WBS TECHNOLOGY TAIZHOU CO., LTD.

COMPANY PROFILE

WHO WE ARE

Leading the Industry with Scale and Expertise

WBS Technology (Taizhou) Co., Ltd. stands as one of China's largest manufacturers of truck air brake compressors, combining decades of industry experience with robust manufacturing capabilities. Operating three production facilities spanning over 50,000 square meters, WBS is powered by a dedicated team of more than 300 skilled employees. This strong foundation enables us to achieve an annual production capacity exceeding 200,000 units, ensuring reliable supply for global demands.

Unmatched Product Coverage and Model Diversity

Our competitive edge lies in our extensive product portfolio. We currently offer nearly 800 distinct product models, providing comprehensive coverage for major European, American, Japanese, Korean, Russian, South American, and domestic Chinese truck brands. Whether for heavy-duty transportation, off-highway machinery, or industrial equipments, WBS delivers precise replacement solutions for air compressors and related components. Our commitment to continuously expanding our part number range ensures we stay ahead of aftermarket trends and OEM requirements.

Technological Excellence and Brand Reliability

At WBS, technological innovation is at the core of our operations. As an independent manufacturer, we maintain strict quality control standards and leverage advanced engineering expertise to produce high-performance, durable parts that meet global certification standards. Our brand reputation is built on reliability, consistency, and the trust of partners worldwide. We collaborate closely with global importers, distributors, and wholesalers to deliver parts that not only match and even exceed original specifications.

Global Partnership and Customer Commitment

We invite you to partner with our responsive customer service team, our network of international distributor representatives, and our strategic import partners. Our mission is clear: to provide the highest quality air brake systems at competitive prices, tailored to your specific needs. With our superior capacity scale, diverse model lineup, and technical prowess, WBS is your trusted ally in the global heavy-duty vehicle aftermarket.

Driven by Advanced CNC, Defined by Quality & Speed

At the heart of our manufacturing excellence is a fleet of modern CNC machines and specialized tooling solutions. Our highly efficient production management system transforms these technical assets into tangible results: consistent, top-tier quality and fast turnaround times that keep your supply chain moving.

Rigorous Quality Control Throughout the Production Lifecycle

Certified Management System: Fully implemented ISO 9001:2015 quality management standards across all production stages, ensuring systematic consistency.

Precision Inspection: Utilization of state-of-the-art testing equipment to verify critical parameters, including dimensional accuracy, material composition, and hardness levels.

Comprehensive Testing: 100% leakage and functional testing performed on every batch of cylinder heads and compressor units, adhering to the most stringent quality benchmarks.

Premium Components: Integration of long-life, top-tier brand bearings and seals, specifically selected to meet and exceed demanding customer performance requirements.
