广州铁骑工程机械有限公司
Guangzhou Tieqi Construction Machinery Co., Ltd.

公司简介

COMPANY PROFILE

广州铁骑工程机械有限公司.有提供5-400吨矿山机械配件、挖掘机液压泵、终传动电机、回转装置、主控阀、发动机的产能和经验,公司利用资源优势,吸收领先液压配件制造商的技术和经验,建立维修车间,开发液压系统总成维修及再生平台,开展整机及零部件更新业务。

此外我们还开发高性价比的OEM或高品质售后产品,为海外客户提供全方位的售后服务。广州铁骑工程机械有限公司.专注于挖掘机配件和矿山设备配件。

成立于2015年,基于超过9年的努力和经验,我们可以为卡特彼勒、小松、日立、斗山、现代、神钢等品牌提供质量值得信赖的全系列液压系统零件和机械发动机。广泛应用于工程机械设备、挖掘机、发电机组、工业、船舶、农用拖拉机机械等。

公司为全球多个国家,提供售后市场零件,主要有美国、加拿大、英国、墨西哥、俄罗斯、澳大利亚、土耳其、荷兰、哈萨克斯坦、蒙古、印度尼西亚、菲律宾、南美、南非等。

Guangzhou Tieqi Construction Machinery Co., Ltd. has the production capacity and experience to provide 5-400 tons of mining machinery parts, excavator hydraulic pumps, final drive motors, rotary devices, main control valves, and engines. The company takes advantage of its resources, absorbs the technology and experience of leading hydraulic parts manufacturers, establishes maintenance workshops, develops hydraulic system assembly maintenance and regeneration platforms, and carries out whole machine and parts renewal business. In addition, we also develop cost-effective OEM or high-quality after-sales products to provide overseas customers with a full range of after-sales services.

Guangzhou Tieqi Construction Machinery Co., Ltd. focuses on excavator parts and mining equipment parts.

Founded in 2015, based on more than 9 years of efforts and experience, we can provide a full range of hydraulic system parts and mechanical engines with reliable quality for brands such as Caterpillar, Komatsu, Hitachi, Doosan, Hyundai, Kobelco, etc.

Widely used in construction machinery and equipment, excavators, generator sets, industry, ships, agricultural tractor machinery, etc. The company provides aftermarket parts to many countries around the world, mainly the United States, Canada, the United Kingdom, Mexico, Russia, Australia, Turkey, the Netherlands, Kazakhstan, Mongolia, Indonesia, the Philippines, South America, South Africa, etc.

液压系统总成再制造流程

HYDRAULIC SYSTEM ASSEMBLY REMANUFACTURING PROCESS

再制造流程透明可见

Remanufacturing process is transparent and visible

所有重建的液压件和发动机均由我们自己的技术团队进行回收、加工、整理、测试和重建，及时过程中的所有细节都可以检查，这是我们的专业，也是给客户最好的安全感。

All rebuilt hydraulic parts and engines are recycled, processed, sorted, tested and rebuilt by our own technical team, and all details in the process can be checked in time. This is our specialty and the best sense of security for customers.

零件回收原理

Parts recycling principle

我们从世界各地收集这些原装售后液压零件和发动机，并形成系统的恢复流程，以在源头实现零件的最佳质量控制。

这些原厂和售后零件全部来自机器拆解厂，只有当这些零件能够处于负压状态下在机器上正常工作时，才能够满足我们沟通的恢复条件。这样的话，这些零件的质量能够从根本上得到保证，才能实现被改造的价值。如果它们坏了，一方面，它的很多部件都有缺陷和故障。另外，这些部件的部分，即使重建，仍然会带来更大的风险。

We collect these original aftermarket hydraulic parts and engines from all over the world and form a systematic recovery process to achieve the best quality control of parts at the source.

These original and aftermarket parts all come from machine dismantling plants. Only when these parts can work normally on the machine under negative pressure can they meet the recovery conditions we communicate. In this way, the quality of these parts can be fundamentally guaranteed to realize the value of being transformed. If they are broken, on the one hand, many of its parts are defective and faulty. In addition, some of these parts, even if rebuilt, will still bring greater risks.

清洗后监测检查

Post-cleaning monitoring inspection

所有这些原厂售后零件将在清洗后受影响，每个部件都会经过仔细检查。那些有缺陷的部件将被那些原装和二手部件所取代，最重要的是所有这些部件只有很少的磨损，条件非常完美。这样，我们就可以认为这些零件的质量是原装和翻新的。

我们在组织时会记录这些部件的实拍，以便您和您的客户检查质量并确保是否与我们协商的一致。一切都在您的控制之下并且是透明的。

these original aftermarket parts will be affected after cleaning, and each part will be carefully inspected. Those defective parts will be replaced by those original and second-hand parts, and the most important thing is that all these parts have only little wear and tear and are in perfect condition. In this way, we can consider the quality of these parts to be original and refurbished.

We will record the actual photos of these parts when we organize them so that you and your customers can check the quality and ensure that they are consistent with what we negotiated. Everything is under your control and transparent.

调试

Commissioning

安装完成后，那些改造的部件，无论是液压泵、最终指令（最终传动）、回转装置（回转组）以及主控制阀，都将在液压台上进行测试。所以我们保证它们在出厂前一定保证各项指标的正常运行。

至于这些重建引擎的运行方式是一样的，我们会向您说明一切。不仅是处理，还有调试。翻新工程。

零件通过调试后，我们将根据您的具体要求对零件进行翻新。然后打磨并涂漆。零件的外观将接近全新。

After the installation is completed, those rebuilt parts, whether it is hydraulic pumps, final instructions (final drives), swing devices (swing groups) and main control valves, will be tested on the hydraulic bench. So we guarantee that they will guarantee the normal operation of various indicators before leaving the factory.

As for the operation of these rebuilt engines, we will explain everything to you. Not only the treatment, but also the commissioning. Refurbishment.

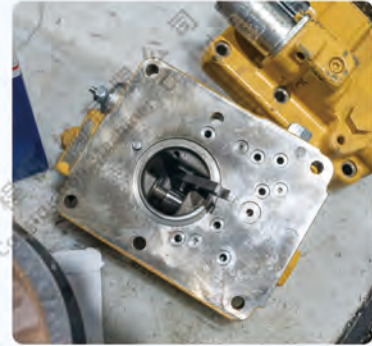

After the parts pass the commissioning, we will refurbish the parts according to your specific requirements. Then polish and paint. The appearance of the parts will be close to new.

这是重建的最后过程，但不是我们交易的结束！因为我们为所有重建零件提供长期保修。保修仅在您的客户安装该部件后开始。运输时间和您的消费时间（最多允许两个月的营销时间）不包括费用。这将是人性化的设置。

This is the last process of the reconstruction, but it is not the end of our business! Because we provide a long-term warranty for all rebuilt parts. The warranty only starts after your customer installs the part. The shipping time and your consumption time (up to two months of marketing time are allowed) are not included in the cost. This will be a humane setting.
