Hebei Jizhuo Machinery Technology Co., Ltd.

www.hb-jizhuo.com

Hebei Jizhuo Machinery Introduction

- Hebei Jizhuo Machinery Technology Co., Ltd. is located in the industrial park of Miaozhen Town, Jing County, Hebei Province, adjacent to Dezhou City, Shandong Province. It is a mining equipment manufacturing company. It mainly produces jaw crushers, cone crushers, scraper conveyors, DTII conveyors, ceramic plunger slurry pumps and their accessories. The products are sold to the United States, the United Kingdom, Germany, Canada, Australia, Malaysia and other countries. The product quality is advanced domestically and has received high praise from domestic and foreign customers.
- The company has a registered capital of 33.33 million RMB, covering an area of 75,000 meters, with a building area of 43,000 square meters. The casting workshop is equipped with one line of self-hardening resin sand, one line of sand, and one line of lost-wax casting production lines, as well as one 0.5-ton medium-frequency induction electric furnace, one 2-ton-frequency induction electric furnace, one 2-ton vacuum refining electric furnace, one 5-ton medium-frequency induction electric furnace, and one 10-ton furnace. It can produce various cast steel parts, cast iron parts with a single weight ranging from 1 kilogram to 10 tons, and has an annual casting production capacity 20,000 tons. The machining workshop is equipped with 150 sets of cold processing equipment, including CNC machining centers, gantry plan, vertical machining centers, horizontal machining centers, 8-meter CNC floor boring machines, and double-column vertical lathes. The assembly workshop is fully equipped with equipment, including laser cutting machines, CNC bending machines, plasma cutting machines, and MIG welding machines for material cutting and welding. The company's testing means are first- internationally, equipped with German SPECTRO spectrometer, American FARO portable three-dimensional laser scanning measuring arm, three-coordinate measuring instrument, carbon silicon rapid analysis instrument, portable metallographic microscope, metallographic analyzer, hydraulic universal testing machine, ultrasonic flaw detector, magnetic particle flaw detector, sand mold strength tester, impact testing machine, cry tank and other advanced testing equipment and instruments, more than 30 sets, which can carry out various performance tests to ensure the steady improvement of product quality.The company's technical strength ranks first in the same industry in China. The company has hired well-known experts from Beijing, Tianjin, Shong and other places, and has established long-term cooperative relations with Hebei University of Technology, the National Mining Equipment Research Institute and other units, to jointly develop high- products. At present, the company's products, such as jaw crushers, cone crushers, conveyors, ceramic plunger slurry pumps and their accessories, are mainly to the international markets of Europe, America, Oceania, and the domestic markets of Northeast, North China, Central China, South China and Southwest, and enjoy a high reputation and in both the international and domestic markets.

Partner

- The company maintains good cooperative relations with domestic and foreign customers, and its products are mainly exported to Britain, Germany, the United States, Italy, Australia, Norway Russia and other countries, and its customers include world-renowned enterprises such as Terex, Sandvik, German Kreman, American ASTEC, etc.

Hebei Jizhuo Machinery Crusher Parts

www.hb-jizhuo.com

The crusher parts are complete in variety, covering all the main components of the crusher, and are one of the company's main products, supplying Fortune Global500 companies. The casting technology and machining quality are among the best in the country.

Hebei Jizhuo Machinery Other Types of Parts

- Work platform; valve body; compressor; cylinder; dual-use military and civilian products. The company's advanced casting technology and analytical means can meet the pressure requirements mainstream products.

5 tons medium frequency melting electric furnace, one drag two 2 tons medium frequency melting electric furnace, one 2 tons degassing refining furnace, one 0 tons insulation furnace.

Single casting capacity cast steel parts 10 tons. After refining by the degassing furnace, the total oxygen content in the steel is reduced which improves the cleanness of the steel and reduces the defects of cracks caused by hydrogen inclusions in chromium and molybdenum alloy steel, the yield of finished reaches 99.5%.

Hebei Jizhuo Machinery Casting Equipment

www.hb-jizhuo.com

Ji'nan No.2 Machine Tool produces 25 tons mobile mixer and 12 tons fixed mixer with supporting sand treatment equipment, with an annual casting of 30,000 tons.
