ABOUT US

Experience Built on Decades of Expertise

Established in 1957, our company has decades of experience in the automotive and spare parts industry. Starting with GM Bedford spare parts and trucks, followed by our partnership with UZEL Holding and production under the MAPASA brand, we have continuously expanded our technical and manufacturing expertise.

Today, we specialize in the **development, production and export of heavy-duty spare parts**. Based in Konya, Türkiye, our experienced team combines technical knowledge with modern production capabilities to deliver **high-quality, reliable and competitively priced products** with consistent delivery performance.

Under our **AEKS** brand, we aim to build a globally recognized product portfolio supported by accurate technical information, consistent quality and professional service.

OUR PRINCIPLES

Professional Vision

Combining industry experience with a forward-looking approach to continuously improve our products and services.

Flexible Solutions

Developing solutions tailored to the specific needs of different customers and markets.

Customer Satisfaction

Building long-term partnerships based on responsiveness, reliability and mutual growth.

Trust & Reliability

Standing behind our products and commitments to build sustainable international business relationships.

OUR MISSION

To provide the spare parts industry with **high-quality products, competitive prices and reliable delivery**, while continuously improving our production and service capabilities.

OUR VISION

To become a **trusted and recognized global spare parts manufacturer and exporter**, creating long-term value through **quality, innovation and customer-focused solutions**, while strengthening the international presence of Turkish manufacturing.

OUR CAPABILITIES

PRODUCTION IN KONYA

Based in Konya, one of Türkiye's leading industrial and manufacturing centers, our production is supported by experienced technical staff and strong manufacturing capabilities.

QUALITY PRODUCTION

Every product is carefully inspected and controlled according to defined quality standards to ensure consistent quality and reliability.

2-YEAR WARRANTY & TECHNICAL SUPPORT

We provide a 2-year product warranty together with professional technical support and product information for our customers.

PREMIUM PACKAGING

Our products are prepared with premium-quality packaging, designed to protect them throughout storage, handling and international transportation.

FAST RESPONSE

We follow a fast-response and easy-communication principle, providing prompt answers to customer inquiries, quotation requests and technical questions.
