawings or samples. Customized Logo, color or prefer design is available.
3. Rich experience in popular items of many countries and give professional suggestions. NBSJ parts are sold to more than 55 Countries and keep increasing.
4. Patience and professional pre-sale, in-sale, and after-sale services staff will answer and solve your problems very efficiently.
5. We are glad to give any technical assistance to our customers. We sincerely invite you to be our partners.

检验报告

ISO9001:2008, SGS CERTIFICATE

04 质量控制 QUALITY CONTROL

NBSJ employs a professional team of engineers and experienced QC. By using the unique material and following a strict casting production process and heat treatment, our bucket teeth can maximize its wear. Our design also makes the products more durable.

NBSJ factory also focuses on surface finish. Due to our rich casting experience, we can get very good surface quality. And our painting also make it look smooth and glossy.

Our factory is equipped with many advanced inspection instruments like Spectrometer, Tensile Testing Machine, Impact Tester, Hardness Tester, Ultrasonic Flaw Detector, etc.

To provide our customers with excellent performance parts. We will do every necessary measure to guarantee every piece qualified before shipping to our customers.

公司配备完善的研发、生产和检测设备,汇集了一批高素质的研发队伍和管理人才,为客户不断提供优质的产品和服务,长期以来坚持严格的生产管理体制和完善的质量保证体系,精益求精的工作作风,使得产品深受国内外客商的爱和信赖,远销欧美、东南亚等地。

