

PROFESSIONAL SUPPLIER OF SHEET METAL PARTS & COVERS

XINCHANG SHEET METAL

COMPANY PROFILE

Xinchang specializes in the R&D and production of sheet metal covers, fuel tanks and offset castings for mini excavators. With an in-house tooling workshop and original-equipment data, every part features precise holes and a perfect fit — for domestic repair & replacement, OEM supply and export orders, with full custom support from drawings or samples.

XINCHANG Engineering Machinery Repair Factory · Xushui, Baoding, Hebei, China

01

COMPANY PROFILE

Focused on construction-machinery sheet metal · Trust built on quality

Xinchang Sheet Metal is located in Xushui District, Baoding, Hebei — one of North China's largest distribution hubs for used construction machinery. Around 150 km from Beijing and Tianjin and 160 km from Shijiazhuang, it is fully integrated into the Jing-Jin-Ji economic circle, with nationwide logistics and strong location and supply-chain advantages.

Founded in August 2014, the company runs two entities — Xinchang Construction Machinery Repair Workshop and Xinchang Metal Products Co., Ltd. — combining sheet metal R&D and customization, manufacturing, complete-machine repair and OEM supply.

We produce complete sheet metal parts, equipment covers, structural components and wear parts for construction and agricultural machinery, and have long supplied major OEMs. Our workshop also handles overhauls, refurbishment and modification of complete excavators, loaders and other machines, delivering true one-stop service from parts to maintenance.

With 30+ sets of large processing equipment and 50+ skilled staff, we strictly control every stage from blanking and forming to welding and coating. Guided by 'Quality is the foundation of survival; reputation is the soul of development,' we aim to become a modern benchmark in China's construction-machinery sheet metal industry.

01 LOCATION
Xushui, Baoding, Hebei — heart of Jing-Jin-Ji

02 FOUNDED
August 2014, a decade of experience

03 BUSINESS
Sheet metal parts, covers, structural & wear parts

04 ONE-STOP SERVICE
Customization, production, repair & OEM supply

05 EQUIPMENT & TEAM
30+ sets of equipment, 50+ skilled staff

06 PHILOSOPHY
Quality first; reputation as the soul

07 VISION
A modern benchmark in sheet metal fabrication

02

OUR VALUES

Craftsmanship in manufacturing · Serving the future of engineering

OUR PHILOSOPHY

Goal

Our direction and driving force. For over a decade we have stayed true to making our own products and helping customers achieve results beyond expectations.

Attitude

Detail determines everything. We stay pragmatic and results-focused, approaching every task with integrity and sound values.

Responsibility

A quiet, lasting influence — present at every moment, in every

GRATITUDE

Making trust the foundation of long-term cooperation

DREAM

Driving the continuous growth of our team

QUALITY

Insisting on detail and stable delivery

INNOVATION

Continuously improving to adapt to market change

03

PROCESSING EQUIPMENT

Core equipment · Smart welding & fabrication

Excellent equipment and professional people build reliable products — benefits for customers, value for employees, returns for society.

06

KUBOTA SERIES

Professional quality · Matched to construction projects worldwide

KUBOTA 15 / 17

One-pass molding for stronger integrity and a seamless fit.

KUBOTA 20

Covers for the 2.0-ton mini excavator — landscaping, municipal and emergency works.

KUBOTA 30-6 (U-30)

Original-data tooling, precise holes and perfect installation.

07

MINI EXCAVATOR COVERING PARTS

Customer installation showcase · Custom development for every model

UTE 17 FULL COVER KIT

Developed for this market with European design standards — easy tooling, one-pass molding, precise holes and smooth curves for a seamless fit.

