

●»» 空港车辆阀组

Airport Vehicles Valve Block

机场集装箱货物装载机
Airport Cargo Loader

飞机牵引车
Aircraft Tractor

- 特点：
- 1. 平稳柔性控制，机制防护航空资产；
 - 2. 全域工况强适配，耐候性适配机场户外环境；
 - 3. 可靠度高，保障航班准点运转；
 - 4. 高精度控制，作业效率大幅提升；
 - 5. 集成易维护，降本增效适配设备升级。

- Features:
- 1. Smooth and flexible control to protect aviation assets effectively.
 - 2. Strong adaptability to all working conditions, with weather resistance suitable for outdoor airport environments.
 - 3. High reliability to ensure on-time flight operations.
 - 4. High-precision control for significantly improved operational efficiency.
 - 5. Integrated and easy-to-maintain design, reducing costs and improving efficiency for equipment upgrading.
