

Guangzhou Suncar Seals Co., Ltd.

Innovation | Change | Breakthrough | Growth

Company Profile >>

introduce

Guangzhou Shangjia Seals Co., Ltd. is a foreign trade company specializing in construction machinery seals. Suncar has a complete management center, professional product consulting services, innovative product production research and development, efficient logistics and distribution and other organizational structures. At present, the company's business covers many regions at home and abroad.

Suncar Seals entered the construction machinery oil seal industry in 2008 and has nearly 12 years of experience in oil seal technology. Suncar Seals has always maintained its core technology advantages, advanced manufacturing and processing capabilities, scientific management system and complete after-sales system. It is recognized as one of the enterprises with the most development potential in China's future mechanical oil seal industry.

Suncar Seals has rich experience in production and processing and a good production environment. The products are matched with excavators, bulldozers and wheel loaders of Komatsu, CAT, JCB, Hitachi, Sumitomo, Kobelco, Volvo, Kato, Daewoo, CASE, John Deere and other brands.

Suncar Seals provides high-quality, high-performance, long-life seals and vehicle parts for loaders, crawler excavators and other construction machinery equipment, and solves the maintenance and replacement problems of construction machinery parts for customers. With a good reputation in the machinery industry, Shenche will always maintain its original intention, actively develop and build a unique brand belonging to the company, and provide customers with high-quality products at lower cost, better quality and thoughtful service.

history

The development history of Guangzhou Shengjia Seals Co., Ltd.

Start: Global construction machinery store was established in 2008, mainly engaged in the wholesale and retail of excavator seals, loader seals, bulldozer seals, breaker seals and other construction machinery related seals. Its business area covers more than 30 cities in China.

Transformation: Universal Construction Machinery Co., Ltd. was established in 2013, and a seal factory was established to mainly produce various construction machinery seals, which laid a solid foundation for the company to become bigger and stronger. At the same time, the company's business transformed in the following year, and the sales scope expanded from the domestic market to overseas markets. Since then, the company has established a trading company—Guangzhou Shengjia Seals Co., Ltd.

Tengfei: After 2020, the company's brand will be upgraded in an all-round way, and management service centers will be set up in overseas markets to face the world with a unified brand image.

Cylinder repair kit >>

hydraulic oil seal »»

Oil seals are used to protect shafts and bearings from the intrusion of dust and foreign matter as well as the intrusion of oil or grease. Oil seals help prevent lubricant, hydraulic oil, water or chemical leaks

CAT skeleton oil seal
Sealing performance
high and low resistance

CAT skeleton oil seal
Lip seals are used to prevent oil from escaping from inside the machine in rotating applications, and protect the machine from external contamination. The seals are professionally designed, durable, reliable performance and extra protection in the most extreme environments.

CAT skeleton oil seal
Extended seal life is ensured by the formation of an oil film around the shaft; carefully selected materials and complex cross-sectional geometries for each specific application provide long-term leakage protection.

Joystick oil seal repair kit
Reinforced type, not easy to leak oil. Oil-resistant, heat-resistant, pressure-resistant, durable; Hardness. 60-90 Shore A; Availability

seal packing
High sealing performance, wear resistance, heat resistance

crankshaft rear oil seal
High sealing performance, wear resistance, heat resistance

our categories »

We specialize in hydraulic oil seals, hydraulic seals, hydraulic cylinder seal kits, gearbox seal kit products, etc.

Rubber Diaphragm Seals

A diaphragm seal is a flexible membrane that seals and isolates the housing. The flexible nature of this seal allows pressure effects to pass through the screen but not through the contained material

Transmission Seal Kit

Transmission seal. prevents fluid from slipping past the input shaft and prevents fluid from escaping where the driveshaft yoke slips into the transmission

O Ring Seal Kit

O rings are used to block a path which may otherwise allow a liquid or a gas to escape. The O ring is placed into a groove to secure them in place, and then compressed between two surfaces

Breaker oil seal repair kit

Hydraulic breaker seal kit, also named hammer seal kit, use in breaker, play an important role in sealing oil.

