

Multi-ply Conveyor Belt

EP Rubber Conveyor Belt

The belt body has the advantages of being light and thin, fatigue-resistant, impact resistant, with high tensile strength, excellent troughability, low elongation and good thermal stability, representing the development trend of textile conveyor belt.

Specification:

- 1) Fabric code: EP100~EP600, NN100~NN500, TN/C & CC
- 2) No.s of ply: 2~10
- 3) Delivery Detail: 20~30 working day for general orders

Classify by performance:

- 1) General use conveyor belt,
- 2) Oil-resistant conveyor belt,
- 3) Acid/alkali conveyor belt,
- 4) Cold-resistant conveyor belt,
- 5) Anti-static electricity conveyor belt, etc.

Application:

Suitable for conveying in long distance, heavy load and high chemical corrosive conveyor systems such as coal mining, metallurgy, port, harbor, power, chemical, construction etc.
