Langfang Chengzhuo Automotive Seats Co., Ltd. is located in Wen'an Industrial New District, Wen'an County, Langfang City, Hebei Province, adjacent to the Xingzu section of National Highway 106, offering convenient transportation access. Established in 2003, the company specializes in manufacturing various vehicle seats—including construction machinery seats, agricultural machinery seats, truck driver seats—and their accessories. With registered capital of RMB 5 million, it possesses advanced mechanical processing equipment for shearing, stamping, welding, and painting, achieving an annual production capacity of 200,000 seat sets. With over 7,000 square meters of production space, the company handles complete in-house design and manufacturing from components to finished products without outsourcing, ensuring quality while reducing costs. This enables us to offer customers high-quality products at competitive prices. We prioritize quality for survival, pricing for growth, and service for reputation. We are committed to providing the best products and services to our clients and welcome partnerships with all sectors to pursue mutual development and shared success.
