COMPANY PROFILE

Anpeng Wire Mesh Filter Equipment Co.,LTD. Hebei, China, is specialized in producing screening media for over 20 years. Our main products cover: Woven screens, Self-cleaning Screens with Pu bars or steel bars and Pu-mesh screens that sell over US, Canada, Australia/ NZ market and etc. We offer complete standard and custom solutions for the Aggregate, Mining, Construction and Recycling industries.

WOVEN SCREENS

Anpeng Woven Screens are made with either longest-lasting high tensile screen wire or stainless steel with an industry-leading stringent opening tolerance of $\pm 3\%$.

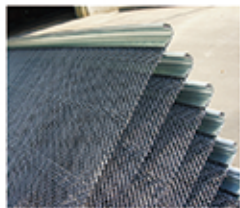

SQUARE MESH

- For general applications
 - Precise material passing
- > **Opening sizes:** 0.093"~6"
2.36mm~152.4mm
- Double wire weave available

SLOTTED SCREEN

- Single or triple wires in cluster
- Increase open areas than square mesh
- Customized to specific applications

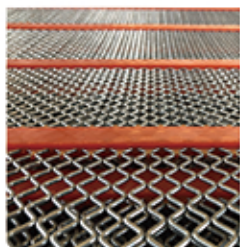

ANTI-CLOGGING SCREEN

- Diamond opening, Triangle opening and Harp opening.
- Prevent clogging and blinding

SELF-CLEANING SCREEN

Anpeng Self-cleaning screen technology allows wires, bonded to polyurethane strips, to vibrate independently at different frequencies preventing material accumulating.

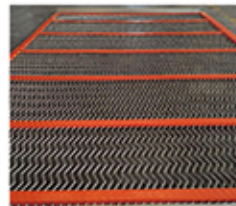

DIAMOND OPENING

- Standard opening
 - Similar to square mesh
 - Precise sizing control
- > **Opening sizes:** 0.059"~4"
1.5mm~101.6mm
- Double wire self-cleaning available

TRIANGLE OPENING

- Replace fine mesh to better reduce blinding
 - For high impact, heavy load screening
- > **Opening sizes:** 0.020"~2"
0.5mm~50.8mm

WAVE OPENING

- Maximize open area
 - Eliminate clogging
 - Ideal for removing fines
- > **Opening sizes:** 0.059"~2"
1.5mm~50.8mm

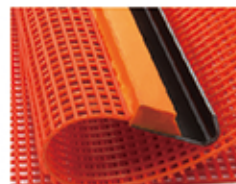

HARP SCREEN

- Increase efficiency in desanding and removing fines
 - Longer service life than traditional harp/piano wire
- > **Customized to specific applications**
Starting at 0.031"
0.8 mm

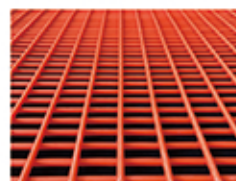

PU-MESH SCREEN

Anpeng Pu-mesh screens are made of abrasion-resistant polyurethane materials with steel wire structure embedded. Comes in square or slotted opening in either fully welded, or partially welded style.

ADVANTAGES

- 2-5 times longer wear life than woven wire
- Light weight to change
- Significant noise reduction

- > **Opening sizes:** 1.5mm~50mm
> **Wire diameter:** 1.5mm~14mm