检验仪器 Inspection Instruments

01 / 光谱仪 Spectrometer

02 / 冲击机 Impact Tester

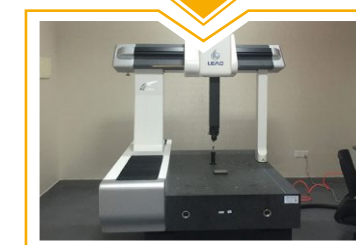

03 / 拉力机 Tensile Testing Machine

04 / 硬度计 Hardness

05 / 三坐标 CMM

06 / 手持探伤仪 Ultrasonic Flaw Detector

05 产品系列 PRODUCT SERIES

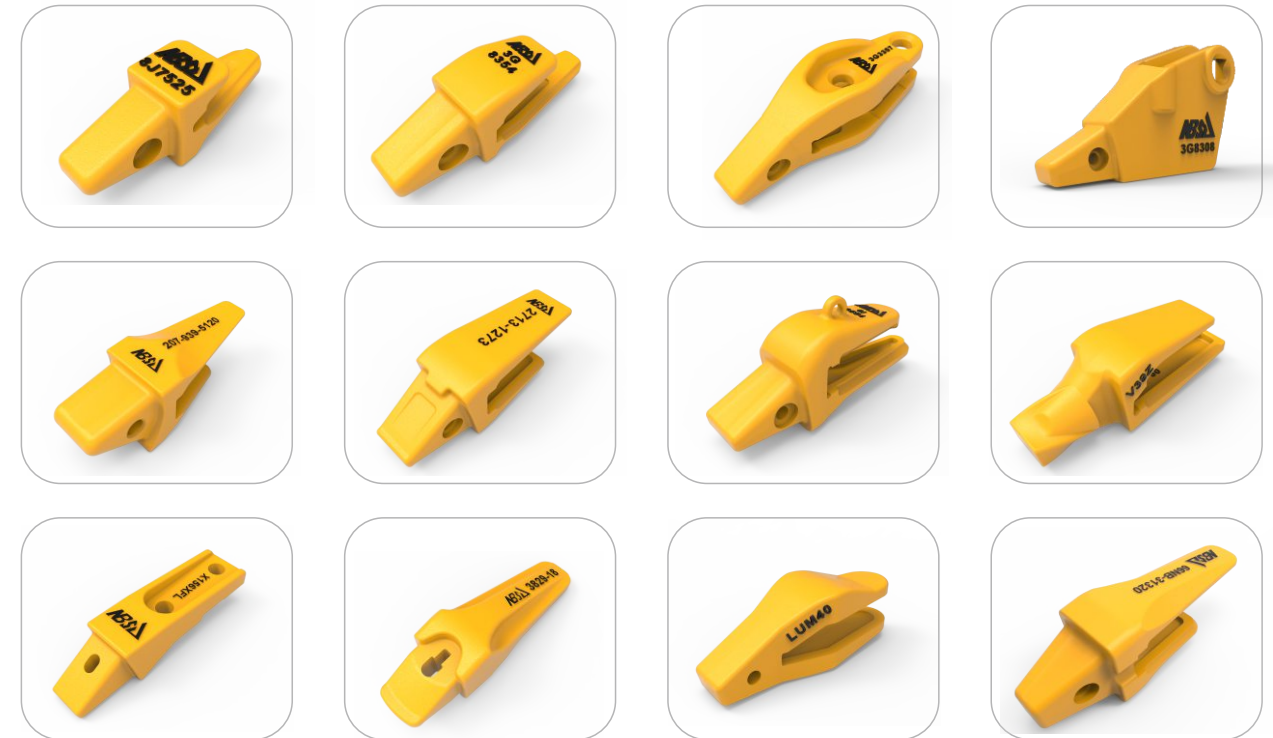

We can manufacture and offer excavator bucket wear parts such as bucket teeth and adapters, side cutters, bucket shrouds, shank protectors, ripper teeth, ripper shanks, cutting edges, end bits, which are replaceable for CATERPILLAR, KOMATSU, LIEBHERR, DAEWOO, DOOSAN, VOLVO, JCB, HYUNDAI, HITACHI, VOLVO, KOBELCO, CASE, H&L, HENSLEY, NEW HOLLAND, BOFORS, MST, HMK, FIAT, XCMG, LIUGONG, SANYI, SDLG, LONG KING and other excavators, loaders, graders, dozers, etc.

适用机型:卡特、小松、沃尔沃、日立、斗山、现代、大宇、神钢、凯斯、约翰迪尔、杰西博、山猫、利勃海尔、山东临工、三一、徐工、柳工、厦工、福田雷沃、山河智能。

其他产品系列

GET PARTS AND OTHER RELATED

刀板刀角

Cutting Edges and End Bits

Different types of reliable quality cutting edges and end bits can be provided.

Material: C80 carbon steel, 16Mn heat-treated manganese steel, 30MnB heat-treated boron steel.