Our company specializes in excavator spare parts, the brands are as follows

CAT	KOMATSU	KATO	HITACHI	VOLVO
DOOSAN	HYUNDAI	KOBELCO	SUMITOMO	SANYJ
LIUGONG	XUGONG	PENGPU	XCMG	JCM
ATLAS	YANMAR	ZOOMLION	TRKEUCHI	YUCHAI
LISHIDE	LIBHERR	LONKING	CASE	LOVOL

Our products are as follows

Hydraulic Seal	Transmission Kit	Gear Pump Seal Kit	Rod Seals
Cylinder Seal Kit	Hercules Kit	Pilot Valve Kit	Hydraulic Pump Seal Kit
Oil Seal	Rotary Seal	Wear Rings	Wiper Seals
Gasket Seal	O-Ring Seal	Excavator Couping	Valve Pusher
Hydraulic Kit	Floating Seal	Regulator Seal Kit	Rod Buffer Seals
Motor Seal Kit	Control Valve Kit	Piston Seals	Center Joint Seal Kit

Oil Seals:

Our Different Type of Oil Seals

* Single Lip Oil Seal * double Lip Oil Seal * Shaft Oil Seal *
 * SC Oil Seal * SB * TC * TB * TCK * VC VB* KC * MKB * TCZ * TCV * TCN * TC4 * TB4
 * TCJ * KA3J * DC * DB * MG * WT * WTT * OKC3 * MOX * MOD Oil Seal – TC TB TCV TCN DB
 DC DCY TC4Y ETC.

Piston Seal:

SPGW * SPGW2 * SPGWV * SPGO * SPGA * OK * NCF * KDAS/DAS/TPM/ZW * OUYSPG *
 SPGM * SPGN * SPGC * OHM * CPI * CPH * ODI * OSI * OUIS * OUHR * OKH *

Rod Seal:

IDI * ISI * IUIS * IUH * UNI * PTB(SKF) * H605(HALLITE) * PTU * SPNOSPN * SPNS * SPNC *
 U-CUP * TSE

Piston and rod seal:

UPI * USI * UPH * USH * V99F * V96H * UN * UHS * UNS

Back Up Ring :

BRT-PTFE * BRT-NYLON * BRT2 * BRT3 * BRT-G * BRT-P * BRN2 * BRN3

O Ring :

O-ring P series ; O-ring G series; O-ring AS series ; O-ring S series;
 O-ring M 1.5 series; O-ring M 2.0 series; O-ring M 1.9series; O-ring M 2.4 series;
 O-ring M 3.0 series; O-ring M4.0 series
 D Ring : DRP , DRI

Dust Seal:

DKI * DWI * DWIR * DKBI * DKBI3 * DKBZ * DKH * HBTY * URE *
 LPI * A1 * GHP * PPY * DLI * DLI2 * VAY *
 DKB * GA * DSI * LBI * LBH * LBHK * DSPB * DHS * FA * HBY * HBTS *
 Type A - Single Lip Wiper * Type B - Double Lip Wiper

2009

starting point

Established the global construction machinery equipment store, which is mainly engaged in the wholesale and sales of seals related to construction machinery such as excavator seal kits, loader seal kits, bulldozer seal kits, and breaker seal kits. The business area covers more than 30 cities in China.

accumulation

2013

Established Guangzhou Global Sealing Technology Co., Ltd. and opened a seal factory, mainly producing various types of construction machinery seals, laying a solid foundation for the company to become bigger and stronger.

2014

Stable and mature

The company's business began to transform, and the sales scope extended from only domestic markets to overseas markets. Since then, the company has established another trading company—Guangzhou Songka Construction Machinery Co., Ltd.

innovation

2020

The company's brand was upgraded in an all-round way, and a management service center was set up in overseas markets. The company was renamed Guangzhou Songka Seals Co., Ltd., facing the world with a unified brand image.
