Why choose us?

We focus on the supporting production of excavator hydraulic hose, and currently have a number of large UNIFLEX German crimping equipment, which greatly improves the service life of the hose, and we have a very rich excavator hose size data, which brings a lot of convenience to the maintenance work and improves the excavator work efficiency.

Cooperate closely with many large repair factories and brand after-sales service points at home and abroad! Currently in the sale of imported brand models are: Caterpillar, Hitachi, Komatsu, Kobolco, Sumitomo, Volvo, Kato, Hyundai, Doosan; Domestic well-known brands are: Sany, Xugong, Liugong, Zhonglian, Shantui, and other large, medium and small excavator models! We have greatly improved the service life of the hose and brought a lot of convenience to the maintenance work, improving the work efficiency of the excavator.
