

The Go-To for Long-Lasting Engines Sensei Crankshafts

**SENSEI CRANKSHAFTS ARE
NOW IN STOCK!**

The crankshaft is a component often referred to as the “heart” of a diesel engine, responsible not only for transmitting mechanical power but also for supporting the engine timing mechanism. The material quality, machining precision, and balance of the crankshaft are critical to the engine’s lifespan and performance; an unbalanced or low-durability crankshaft increases engine vibration and shortens the life of components such as bearings and pistons. Manufactured using advanced forging technology that preserves the material’s grain flow, Sensei Crankshafts deliver significantly higher strength, impact resistance, and fatigue durability compared to cast or machined alternatives—extending your engine’s service life. With our extensive stock support specially prepared for Yanmar industrial diesel engines, we are ready to meet your needs.

The **Sensei Crankshafts** in our stock are compatible with the following **YANMAR** industrial engine models:

- 2TNV70 , 3TNV70 , 3TNV74F , 3TNV76 , 3TNV80F , 3TNE82A , 3TNV82A , 3TNE84 , 3TNV84 , 3TNV86CT , 3TNV88 , 3TNV88C
- 4TNE84 , 4TNV84 , 4TNV86CT , 4TNE88 , 4TNV88 , 4TNV88C , 4TNE92 , 4TNE94L , 4TNV94L , 4TNE98 , 4TNV98 , 4TNV98T , 4TNV98C , 4TNV98CT , 4TNV106, 4TNV106T

Take advantage of our strong inventory this month and ensure timely supply for your needs. Contact us today for more information or to place your order.
