BUCKET TEETH

XIAMEN GOLD FORGING INDUSTRY CO.,LTD
厦门市金锻实业发展有限公司

COMPANY PROFILE

Established in 2014, **XIAMEN GOLD FORGING INDUSTRY CO.,LTD**, it belongs to the integration of industry and trade, our factory located in Quanzhou, we has more than 9 years industry experiences in Construction Machinery Parts, like bucket attachment, undercarriage parts, cutting edged, especially good at Forged Parts, like Forged Bucket Teeth, Ripper Teeth, Adapter etc.

In-house factory controls the entire process from raw material to final packaging. Our forged teeth products are strictly select from high-quality raw materials derived from large steel plants, moreover we introduced latest hydraulic forging machine to improve the precision of bucket teeth and enhance mechanical performance, improve teeth wear resistant.

Relying on mature forging technology and high-quality products, our products has won the recognition of the market, and sales network spreads throughout North America, South America, Southeast Asia, the Middle East, Southeast Asia and other regions.

With the development concept of "High quality, GOLD FORGING made", we can provide the most professional Construction Machinery Parts for our partners.

COMPANY HISTORY

Since
★ **1995**

Set up Quanzhou Huada Machinery, focusing on production of forging net grid parts

★ **2002**

Set up Xuzhou Minda Branch. Set up forging net grid sales network

★ **2014**

Established Huixin Minda Machinery, focus on development of forging parts technology and improvement

★ **2018**
⌞
2015

Established R&D department, main developed forged bucket teeth and adapter, and successfully developed

★ **2021**

Established Xiamen Gold Forging, focus on service overseas market

★ **2022**

Gold Forging products are sold to more than a dozen overseas markets, and the product quality is recognized by customers