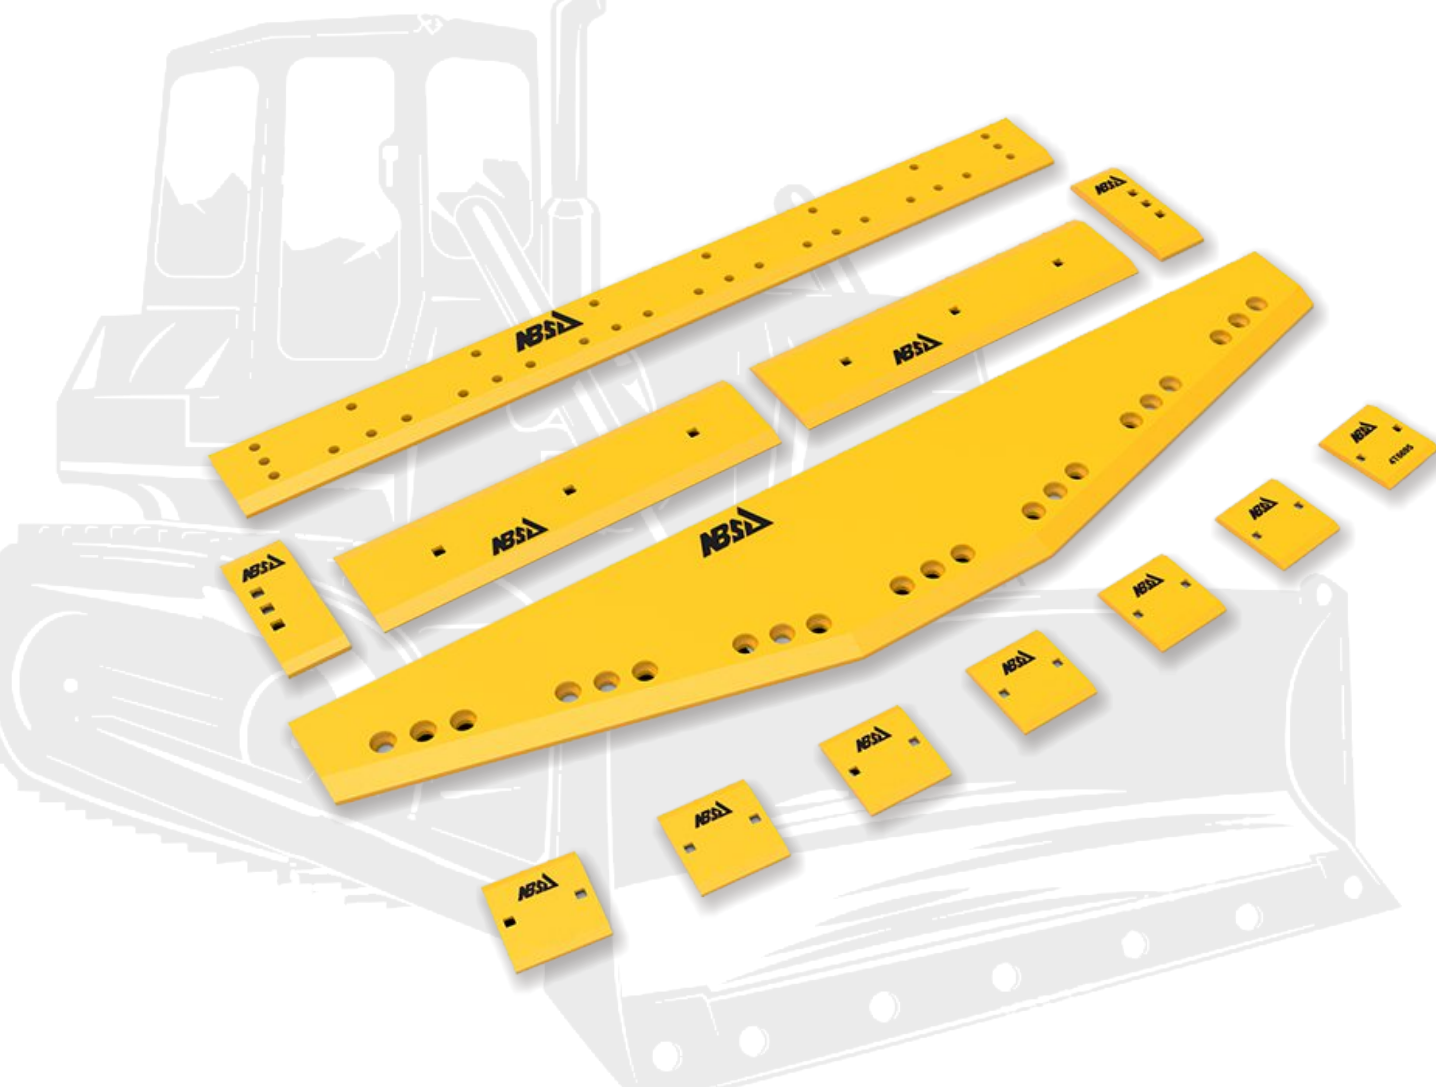

Logo: No logo or customer logo by stamp or sticker.

Color: Yellow, red, black, grey or as required.

Package: Plywood pallets with plastic stretch wrap.

Application: Different brands for grader, dozer, loader, excavator, scraper.

提供平地机、推土机、装载机、挖掘机、铲运机等各类刀板刀角。

铸件

Casting Parts

Type: Silica Sol Casting, Lost Wax Investment Casting, Lost Foam Casting, Shell Sand Casting, etc.

Application: Automobile, Railway, Truck, Food Machinery, Agriculture, Forklift, Construction Machinery, Marine, Mining machinery etc.

Casting tolerance range: CT7 TO CT9

Product weight range: 0.5KGS TO 200KGS

Casting material types: Carbon steel, Alloy steel, Gray iron, Nodular iron, etc.

应用领域: 汽车配件、火车配件、轮船配件、农机配件、叉车配件、工程机械配件、矿山配件等。
