

Achieve 30 km/h with Rubber Tracks! Newly Developed High-Speed Transaxle

Enhanced Straight-Line Stability

A dedicated powertrain delivers superior straight-line stability, making it ideal for high-speed operation.

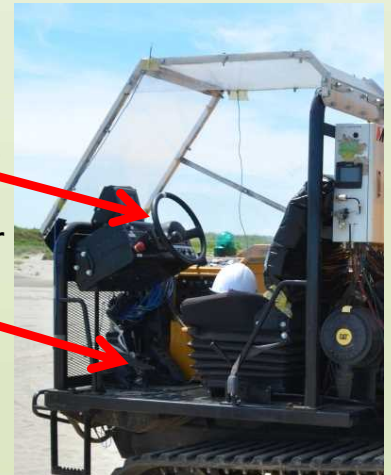

Easy Operation

Intuitive Controls: A familiar driving experience with a round steering wheel and two pedals (accelerator and brake).

Easy Maneuvering: Enables pivot turns.

The round steering wheel & two pedals provide a familiar feel, similar to a passenger car

Cabin

Proven Performance:

A prototype vehicle, payload of 4-ton, has demonstrated a speed of 30 km/h and excellent maneuverability in field tests.
