

DIAL TORQUE WRENCH

Features

- Large laser-engraved dial for easy and accurate reading.
- Protective dial guard helps protect the dial from the accidental impacts.
- Moveable scale always faces the operator.
- Memory pointer records peak torque readings.
- Accuracy remains unaffected by hand position.
- Lightweight aluminum alloy construction.
- Accuracy $\pm 3\%$, CW/CCW from 20% to 100% of full scale.
- Meets DIN ISO 6789 and ASME B107.300-2010.
