

FROM 1999  
26<sup>th</sup> YEARS

1999年，**东莞市万江荣盛滤清器厂**在广东省成立，同年**荣盛滤清器品牌**诞生。20世纪初随着国内工程机械行业的高速发展，荣盛滤清器于2004年成功在全国设立28个省级品牌销售代理。2007年，公司投资5000万元人民币购买土地31000平方米，迁至浙江省长三角经济开发区嘉兴市。荣盛滤清器工厂一直坚守品质开创未来的理念生产优质滤芯，19年主机厂配套、供货经验，专注工厂机械后市场26年，连续生产3000万只滤芯无一泄漏。至2024年公司与世界各大工程机械主机厂配套保内外滤清器，与多家全球前**500强**主机企业建立合作。荣盛品牌的宗旨就是希望用一颗颗最优质的滤芯，服务到全世界每一个城市、每一个角落，把最纯净、最高效的过滤带给每一位用户。

我们真诚地希望同海内外客户友好合作、携手共进，共创美好明天！

# Why Should you choose Rongsun Filter?

FROM 1999  
**26**<sup>th</sup> YEARS

In 1999, CEO Mr Jiarong Guo and GM Mr Jiaping Guo jointly invested in the establishment of Dongguan Wanjiang Rongsun Filter Factory in Guangdong Province, thus the Rongsun Filter brand was born. In 2004 the company successfully established 33 provincial sales agents to distribute Rongsun Filters, meanwhile started to export filters to foreign countries. In 2007, the company purchased 31000 square meters land in Jiaxing Zhejiang Province, altered the name to Zhejiang Headman Filtration Technology Co., Ltd. Headman consist to the concept of quality to create the future and produce high-quality filters. Headman's filter brand Rongsun become more popular and it's quality has been recognized by more host factories. By 2024, Headman has cooperated with many world's top 500 main engine companies for filter solution. Rongsun Filter's mission is to use the highest quality filter elements to serve every city and every corner of the world, bringing the purest and most efficient filtration to every user.

## SPIN-ON FUEL FILTER

RONGSUN FILTRATION,  
SUPER POWER PROTECTION.

### Advantage

1 Filter Media 5 $\mu$ m,Ahlstrom paper, BASF PU.

2 After soaking in diesel oil at 80°C for 72h, the filter element has no degumming and cracking and other parts have no damage and deformation;

3 Bursting strength:1600kpa

4 Filtration efficiency:98.7%

5 Pressure loss:5kpa

6 Dust capacity:186g/m<sup>2</sup>

7 Peak pressure 850kpa,pulse frequency 2hz,100000 times without deformation and leakage

## SPIN-ON OIL FILTER

RONGSUN FILTRATION,  
SUPER POWER PROTECTION.

### Advantage

1 Filter Media 25 $\mu$ m,Ahlstrom paper. BASF PU.

2 After soaking in diesel oil at 135°C for 192h, the filter element has no degumming and cracking and other parts have no damage and deformation;

3 Bursting strength:2000kpa

4 Filtration efficiency:98.7%

5 Pressure loss:30kpa

6 Dust capacity:186g/m<sup>2</sup>

Peak pressure 400kpa,pulse frequency 2hz,100000 times without deformation and leakage