Precise Holes

Smooth Curves

XINCHANG 10

1-TON MINI EXCAVATOR COVERS

Independently designed, developed & produced

Custom development supported for all models

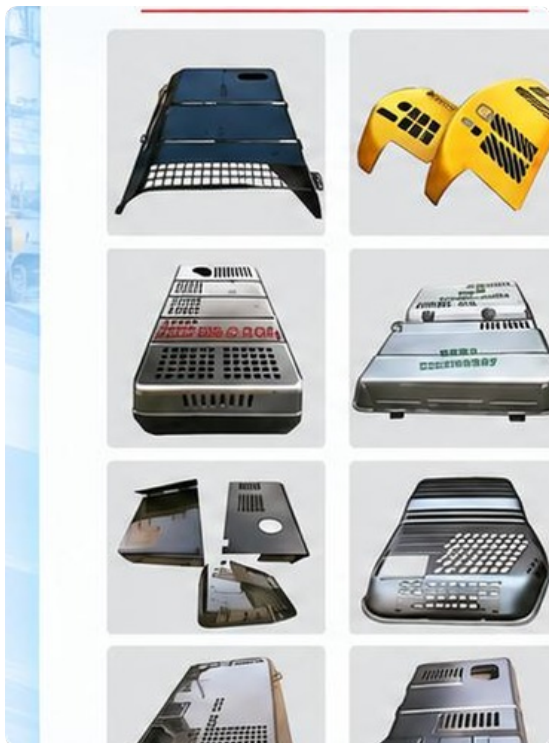

CORE FEATURES

- One-pass molding for stronger integrity
- Original-equipment data tooling
- Precise holes and a perfect fit
- Clean edges, quality painted finish
- Lightweight, durable covers
- Drawings or samples — full custom support

08

CORE ADVANTAGES

Making covers fit better, more stable and more worry-free

Primary forming covers — product range

ONE-PASS MOLDING

Fewer joints for stronger structural integrity

ORIGINAL-DATA TOOLING

Precise holes and a perfect fit

SMOOTH SURFACE

Clean appearance and quality painted finish

BULK SUPPLY

Full specifications and stable, reliable support

EASY REPLACEMENT

Ideal for after-sales repair and replacement

EXPORT ORDERS

Supporting overseas customers' matching needs

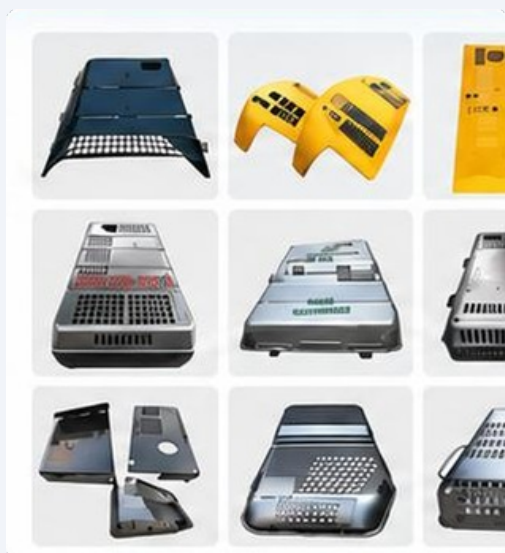

09

PRODUCT CATEGORIES

Focused on construction-machinery sheet metal · Supporting projects worldwide

10

RECOVERY, DISMANTLING & REMANUFACTURING

Used excavator recovery · Dismantling · Resource reuse

USED EXCAVATOR RECOVERY

Professional sourcing & evaluation

DISMANTLING & SORTING

Systematic separation of components

PARTS REUSE

Original-quality parts recycled

COMPLETE-MACHINE REMANUFACTURING

Rebuilt to standard and delivered

Original quality · Professional sorting · Circular recycling

11

REFURBISHED & REMANUFACTURED MACHINES

Giving old equipment new value

**Not an ordinary used machine —
a refurbished, remanufactured showcase.**

Refurbished to standard for reliable performance.

COMPLETE-MACHINE REFURBISHMENT

Cover repair, repainting and detailing

CORE COMPONENT INSPECTION

Key parts tested for stability

REMANUFACTURED DELIVERY

Reliable look and function

REAL-MACHINE DISPLAY

Condition clearly visible

CUSTOM PREPARATION

Equipped to customer needs

12

COOPERATION SERVICE

One-stop supporting service for every customer

EXTERIOR COVER SUPPLY

Focused on excavator sheet metal with stable quality

MULTI-BRAND, MULTI-MODEL DEVELOPMENT

Covering different brands and machine models

BULK SUPPLY · REPAIR · EXPORT ORDERS

Full specifications and stable delivery

CUSTOM DEVELOPMENT FROM SAMPLES / DRAWINGS

Non-standard customization with fast sampling

PRE-SALES · PRODUCTION · AFTER-SALES

A professional team serving you throughout

XINCHANG SHEET METAL | RELIABLE QUALITY, TRUSTWORTHY PARTNER

CLOSING REMARKS

Let's Build a Better Tomorrow Together

Manufacturing · OEM supply · Refurbishment · Custom development

Xinchang Sheet Metal stays focused on construction-machinery sheet metal parts and covers, offering one-stop solutions from parts production and custom development to complete-machine refurbishment and remanufacturing.

- 01 Winning trust through quality
- 02 Creating value through professionalism
- 03 Building long-term partnership through service

We look forward to working with you to create new value together.

Xinchang Sheet Metal · Professional supplier of construction machinery sheet metal parts & covers
