SERVICE

Focusing on the commercial vehicle industry, with smart cabin as the core, the company is an integrator of hardware and software system including driving safety, vehicle management, intelligent driving, and intelligent network. Our products are based on video security collection, storage, monitoring, connecting cloud and data computing products, commercial vehicles with special thermal imaging dual light fusion night vision system, intelligent cockpit display, multi-way 360 panoramic system for blind zone, etc. Based on the combination of hardware product sets, we provide personaized technical bases for commercial vehicle intelligence, informationization, digitalization and and networking, and to build a commercial vehicle networking operation service platform integrated with high-quality software and hardware system.

CORE TECHNOLOGY

The company focuses on the core technology of intelligent driving software and hardware platform of commercial vehicle, integrates the advantageous products of the world's cutting-edge partners, with varieties and small-volume output and the company has potentially become leader in the whole market segment. Mingshang shareholders: Arcsoft, Horizon Robotics, Pateo, Zijin Mining, Shenzhen Smart City, etc.

HONORS & AWARDS OF ACHIEVEMENTS

- National High-tech Enterprise Certificate
- National High-tech Product Certificate
- National Safety Technology Center CCC Product Certificate
- Certificate of ISO 9001/IATF16949 Quality Management System
- Passed ISO 14001:2015 Environmental Management System Certificate
- Passed ISO 45001:2018 Profession Health and Safety Management System Certificate
- Passed CMMI Level 3 Software Capability Maturity Integration Model Certificate

R&D Achievements

•	2024,	Vehicle central domain control (triple screen).
•	2023,	Remote driving intelligent control system, fully integrated intelligent cockpit,
		AVM all-in-one system + 6-channel video intelligent ministry standard integrated machine.
•	2022,	Thermal image camera, auto shutter camera, forklift camera, NVR.
•	2021,	Developed Al multimedia, driver state monitor, active safety video terminal,
		360 degree panoramic system, high limit detection & warning system.
•	2020,	Developed 12.1" Android Auto Apple CarPlay built-in Bluetooth,
		Digital media receiver / multimedia receiver.
•	2019,	Developed HD 4 CH 5", 7", 9" Digital Wireless Rear View System.
•	2018,	Developed DSM and Streaming Rearview Mirror DVR.
•	2017,	Developed 4CH quad 7" HD camera system with DVR function.
•	2016,	Developed 10.1" quad AHD rear view system & 4CH AHD SD card DVR.
•	2015,	Developed 8CH HDD DVR, camera cleaning system & 7" quad 1080P rear view system.
•	2014,	Developed 4CH HDD DVR, GPS tracker and WIFI wireless rear view system.
•	2013,	Developed 360° bird view system & a series of digital wireless system.
•	2012,	Developed the first 7" quad touch screen rear view system.
•	2011,	Passed TS16949:2009 &IS09001:2008.
•	2010,	Developed 7" & 9" rear view system and passed CE & FCC.
•	2009,	Developed the first 7" analog wireless rear view system.
•	2008,	Developed the first 5.6" and 7" digital rear view system.
•	2007,	Developed a series of car license plate cameras and passed CE.
•	2006,	Developed the first 3.5" and 4.3" rear view system.
•	2005,	Developed the first 7" GPS rear view system.
•	2004,	Developed the first 7" rear view system MS-702RSC.

2003, Specialized in car rear view system.

AHD 2.4GHz Digital Wireless Forklift Camera

- · Magnetic wireless forklift safety camera, easy to install
- IP69K waterproof with metal shell, durable and fit for forklift to work outside
- Can be conveniently powered by external battery
- Green laser to help the operator calibrate more accurately

• IATF16949:2016 • E-mark • CE • FCC | 18 17 VEHICLE VISUAL SAFETY SOLUTIONS 2025

AHD 2.4GHZ Digital Wireless Forklift Camera

- 720P HD wireless forklift camera, easy to install
- IP69K waterproof with metal housing, durable and fit for forklift to work outside
- Conveniently powered by rechargeable external battery
- Green laser to help the operator calibrate more accurately

Wireless Transmission Up To 300 Meters

- 9-inch HD wireless DVR system with a 30x zoom camera
- Simple zoom mechanism with a wireless monitor, remote control, and infrared night vision
- Designed for cranes, hoists, and tower cranes to improve operational ease, efficiency, and safety
- · Commonly used in port, mining, machinery, lifting and construction industries
