

SJ-25A 型 旋喷钻机

SJ-25A型旋喷钻机是我司基本SJ-20型旋喷钻机基础上研发而成的加强型旋喷钻机。

主要特点如下：

1. 采用双马达回转动力，扭矩更强，峰值可达3500NM；
2. 适应地层广泛；
3. 起拔力可达到40kN。
4. 适合工艺广。除满足旋喷工艺外，还可用于锚固工艺的施工。
5. 配置部件多。用户可根据不同的工程发展需要，选择不同的性能模块，也可根据工程的不断发展，再行配置。如单重、二重、三重模块；摆喷、定喷模块；锚固模块。
6. 操作维护方便。由于采用了全液压系统，在关键性能上有了突破，如旋喷提升、锚固钻进时增加了无级调速模块，使之工作时操作方便。
7. 钻具配套齐全。根据市场需要，我们开发了大量的旋喷钻进，来满足用户的各种需求，如单重、二重、三重、定喷、摆喷钻具。
8. 组合方便。用户可根据各自的发展情况选择不同的组合，以得到性能价格比优的设备。

主要技术参数/Main technique specifications:

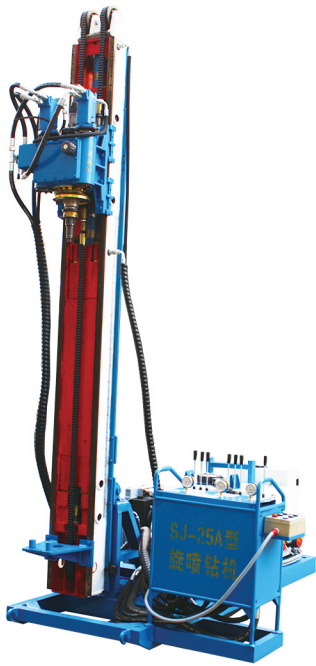

使用性能	Parameters	SJ-25A
钻孔角度	Hole angle	0~90°
最大输出扭矩	Output torque（max）	3500N·m
最大输出转速	Output speed（max）	95r/min
动力头提升力	Lifting force of rotary head	40kN
动力头加压力	Feeding force of rotary head	25kN
提升速度	Lifting speed	0~1.5 ,9,11m/min
加压速度	Plus-pressure speed	2.5,15,18m/min
动力头行程	Stroke of rotary head	2300mm
电机功率	Electric power	22+1.5 kW Electric / 40 kW Diesel
施工状态(长*宽*高)	Working Dimension(L*W*H)	3100*1500*3750(mm)
运输状态(长*宽*高)	Transport Dimension(L*W*H)	3100*1500*1500(mm)
重量	Weight	1400kg
安装形式	Mounting type	走管式 pipe type

SJ-25A Jet-Grouting Drilling Rig

SJ-25A is our new strengthened type jet-grouting drilling rig, which is developed by our R&D department on the basis of SJ-20 jet-grouting drilling rig.

Main Characters:

1. With its double motor drive, it has stronger torque that can achieve 3500N.m at best.
2. It can work on various kind of stratum layer.
3. It can reach the best pullout drilling force of 40kN.
4. Applicable for wide range of processing: Except for jet-grouting processing, this machine can also be applied in anchoring processing construction.
5. Relative accessories: Clients can select different module function in accordance with different construction requirements. You can choose to purchase all relative accessories one time, you can also come back to buy suitable accessories according to the development of the construction situation, such as single, double and triple module, swing jet and fixing jet module, anchoring module.
6. Convenient for maintenance and operation: The operation is much more convenient, as we adopt full hydraulic technology and take down some important breakout on key technology link. For example, we add adjustable level module in jet-grouting lifting and anchor drilling.
7. Complete set of drilling tools: We develop a large number of jet-grouting drills to meet various demands of our clients in accordance with market demand such as drill of single, double, triple, swing jet and fixing jet.
8. Convenient combinations: According to the development of their respective development needs, clients can choose different combinations to get a better cost performance of equipment.
