Xuzhou Oubo Construction Machinery Co., Ltd. was established in May 2014 and is currently located within the Smart Manufacturing Park of the Science and Technology Innovation Valley (Liandong U-Valley) in the Xuzhou Economic Development Zone. It is a comprehensive company integrating production, marketing, service, and R&D.

The company has obtained certification for the ISO 9001 Quality Management System, Environmental Management System, and Occupational Health and Safety Management System, ensuring the consistent reliability of product quality and the company's own sustainable development. The company's main products include various hydraulic hose assemblies, steel pipe assemblies, Parker standard fittings, transition fittings, flanges, as well as various types of heat-resistant oil hoses, high- and low-temperature resistant hoses, wear-resistant cement hoses, and anti-static ultra-high-pressure wound hoses for coal mines.

Currently, the company's market presence spans three areas: exports, end-user services, and original equipment manufacturing (OEM) supply. Products are exported to countries such as Russia, Vietnam, Japan, Brazil, and Australia. Major domestic OEM clients include XCMG Group, Sany Heavy Industry, China Railway Tunnel Group Co., Ltd., Caterpillar, Shandong Weichai Group, Shanghai Electric, Erchuan Machinery Co., Ltd. (Japan), Laigang, Shougang, and Daqing Petroleum, among other leading domestic enterprises.

Our corporate philosophy: Quality First, Service First, Integrity First! We adhere to the business philosophy of “People-Oriented, Technology-First, Market-Driven, Development-Focused.” We listen attentively to our customers' valuable suggestions, continuously improve our service quality, and strive to achieve mutual benefit and win-win outcomes with our customers!Let us join hands and work together to build a brighter future!
